# WEEKLY Horoscopes for May 26 - June 1

## ARIES – Mar 21/Apr 20

Being more selective can enhance your life in many different ways, Aries. You often are judged by the company you keep, so think about that when starting new relationships.

## TAURUS – Apr 21/May 21

Set up camp on the sofa for the next few days, Taurus. Enjoy the rest and relaxation. You don't have to be productive every minute of the day so don't feel guilty about your R&R.

## GEMINI – May 22/Jun 21

Some interesting information could be coming your way, Gemini. You just need to keep your ear to the ground and open to receive it. Others may want to get in on the news.

## CANCER – Jun 22/Jul 22

Cancer, this week you may find it easier to cut out superfluous spending or extravagant behavior than at other times. You may need to exert greater control and discipline.

## LEO – Jul 23/Aug 23

There's a fresh cosmic wind blowing your sails, Leo. This gives you all the energy you need to tackle projects or get moving in other ways. Embrace all of this energy.

## VIRGO – Aug 24/Sept 22

Your romantic life is about to get even more exciting, Virgo. Date nights are happening with greater frequency and you're likely to enjoy all of the extra attention.

## LIBRA – Sept 23/Oct 23

You'll likely feel more at ease having a big group of people around you during the next few days rather than heading out alone. Put away that lone wolf mentality for now.

## SCORPIO – Oct 24/Nov 22

Ambitious career goals could have you reevaluating all of the choices you have made thus far, Scorpio. It might be time to venture off on new paths once you figure out the way.

## SAGITTARIUS – Nov 23/Dec 21

Sagittarius, the call of the wild is quite strong right now. This means you might be right at home on a hiking trip or a rafting trip. Make your plans and bring a friend.

## CAPRICORN – Dec 22/Jan 20

Capricorn, rather than being light-hearted, conversations could take a turn to the more serious, especially as they pertain to a health condition for someone you love.

## AQUARIUS – Jan 21/Feb 18

Aquarius, don't try to take on too many things yourself. You need to know when to ask for help this week, especially as your schedule gets even more filled up.

## PISCES – Feb 19/Mar 20

This is the perfect time to get more organized, Pisces. Try to fit in time to sort and clean among all the other things on your itinerary.

*Dave Johnson*  
"The Outdoor Insider"

I had a very interesting week. I was busy in the early week shooting video of Grant County PUD Recreation Areas, and compiling photographs of the county. I only got out on the water once, but it was a particularly good day.

My wife Eileen and I treated my daughter Whitney to a brunch at Snoqualmie Falls to celebrate her birthday and I was actually surprised when she called me on Saturday to see if I would be able to take her and a few friends out on Lake Chelan on Sunday. Two of her girl friends were also having similar significant birthdays and wanted to celebrate with a trip to Chelan. I took some of this group on Chelan a few years ago and we had a terrific day kokanee fishing. This would be light on the fishing and heavy on sight-seeing, so Eileen and I got up there a couple of hours before we were to pick them up and trolled for kokanee. We got off to a rough start. We lost three of the first four fish we hooked. We stuck with it though and landed a few. Then my daughter called to say her troop was ready for their pick up at the Chelan Shores dock. We loaded everyone aboard and headed back out on the lake. My luck wasn't much better. We did hook a few and landed one, and then it was time to check out the scenery on the lake. We all had a great time on Chelan.

I was texting my niece Ellie, who was also on Chelan on Sunday. We had already pulled our kokanee gear when we learned that she and her friends were having lunch in Manson. We docked in Manson Bay and while Whitney and her crew splashed in the water at the beach here, I walked up to Buddy's Place and found Ellie. I had promised her a "care package" of Kokabow tackle, and I was able to deliver it to her. I am hoping they have some good days on Chelan fishing for kokanee this season, and the selection of great gear I gave her will help.

When we pulled the boat out at Mill Bay, I noticed some anglers at the cleaning station, and had to make a quick stop to see how they did. They had a pile of huge kokanee. They got three limits of kokanee two days in a row, and they were very nice fish. They had started at 6 a.m. and when we saw them it was 3 p.m. They put in a long

day, but it was worth it. What a great catch. I had been hearing about limits of kokanee being caught on Chelan, here was the proof. I had also heard that the best bite was in the morning. The group at the cleaning station told me that was true, and although the bite slowed they got fish sporadically throughout the day. Seeing this great catch of big kokanee has me really excited. I can't wait to get back on Chelan. This week's photo was taken at the cleaning station.

The Icicle River opened to fishing for spring Chinook last Tuesday. As you probably know the hot weather

had all of our rivers raging. This made fishing on the Icicle a challenge. In fact, when I checked the take out on Tuesday, I didn't see a single boat. I did hear that things picked up later in the week, and anglers were landing some fish. Although the fish are showing up later than usual this year, there is a good run anticipated, and fishing should be good for the next few weeks.

Anglers are finally able to fish for spring Chinook on the Snake River. It had opened to fishing briefly, and then closed. I am sure fans of fishing for spring Chinook are frustrated. The season keeps being extended below Bonneville Dam, and they are waiting patiently for the Snake to open. It was open for four days. Two days below Little Goose Dam and two days below Ice Harbor Dam. Anglers were al-

lowed just one adult during this abbreviated season.

