## CREATURE FEATURE

### FRILLED LIZARDS

The Frilled Lizard is an arboreal reptile native to Australia and New Guinea. It gets its name from the large flap of skin around its neck and face that, when frightened, it raises up into the iconic frill. This is an amazing sight, but it means the animal is feeling very stressed. Keepers should avoid forcing this defensive display.

**LIFE SPAN:**  
Approx. 10 Years

**ADULT SIZE:**  
Approx. 2-3 Feet

**DIET:** Crickets, Superworms, Other Insects, Vitamin D3 Supplement

**HOW MANY:**  
Best as Single Pets

### DIFFICULTY:

#### SET-UP

Moderate ▼

#### CARE ROUTINE

Moderate ▼

#### COST OF UPKEEP

Low ▼

#### AVAILABILITY

Moderately Difficult ▼

### HABITAT:

Frilled Lizards are often happiest as display pets, preferring to spend time in their enclosure, so extra care should be taken to ensure an ideal environment. Vertical space is very important and you should maintain an ambient temperature range of 85-90°F and approximately 70% humidity.

### NECESSITIES:

- Enclosure a Minimum of 4 Ft. Tall
- Branches or Other Climbing Decor
- UVB/ Heat Bulbs & Light Fixtures
- High Humidity Substrate
- Spray Bottle for Cage Misting

### ACCESSORIES:

- Plants, Rocks or Other Decorations

## NATIONAL WILDLIFE REFUGE SYSTEM

### Washington Junior Duck Stamp Contest Deadline Announced

The deadline for entries into the U.S. Fish and Wildlife Service (Service) Junior Duck Stamp art contest in Washington State is fast approaching, which is even earlier than previous years. For 2023, all entries must be postmarked or in-hand at Ridgefield National Wildlife Refuge (NWR), the entity that administers the program in Washington, by **February 15, 2023**. This will ensure staff have the time needed to process entries and judging in-person this year at the new refuge headquarters.

Entries may be addressed to:

**Junior Duck Stamp Contest Ridgefield Refuge Complex, 28908 NW Main Ave, P.O. Box 457, Ridgefield, WA 98642**

The Federal Junior Duck Stamp (JDS) Conservation and Design Program is a dynamic art- and science-based curriculum that teaches wetland and waterfowl conservation to students in kindergarten through high school. The JDS program, which began in 1989, encourages students to explore their natural world, invites them to investigate biology and wildlife management principles and challenges them to express and share what they have learned with others.

Each year, students in kindergarten through grade twelve compete in this free wildlife art contest. The object of the contest is for students to show what they have learned about waterfowl and wetland conservation by drawing or painting a native North American duck, goose, or swan. Approximately 20,000 students entered state art contests in 2019. By displaying student artwork and delivering waterfowl and wetland related outdoor activities, state coordinators share student accomplishments with over 300,000 students, families, and communities annually.

The winner of the state contest then moves on to the national contest. Last year's "Best of Show" winner for Washington was awarded to a 13-year-old resident of the greater Portland-

Vancouver metro area who depicted a King Eider on the water. Other awards for the "Best of Show" winner included a visit to the Ridgefield NWR for an awards ceremony, a new pair of binoculars, art supplies, and books about nature journaling.

The winning artwork from a national art contest serves as the design for the Junior Duck Stamp, which the U.S. Fish and Wildlife Service produces annually. This \$5 stamp has become a much sought-after collector's item. One hundred percent of the revenue from the sale of Junior Duck stamps goes to support recognition and environmental education activities for students who participate in the program.

For more information about the Washington contest, please contact Mesha Wood, State Coordinator, at [mesha\\_wood@fws.gov](mailto:mesha_wood@fws.gov).

To see the state winners for the 2022 contest, please visit the USFWS Flickr page at [www.flickr.com/photos/usfwsq](https://www.flickr.com/photos/usfwsq). For more information about the Junior Duck Stamp Contest including rules and regulations, please visit the official website at [fws.gov/program/junior-duck-stamp](https://www.fws.gov/program/junior-duck-stamp).

The U.S. Fish and Wildlife Service works with others to conserve, protect and enhance fish, wildlife, plants and their habitats for the continuing benefit of the American people. For more information, visit <https://www.fws.gov/about/region/pacific> and connect with us on social media: Facebook, Instagram, Twitter, LinkedIn, Flickr, and YouTube.

## CAT OF THE WEEK

Meet **Rotisserie!** Rotisserie is a darling cat with quite a few needs. She is well beyond "chubby" and really needs someone who will get her back into a healthy condition. Rotisserie is a beautiful tabby/calico and is still pretty young. She loves to be brushed, which is a good thing since she can't groom herself very well. She'll purr and knead and show her appreciation for your attention!

