UNBELIEVABLE AMOUNT OF GREAT ITEMS!

A two day estate sale! 9am Saturday February 25 & Sunday February 26, 2023 at 1014 8th St, Clarkston, Washington. As always, doors open at 9am sharp! To say this is a full house is a huge understatement! We have so much... a large shop loaded with tools like an Ingersoll Rand air compressor, a dust collection system, table saws, grinders, yard tools (power & manual), every tool you can imagine, & upstairs in the shop you will find a metal barristers cabinet, full size gym equipment, shelving & more. Now... moving into the house we have a beautiful 14 place setting collection of Noritake china, with Erdan Silverware (gold tone), crystal, English & Bavarian tea cup collection, a truly amazing collection of Japanese art, dolls, collectibles & more. There are more kitchen tools & utensils than I've seen anywhere! The beautiful dining table has a leaf and 6 matching chairs including two captain's chairs. There is another drop-leaf dining table upstairs in case you don't love the first one too! There is an adjustable hospital style bed, octagonal side tables, a very sweet writing desk & two smaller roll top desks. This owner spent time in the Southwest which led to the collection of beautiful Southwestern & Native American art... even a clay Chiminea! For some select photos, check our website at www.EstateTransitionsConcierge.com Look forward to seeing everyone on Saturday & Sunday!

To Find a Dealer Near You

HOW WE MAKE THE PERFECT PELLET...

The process begins with **RECYCLED** tree by-products.

Only the highest quality, **PREMIUM SELECT** wood shavings & sawdust are used

Next, the shavings go through a series of augers which chops them into smaller sawdust...

This allows the sawdust to more efficiently go through **THE DRIER**

At this stage, **MOISTURE** is driven from the wood fiber to ensure clean, consistent, hot burning pellets, that far exceed industry standards.

Through heat and pressure, **100% NATURAL** wood fiber is formed into a Super Premium Wood Pellet

RESULTING IN...

THE PERFECT PELLET!

BENEFITS:
Less than half the ash of others means less mess!
Low moisture content means much higher BTU output!

THINKING OF NEW FLOORING?

FAQ's about LVP Flooring

Can I install LVP over my existing floor?

Depends on the flooring. In some cases, yes. Must be a hard flooring surface & if the height of the subfloor allows, then yes.

Will it withstand pet activity & moisture?

LVP/T is incredibly water resistant & has a wear rating of 12 MIL which exceeds the residential standard.

Does it take a professional to install this type of floor?

No it does not. It is a click-in floating floor & can be installed by any DIY'er.

How does it compare with the cost of carpeting?

Comparable, but carpeting needs to be cleaned & eventually replaced.

HISTORIC PROPERTIES of IDAHO PANHANDLE

Fort Sherman Chapel

On April 16, 1878, an order issued from the headquarters of the US Army, District of the Clearwater officially established a new fort at the present location of North Idaho College. Construction of the fort began that summer, and the first buildings completed were barracks for the men, quarters for the single officers and cottages for the married officers and their families. The Chapel was among the next buildings constructed in 1880, along with the commissary, quartermaster building, hospital, post hall and powder magazine, and the stables.

The Fort Sherman Chapel is Coeur d'Alene's oldest church, school, library, and meeting hall. Fort Sherman was closed in 1900, and the buildings and property were sold at public auction in 1905. Developers bought what is today known as the Sherman Park Addition, which included the Chapel. Over the years, many denominations used the Chapel for church services. Concerted effort began in 1934 to preserve the Chapel. In 1942, the Athletic Round Table held the Chapel in trust and began repairs of the structure. To ensure the preservation of Coeur d'Alene's oldest standing building, the ART donated the Chapel to the Museum of North Idaho in 1984.

Today, the Fort Sherman Chapel is used as a venue for various history programs and can also be rented for private events such as meetings and weddings.

OPERATION DOG TAG

OperationDogTag.org

I met Joe Scheffer at "Operation Dog Tag", when I was at a very low point in my life... After coming home I began to struggle and fell deeper and deeper into what seemed like a black hole that had no exit. My marriage was in turmoil and I just couldn't get myself together, until Raider, my dog who was given to me by "Operation Dog Tag." This dog is so much more than a companion. He's like a glimmer of hope in a black hole of depression. This incredible pup has truly saved me, and I am blessed to have him!

DOG OF THE WEEK

Hi I'm **Angelina**. It would be best for me to go to a home with no kids, I love having my personal space and they don't always respect that. Once I'm used to you I love to cuddle and give kisses. I would do good with another dog as long as they are respectful but, we would still have to do a meet and greet. As for cats I would have to be tested. I keep my kennel here at KHS very clean.

Dave Jayne
"The Outdoor Insider"

We have had some warm weather throughout the region, but it looks like that's going to change. At our home there is snow in the forecast for many days later into next week, so be prepared. I think I will plan to fish from shore on Lake Roosevelt to avoid the chance that I will be fishing in snow.

I mentioned in an earlier report that the Colville Tribe had a release of triploid rainbow trout scheduled for some time in February. My contact said there could be as many as 20,000 included in the release. I checked in with Austin Moser, who is fishing Rufus regularly right now, and he said that it has obviously occurred. It is common for the tribe to release fish weighing 1.5 to 1.7 pounds, but Austin said that these fish are more like 2.5 pounds. Now that's a nice trout, but many anglers are trying for fish much larger. I want to remind folks that the daily limit for trout on Rufus Woods is two fish, and if you are fishing with bait, you must keep every fish you catch, regardless of size. You can find the regulation on the Sport Fishing pamphlet on page 25. I also want to mention that you can have great success fishing with jigs for these fish and would suggest that you use these and pinch the barb, so you can legally release the fish. You may even want to target walleye. You will still get triploids and may add some nice walleye to your catch. This week's photo is from a trip with Austin on Rufus last year.

