“The Outdoor Insider”

I don't expect to see many people outdoors on Sunday, February 12th. On Super Bowl Sunday most people able to draw a breath would be at home, watching the game. When I first started going to the Seattle Boat Show it went through two weekends. As the Super Bowl began to be played later and later it fell on the last Sunday of the show. Since no one was showing up, they closed the show on the Saturday of the last weekend.

I am getting reports of good ice fishing on some of the lakes in the region. Although we have had some warmer days, it appears that the ice is holding up. I still want anglers to carefully check the thickness of the ice before venturing too far out on your favorite lake. Even though we are still having pretty chilly evenings, daytime temperatures are often in the low 40s.

A fairly new development in recent winters has been the fishing for kokanee through the ice. A technique that I first heard about being used in Idaho has spread to our region, and that is using kokanee blades to jig for kokanee. Kokabow Fishing Tackle makes very effective blades that can be used through the ice. These blades are typically coupled with a Swedish Pimple, baited with scented corn. Jigging the set up works great. This week's photo is of a selection of Kokabow Blades and Swedish Pimples.

I visited anglers at a few lakes last winter and found anglers using this method. There are several lakes that have good populations of kokanee in our region, these include Patterson Lake, near Winthrop, Palmer Lake, near Oroville, Bonaparte Lake, near Tonasket and Fish Lake, near Lake Wenatchee. I tried Fish Lake last spring and caught kokanee that were a solid 12 inches long. They should be much larger now. It would be fun to get some kokanee this winter, and I suggest trying it soon, while the ice on our region's lakes are still safe enough for drilling holes.

The days are getting a little longer, but we are still in the midst of winter. If you aren't a fan of ice fishing here's an idea about how to pass the time un-

til we get warmer weather. A long-time outdoor writer for the Yakima Herald, Rob Phillips, has published a four-book fictional series of the adventures of Luke McClain. McClain is a fish and wildlife officer who seems to get involved in investigating crimes that lead him outside the bounds of his regular duties.

Phillips does an excellent job of keeping readers glued to the pages of these novels. When I learned that Rob had published the books, I ordered the first one on Amazon. Before I had even finished the first one, I ordered the other three in the series. These are a very quick read, and I didn't want to have to wait to get the next one. I am

an avid reader and found the Luke McClain character very real and compelling. I have known Rob for years and was very impressed with his amazing writing abilities. I would highly recommend that you give these books a read. I think you will be ordering the whole series as I did.

You may get a chance to meet the author in person at the Central Washington Sportsman's Show in Yakima on February 24th. Phillips has been a regular on the list of presenters of seminars at the show. I am sure he would be happy to see you and maybe autograph a copy of his book.

I did a seminar via Zoom last Friday for the Seattle Boat Show. I could see that I had the biggest crowd ever in the audience, and I had a lot of follow up questions for those who attended via e-mail.

It occurred to me that many of the details people asked about in the questions I received could be found in the free Winter issue of my E-Letter. I had

a lot of great comments from folks who received this last issue. If you haven't signed up for the free E-Letter, just go to www.fishingmagician.com and click on the E-Letter button at the top left hand side of the Home Page. It's easy and I will get a copy sent to your e-mail box right away.

It was a beautiful morning last Sunday, so I decided to drive up to Fish Lake, near Lake Wenatchee. I arrived about 8:30 and the parking lot was full of vehicles, and I could see people either sitting on chairs over their holes in the ice or in shelters. A couple was just leaving, and I saw their bucket of nice perch they had already caught that morning. Everyone I talked to had perch on the ice. Later that day I ran into a buddy of mine at a grocery store in Leavenworth. He just got back from Fish Lake and said he had been up there a few times this winter. He always gets a mess of perch and has also caught some kokanee. He told me that he got a transducer for the depth sounder in his boat and can now use it when ice fishing. This really pays off when you are trying for kokanee. These fish are usually shallow, not on the bottom like perch, and it really helps to spot them when they pass under this hole. He can put his Swedish Pimple at just the right depth. He said Fish Lake kokanee are mostly 12 inches long.