Please contact the **Wenatchee Valley Humane Society** at (509) 662-9577 or visit our website at [www.WenatcheeHumane.org](http://www.WenatcheeHumane.org)

**PLEASE SPAY OR NEUTER YOUR PETS!**

# WEEKLY Horoscopes for Feb 3-9

 **ARIES – Mar 21/Apr 20**  
Aries, it's important to focus on progress and not necessarily on money that can be made. See what you can learn along the path you choose.

 **TAURUS – Apr 21/May 21**  
You have high hopes that your efforts will be well received this week, Taurus. Before you move full speed ahead, run your ideas by a trusted group of confidantes.

 **GEMINI – May 22/Jun 21**  
You don't learn by getting things right all of the time, Gemini. A few mistakes along the way provide an opportunity to grow and figure out new ways to do the job.

 **CANCER – Jun 22/Jul 22**  
Cancer, distractions seemingly abound this week and your head isn't in the game. While you can get away with a few oversights here and there, too many can be problematic.

 **LEO – Jul 23/Aug 23**  
Leo, someone in your life is looking for a pep talk and you are just the person to provide one. Listen to the problem at hand and offer this person some solid solutions.

 **VIRGO – Aug 24/Sept 22**  
Virgo, you could be at a crossroads in your life. You are pondering many different scenarios, and now is the time to solidify plans for the next few weeks.

 **LIBRA – Sept 23/Oct 23**  
If you made a career change recently, you may be discovering that the payoff isn't quite what you expected. Fulfillment is essential, so give some thought to new pursuits.

 **SCORPIO – Oct 24/Nov 22**  
Scorpio, it is not like you to feel adrift, but that could be the situation right now. Latch on to one activity or person that brings you joy. Focus on the positives in life.

 **SAGITTARIUS – Nov 23/Dec 21**  
Sagittarius, family members want to spend more time with you, so plan for the extra company. Have a few extra snacks on hand and make sure the house is orderly.

 **CAPRICORN – Dec 22/Jan 20**  
Your tendency to want to tackle things all on your own could have you pushing others away, Capricorn. Accept others' willingness to pitch in.

 **AQUARIUS – Jan 21/Feb 18**  
Aquarius, there has been a lot on your plate and many thoughts swimming through your mind. A quick getaway could be what is needed this month.

 **PISCES – Feb 19/Mar 20**  
Pisces, you have a few offers on the table, but could be having trouble narrowing down your preference. Bring in a third party to help.

## DISCOVER THE MANY BENEFITS OF MODULAR HOMES

If you're shopping around for a new home that is also environmentally friendly, consider a modular build. Modular homes are highly customizable and are built almost entirely in a factory setting, saving both homeowners and builders time, effort and money.

Once the main modules of a new home are constructed — complete with attached walls, floor, ceiling, wiring, plumbing and interior fixtures — they are transported to the homeowner's chosen lot and placed on a permanent foundation by a crane. Each home is designed and constructed to meet all state and national building and fire codes, and a local builder does the final finish work.

Consider the following features and benefits of modular homes:

### Modular Homes Are Eco-Friendly

Modular homes are green by their very nature. Assembly in an enclosed indoor environment allows them to fulfill key components of green building certifications, including the ICC 700 National Green Building Standard\*. During modular home construction, material waste is reduced at the factory and the job site. As a result, the environmental impact on the land and the community is lessened. In addition, modular homes are often more tightly built and thus more energy efficient, which can result in lower heating and cooling costs for the homeowner.

### Modular Homes Offer Flexible Designs

While most manufacturers have a portfolio of home plans to choose from, computer-assisted design (CAD) allows limitless design and customization possibilities when planning a new modular home. Also, modular construction allows for a quick turnaround between groundbreaking and occupancy. A typical modular house can be move-in ready in about 3 months. And more often than not, the finished product is indistinguishable from a site-built home.

### Modular Homes Save Time and Money

Modular homes are designed and constructed to meet or exceed local building codes and allow nearly 90% of a home to be constructed offsite. This type of home is built in a controlled factory environment while the building site is also being prepped. Most work is done in the factory, so weather delays, missing materials and subcontractor no-shows are all but eliminated, saving time and money.

### Modular Homes Offer Quality Construction

Homes in a factory setting allow for more consistent quality due to uniform construction processes, training techniques and inspections. Before leaving the factory, all homes are inspected by an independent, third-party home inspection agency. Once on-site, they are again inspected, this time by a local building inspector. As a result, these homes meet and often exceed all requirements of locally adopted building and fire codes.

To learn more about modular homes or new homes available in our community, contact the Central Washington Home Builders Association or visit CWHBA.org
