THINKING OF NEW FLOORING?

FAQ's about LVP Flooring

Can I install LVP over my existing floor?

Depends on the flooring. In some cases, yes. Must be a hard flooring surface & if the height of the subfloor allows, then yes.

Will it withstand pet activity & moisture?

LVP/T is incredibly water resistant & has a wear rating of 12 MIL which exceeds the residential standard.

Does it take a professional to install this type of floor?

No it does not. It is a click-in floating floor & can be installed by any DIY'er.

How does it compare with the cost of carpeting?

OPERATION DOG TAG

OperationDogTag.org

Joe, I want to say thank you for all Operation Dog Tag has done for me by providing me with a black Lab puppy to be trained as a service dog for me. "Gunny" is what I have named him in honor of my service in the Marine Corps. The training you have provided, and continue to provide for me, and for Gunny to be trained as a service dog, is invaluable to me as my dog helps with my "PTSD" (Post Traumatic Stress Disorder). I am looking forward to our next training session.

Dave Jayne
"The Outdoor Insider"

I don't expect to see many people outdoors on Sunday, February 12th. On Super Bowl Sunday most people able to draw a breath would be at home, watching the game. When I first started going to the Seattle Boat Show it went through two weekends. As the Super Bowl began to be played later and later it fell on the last Sunday of the show. Since no one was showing up, they closed the show on the Saturday of the last weekend.

I am getting reports of good ice fishing on some of the lakes in the region. Although we have had some warmer days, it appears that the ice is holding up. I still want anglers to carefully check the thickness of the ice before venturing too far out on your favorite lake. Even though we are still having pretty chilly evenings, daytime temperatures are often in the low 40s.

A fairly new development in recent winters has been the fishing for kokanee through the ice. A technique that I first heard about being used in Idaho has spread to our region, and that is using kokanee blades to jig for kokanee. Kokabow Fishing Tackle makes very effective blades that can be used through the ice. These blades are typically coupled with a Swedish Pimple, baited with scented corn. Jigging the set up works great. This week's photo is of a selection of Kokabow Blades and Swedish Pimples.

I visited anglers at a few lakes last winter and found anglers using this method. There are several lakes that have good populations of kokanee in our region, these include Patterson Lake, near Winthrop, Palmer Lake, near Oroville, Bonaparte Lake, near Tonasket and Fish Lake, near Lake Wenatchee. I tried Fish Lake last spring and caught kokanee that were a solid 12 inches long. They should be much larger now. It would be fun to get some kokanee this winter, and I suggest trying it soon, while the ice on our region's lakes are still safe enough for drilling holes.

The days are getting a little longer, but we are still in the midst of winter. If you aren't a fan of ice fishing here's an idea about how to pass the time un-

til we get warmer weather. A long-time outdoor writer for the Yakima Herald, Rob Phillips, has published a four-book fictional series of the adventures of Luke McClain. McClain is a fish and wildlife officer who seems to get involved in investigating crimes that lead him outside the bounds of his regular duties.

Phillips does an excellent job of keeping readers glued to the pages of these novels. When I learned that Rob had published the books, I ordered the first one on Amazon. Before I had even finished the first one, I ordered the other three in the series. These are a very quick read, and I didn't want to have to wait to get the next one. I am

an avid reader and found the Luke McClain character very real and compelling. I have known Rob for years and was very impressed with his amazing writing abilities. I would highly recommend that you give these books a read. I think you will be ordering the whole series as I did.

You may get a chance to meet the author in person at the Central Washington Sportsman's Show in Yakima on February 24th. Phillips has been a regular on the list of presenters of seminars at the show. I am sure he would be happy to see you and maybe autograph a copy of his book.

I did a seminar via Zoom last Friday for the Seattle Boat Show. I could see that I had the biggest crowd ever in the audience, and I had a lot of follow up questions for those who attended via e-mail.

It occurred to me that many of the details people asked about in the questions I received could be found in the free Winter issue of my E-Letter. I had

a lot of great comments from folks who received this last issue. If you haven't signed up for the free E-Letter, just go to www.fishingmagician.com and click on the E-Letter button at the top left hand side of the Home Page. It's easy and I will get a copy sent to your e-mail box right away.

It was a beautiful morning last Sunday, so I decided to drive up to Fish Lake, near Lake Wenatchee. I arrived about 8:30 and the parking lot was full of vehicles, and I could see people either sitting on chairs over their holes in the ice or in shelters. A couple was just leaving, and I saw their bucket of nice perch they had already caught that morning. Everyone I talked to had perch on the ice. Later that day I ran into a buddy of mine at a grocery store in Leavenworth. He just got back from Fish Lake and said he had been up there a few times this winter. He always gets a mess of perch and has also caught some kokanee. He told me that he got a transducer for the depth sounder in his boat and can now use it when ice fishing. This really pays off when you are trying for kokanee. These fish are usually shallow, not on the bottom like perch, and it really helps to spot them when they pass under this hole. He can put his Swedish Pimple at just the right depth. He said Fish Lake kokanee are mostly 12 inches long.

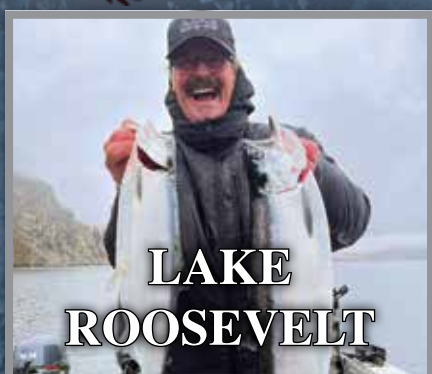

Looking ahead at what's happening in the coming month I wanted to remind everyone about the annual Sportsmen's Show in Yakima. It will be at the Sundome starting on Friday, February 24th. I really like this one, as it is small enough to take everything in, and they have so many things that the kids can do.

Also, the annual Wenatchee Sportsman's Game Feed is schedule for Friday, March 3rd. The Wenatchee Sportsman's Association dedicates hundreds of volunteer hours every year. Their project all benefit local fish and wildlife. The auctions at this event provides the funding for these projects. The game feed is not only a great meal and an opportunity to try game meat prepared very well, but also a lot of fun. Get your tickets at Hooked on Toys before they sell out!

February GARDENING TIPS

Master Gardeners of Spokane County

ATTEND A CLASS

Check out class offerings in your area. Community colleges, conservation districts and Master Gardeners all offer winter classes.

STARTING SEEDS

In February and early March you can start seeds indoors for early maturing vegetables such as broccoli, artichokes, leeks, onions and kale.

CHECK HOUSEPLANTS

Indoor, heated air is dry and many insects take advantage of the conditions and flourish. Check your indoor plants for aphids, mealy bugs and scale. A warm shower will usually do the trick to get rid of the pests.

WALKING ON GRASS

It may be tempting with little to no snow to get out and check on the garden, but stay on hard surfaces and paths. Walking on saturated sod will compact the soil and make it much harder for your grass to grow roots.