I spend last Monday traveling along the Columbia River shooting video at a few of the many great Recreation Areas that have been developed by Grant County PUD. I started at a small location just above Vantage. The Rocky Coulee Recreation area is nestled at the bottom of a canyon on the Columbia. It has several camping spots and good access to the river. My next stop was at Sand Hollow, on the east side of the Columbia River below Vantage. This is a much larger Recreation Area, with many camping sites along the river and very good access. Campers are able to make reservations to get a spot at Sand Hollow. You can go to [www.GrantPUD.org](http://www.GrantPUD.org) to reserve a campsite. I then drove down to Jackson Creek Fish Camp. This is a small Recreation Area, with just ten campsites. It is just above the Columbia River below Priest Rapids Dam. I am sure it is full during the fall salmon season, but it is popular for another reason. Jackson Creek is so distant from any major town that it has no "light pollution", people come here to view the vibrant night sky. I want to see this myself. It has been a while since I have seen the stars that clearly. I also stopped at the boat launch below Wanapum Dam on Huntzinger Road. This is a great launch to access the salmon fishing areas

below Wanapum, without having to make the dicey crossing from the dam upstream. There is also great small-mouth bass and walleye fishing here. I just had to stop at the Visitors Center at Wanapum Dam, too. I was at the grand opening of this center, and it is a terrific place to visit, particularly with your family. There are many interactive exhibits that the kids enjoy. I like going through the center myself, they did a terrific job with it.

As eager as I am to get back up to Chelan for kokanee, I also am getting some great reports on the walleye fishing on Banks Lake. My buddy Brian Neilson had a party of four out the other day and they landed 17 walleye, with four over 20 inches. Hummm, smoked kokanee or fresh walleye fillets? What's a guy supposed to do?

## CAT OF THE WEEK

Meet Lily! Lily is a quiet senior who enjoys solitude. She would do best in a home with an older couple as an only pet. She is very gentle and sweet but is fearful in loud, busy households. She has a history of not thriving in homes with other animals and small children. Once given the opportunity to open up, Lily would make the best lap cat and companion.

## DOG OF THE WEEK

Meet Trixie! I'm a very sweet girl who keeps my nose to the ground. Staff here think I could be friends with another dog who is respectful. We don't know how we feel about cats but can be tested. I am an active girl who would love to be your next adventure buddy, I can help you sniff out some of the best trails (if you don't mind going through some bushes.). I can't wait to find my furever family!

# BUILDING for the Future

## What is Energy Efficiency? Why Does it Matter?

We spoke with an energy efficiency expert for answers.

There are a lot of buzzwords around energy these days, but simply put, energy efficiency is using less energy to get a job done. When it comes to our homes, using less energy typically means lower energy costs for things like electricity, gas, and water.

Whether you're a homeowner or an aspiring homeowner, understanding the basics of energy efficiency can help you save money and be a better energy-conscious consumer.

To get the 411 on energy efficiency, we spoke with Tom Lienhard, a 25-year veteran of Avista and retired Chief Energy Efficiency Engineer. Tom continues to work as a consultant for homeowners and businesses that need help solving energy efficiency issues. Read on to learn Tom's tips for saving energy and building homes that will perform for decades to come.

### Tom's #1 Tip For Energy Efficiency

We asked Tom to list the top things homeowners/future homeowners need to know about energy efficiency. He explained that most of the controllable energy used in a home is used for temperature control: heating, cooling, and water heating.

The top ways to reduce the energy used for heating and cooling are **"through reduced infiltration and increased insulation... in other words, tightening a home's shell and insulating are the most cost-effective ways to reduce the home's energy use."**

So how exactly do you tighten and insulate your home? First, Tom recommends identifying how much energy you're currently using. He shared his own energy monitoring process below.

### How can I make my home more energy efficient?

To help you figure out what areas of the home need to be tightened and insulated, Tom recommended installing a device on the main electric panel to show you how much energy is being used for each of your larger plug loads.

"In my home, I use a device by Emporia Energy to watch all the energy going through the important, or most energy-intensive, circuits in my home," said Tom.

Tom said that Sense and Eyedro also provide similar devices that help identify how much energy you're using. Your local utility provider's website is another source that you can turn to for insights into your energy use. Essentially, once you've

identified the biggest energy users in your home, you can begin to locate ways to tighten up your home and save energy.

### Energy efficiency tips for home builders and homeowners

For current homeowners looking to reduce energy, Tom recommended:

1. Adding insulation in the attic, if necessary
2. Caulking the cracks on the outside of the home
3. Possibly using interior or exterior storm windows to decrease the heat loss in the winter and reduce the heat gain in the summer
4. Finding out which appliance energy user in your home is causing you to spend the most money and then researching how to reduce that energy/cost
5. Maintaining all of your devices like furnaces, heat pumps, and air conditioners to make sure they use the least amount of energy possible

**Do I have to make the full payment on the construction loan even when the home is being built?**

Thankfully, you do not have to worry about making full payments on your construction loan while your dream home is being built. Instead, you will make interest-only payments during the construction period. These payments are typically based on the amount of funds you have used up to that point. To put it simply, the interest payment amount increases as the construction of your home progresses.

This means that as your home gets bigger and more of the funds are used, your payment will also get bigger, allowing you to manage your finances with ease.