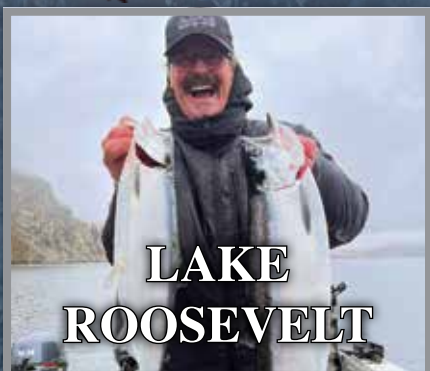

Looking ahead at what's happening in the coming month I wanted to remind everyone about the annual Sportsmen's Show in Yakima. It will be at the Sundome starting on Friday, February 24th. I really like this one, as it is small enough to take everything in, and they have so many things that the kids can do.

Also, the annual Wenatchee Sportsman's Game Feed is schedule for Friday, March 3rd. The Wenatchee Sportsman's Association dedicates hundreds of volunteer hours every year. Their project all benefit local fish and wildlife. The auctions at this event provides the funding for these projects. The game feed is not only a great meal and an opportunity to try game meat prepared very well, but also a lot of fun. Get your tickets at Hooked on Toys before they sell out!

Cancer, you are still following through with resolutions to be more organized. Start slowly and build up to bigger projects when you gain confidence in your abilities.

LEO – Jul 23/Aug 23

Celestial energy has you temporarily doubting your abilities, Leo. Normally you are quite confident in your creativity. Give things a little time to settle down.

VIRGO – Aug 24/Sept 22

Virgo, excitement could be on the horizon. Caution is needed, but don't hesitate to embrace the renewed vigor this development inspires.

LIBRA – Sept 23/Oct 23

Libra, this week you may start micromanaging other people without even realizing it. You certainly want things to be in order, but sometimes you have to let others be.

SCORPIO – Oct 24/Nov 22

Retail therapy has its allure this week, Scorpio. If you must buy, direct your purchasing dollars toward a sweetheart for Valentine's Day or another special occasion.

SAGITTARIUS – Nov 23/Dec 21

Sagittarius, ground yourself with the small luxuries in your life that bring you joy. This could be the company of friends or cherished mementos.

CAPRICORN – Dec 22/Jan 20

Misinformation seems to circulate with ease, but don't believe everything you hear this week, Capricorn. You may need to do some fact-checking of your own.

AQUARIUS – Jan 21/Feb 18

Aquarius, you could be tempted to indulge in a little gossip as the rumors start flying this week. Take the high road and resist the urge to join in.

PISCES – Feb 19/Mar 20

Pisces, if you feel a little off your game this week, find a friend who can offer you a pep talk. That's all you need to bounce back.

FLOOD AND HIGH WIND SAFETY WSDOT

WET WEATHER DRIVING TIPS:

- Slow down
- Leave extra room between cars
- Allow extra time to reach destinations
- Turn on headlights
- Watch for water pooling on the roadway
- Turn off cruise control

6 INCHES

of water is enough to knock a person down and will stall most vehicles.

1 FOOT

of water can make you lose control of your vehicle.

2 FEET

of water can sweep a vehicle away — even SUVs and trucks.

Obey detour and closure signs. NEVER drive around a barricade.

HYDROPLANING RECOVERY

- Don't panic
- Avoid hard breaking and quick turns
- Ease off gas, lightly pump brakes (or use consistent pressure if ABS)

DOWNED POWER LINES

- Stay far away from downed power lines and call 911.
- Always assume a power line is live.
- Do not touch anything or anyone in contact with a fallen power line or other equipment.
- If a downed power line touches your car, **stay inside**. Honk your horn, roll down your window and call for help or call 911. Wait for fire department or utility workers to tell you it's safe to exit.
- If you must leave due to fire risk: **remove loose clothing, jump clear of the vehicle so you're not touching the vehicle when you land; shuffle away without picking up your feet.**

Can't see the road, don't drive through the water.

If floodwaters surround your car but the water is not moving, abandon your car, seek high ground and call for help. **If water is moving, do not leave your car.**

TURN AROUND, DON'T DROWN

Do not drive or walk through standing water if you can't tell how deep it is. Water hides missing or washed out pieces of road.