I have trolled downstream below the upper net pens many times with a bottom bouncer and spinners for walleye and caught walleye along with triploids. Since there are so many new fish in the system on Rufus I will use another method. Fishing with my brother Rick and Steve Goodfellow a while back we tried some of the Hyper Glide jigs made by Acme Tackle, and the walleye loved them and we caught trout on them, too. These jigs have a rattle and even "wings" that open up when the jig drops so they actually glide through the water.

Another very effective walleye jig is the Jigging Rap made by Rapala. This jig has wings on the bottom end of the jig so it will also glide through the wa-

ter. They have a nice weight to them so it's easier to keep them vertical when drifting.

The first time that I fished with Austin for walleye on Rufus I got the first fish on a blade bait. Then Austin dug out some watermelon colored plastics and put them on a 3/8th ounce jig and that worked great. Last year we used these with a small stinger hook and that seemed to help increase our hook ups. The walleye from Rufus Woods are of exceptional quality, and it is not unusual to release several fish over 22 inches while getting our limits of five each.

I was in Moses Lake last week and the temperature was 50 degrees. On my way home I saw flight after flight of geese passing over. I ran over to

Potholes in the area of Lind Coulee and Medicare Beach, and although the ice covered the water it is shrinking away from the shoreline, and I saw a pressure fracture that ran out as far as I could see. It won't be long until the warm weather and some wind clears the ice off. Spring fishing isn't here yet, but spring fever is rampant. Last fall the walleye fishing was very good on Potholes, and I have my fingers crossed for good fishing this spring. According to the net surveys conducted by the Department of Fish and Wildlife the highest percentage of walleye should fall in the 12 to 20 inch class and the next highest percentage could be 20 inches and larger. If I re-

member correctly, last fall my buddy Brian Neilson had limited with walleye that averaged 15 to 16 inches.

Something that is often overlooked is the terrific trout fishing on Potholes. Anglers who target trout, either from the shore or trolling, can expect to catch trout averaging 3 pounds. As soon as the water opens up you can expect to see anglers lining the shore on Medicare Beach, which is on the east side of Potholes. Most people will be casting slip sinker rigs baited with Power Bait or a marshmallow and nightcrawler. Others will be trolling along the west side from the State Park down to Mar Don Resort. Rapalas, either jointed or regular style work well to attract strikes from Potholes rainbow.

Although I wrote about this last week, I wanted to remind readers that long-time outdoor writer for the Yakima Herald, Rob Phillips, has published a four-book fictional series of the adventures of Luke McClain. This fish and game wildlife officer seems to get involved in investigating crimes that lead him outside the bounds of his regular duties, and Phillips does an excellent job of keeping readers glued to the pages of these novels.

When I learned that Rob had published the books, I ordered the first one on Amazon. Before I had even finished the first one, I ordered the other three in the series. These are a very quick read, and I didn't want to have to wait to get the next one. I am an avid reader and found the Luke McClain character very real and compelling. I have known Rob for years and have to congratulate him on his excellent writing abilities. I would highly recommend that you give these books a read. I think you will be ordering the whole series like I did.

You may be able to meet Rob Phillips at the Central Washington Sportsman Show that starts on Friday, February 24th in Yakima. Rob often does seminars at this show, and you may also find him hanging out with the folks at the Yakima Bait booth.

I will be at the Central Washington Show on Saturday and Sunday. I will be with the crew from Bob Feil Boats and Motors. I like meeting people and talking boats and fishing at this show. So, if you make it there, be sure to look for me and say hi!

WHY USE A REALTOR®

7 Reasons to Use a REALTOR®

REALTORS® are members of the National Association of REALTORS® and subscribe to its strict Code of Ethics. When you're buying a home, here's what an agent who's a REALTOR® can do for you.

1. Act as an expert guide

Buying a home typically requires a variety of forms, reports, disclosures, and other legal and financial documents. A knowledgeable real estate agent will know what's required in your market, helping you avoid delays and costly mistakes. Also, there's a lot of jargon involved in a real estate transaction; you want to work with a professional who can speak the language.

2. Offer objective information and opinions

A great real estate agent will guide you through the home search with an unbiased eye, helping you meet your buying objectives while staying within your budget. Agents are also a great source when you have questions about local amenities, utilities, zoning rules, contractors, and more.

3. Give you expanded search power

You want access to the full range of opportunities. Using a cooperative system called the multiple listing service, your agent can help you evaluate all active listings that meet your criteria, alert you to listings soon to come on the market, and provide data on recent sales. Your agent can also save you time by helping you winnow away properties that are still appearing on public sites but are no longer on the market.

4. Stand in your corner during negotiations

There are many factors up for discussion in any real estate transaction—from price to repairs to possession date. A real estate professional who's representing you will look at the transaction from your perspective, helping you negotiate a purchase agreement that meets your needs and allows you to do due diligence before you're bound to the purchase.

5. Ensure an up-to-date experience

Most people buy only a few homes in a lifetime, usually with quite a few years between purchases. Even if you've bought a home before, laws and regulations change. Real estate practitioners may handle hundreds or thousands of transactions over the course of their career.

6. Be your rock during emotional moments

A home is so much more than four walls and a roof. And for most buyers, a home is the biggest purchase they'll ever make. Having a concerned, but objective, third party helps you stay focused on the issues most important to you when emotions threaten to sink an otherwise sound transaction.

7. Provide fair and ethical treatment

When you're interviewing agents, ask if they're a REALTOR®, a member of the National Association of REALTORS®. Every member must adhere to the REALTOR® Code of Ethics, which is based on professionalism, serving the interests of clients, and protecting the public.
