WANT A MODERN HOME DESIGN? Try Creating Dark & Light Spaces

With careful planning, modern home designs are within reach. One common approach is to use light and dark color combinations throughout your home, from paint colors to light and dark wood choices (usually on cabinets or floors), furniture, and even carpets or other décor items.

If you're interested in creating a fresh look for your home, consider the following approaches to using dark and light hues to modernize your living spaces.

Dark Hues

Dark bold pieces or accents give any space depth and a traditional feel. For example, painting walls with dark colors allow art and other objects to stand out. Generally, dark colors like black thrive when paired with neutral tones. When together, it can create a more inviting and comfortable space. Having darker colors in homes is elegant, moody, chic, and sophisticated; most importantly, they always stay in style.

Light Hues

Adding white or light-colored furniture can make a room look more spacious, open, and airy. Painting walls or cabinets white allow for a blank palette to start a space with, which can then be the base for creativity to begin and shine through. Using white as a base gives leniency to play with other colors to stand out.

Combining Dark and Light Hues

Combining dark and light colors can also create an appealing space with a sense of organization and order by following the 80/20 rule. According to the American Institute of Interior Design, "As long as 80% of your interior is unified by the same style, period, or philosophy, you can deviate with the other 20%." This rule makes it easy to combine colors.

One way to bring more life to a space is by using different patterns, textures and even adding greenery. Combining dark and light colors creates a contrasting design and allows for substantial flexibility for accessorizing or accenting with a mix of colors to tell a story.

There is no answer to which design (dark or light) is better. Depending on how a room is styled, a dark or light choice can be one of the most simple, classic, and influential ways to design any interior, while the use of both shades can create a clear, powerful, and modern design.

Dave Jayne
"The Outdoor Insider"

Salmon season opened on the upper Columbia last Saturday, and I expected big crowds on the fishing grounds. The return of both summer run and sockeye are arriving late, and many anglers may have decided to wait until better numbers of fish show up.

Due to the lower than expected return of summer run Chinook to the upper Columbia, the turnout on the opening day of the season was lighter than usual. Those who decided to fish in spite of the low counts enjoyed very good fishing. I stopped at Chelan Falls at about 7:30 and the fish checker was logging in the first catch back to the ramp. The three anglers had four nice kings. I saw a guide boat at the dock and the skipper reported that his party had landed eight kings and one sockeye. This week's photo was taken at Chelan Falls.

I made my next stop at Wells Dam. There was a guide boat at the ramp when I arrived, and his group had caught their limit of eight kings. I could see several boats trolling in the big eddy below the dam, and I'm sure they were getting some sockeye. When I visited the boat ramp at Brewster, only one boat had come in, and it had boated two kings and four sockeye. They were just taking a break and were going back out. Anglers that fished on Saturday not only saw a light fleet of anglers, but the weather conditions and river flows were ideal.

Fish managers have observed the return of summer run salmon to be 30 percent below what was forecasted. The original forecast was for 84,000 summer runs, but so far the number has been below the 10-year average. Last week the Columbia River was closed below Priest Rapids Dam. The original forecast was for 84,000 summer runs, but so far the number has been below the 10-year average. I applaud this decision, as all of the summer run salmon are returning to their origins above Priest Rapids. This will allow better escapement for spawning, and also give the anglers in our region a good fishery.

Sockeye numbers continue to climb, and over 200,000 have now passed over Bonneville Dam, and 24,000 have been counted at Rock Island Dam. That's

enough to get anglers excited and they were getting after them below Rocky Reach Dam. Whenever sockeye show up in fishable numbers there is a pack of boats circling within the boundaries below Rocky Reach. They do their share of harvesting sockeye, and on the opening day of fishing the river conditions were great. Some years the currents can make fishing here very difficult, but on Saturday it was not the case.

Anglers can launch at Confluence Park, where a Discover Pass and launch fee is required. An alternative is the public ramp at the base of Orondo Street, where there are no fees. Anglers are

reminded to be aware of the boundary markers below the dam, and to "go with the flow" and pay attention to the direction and speed of the other boats. Sockeye are returning in much lower numbers than last year, but there are certainly enough for a good day of fishing, and more on the way.

It appears that the return of sockeye will surpass the forecast of 234,000 this year. There were over 200,000 over Bonneville Dam last Sunday. That is very encouraging for those who are hoping to fish Lake Wenatchee this season. The forecast is for 44,300, well over the 23,000 needed for escapement. Soon, I will be visiting Tumwater Dam to see how many have made their way up the Wenatchee on their way to the lake. So many people, like me, stop to ask about their numbers that now they post a sign on the fence so we don't bother the counters.

Billy Clapp Reservoir can be a "two

stage" fishery this time of year. The kokanee fishing can be good in midsummer and the walleye can be on the bite, too. James Lebow, Michael Erickson, and I gave Billy Clapp a try on Thursday. We did a couple of long loops above the big basalt island but didn't even get a kokanee bite. If the kokanee weren't biting we planned to go walleye fishing, and the walleye were biting.

Billy Clapp, which is about 20 miles east of Soap Lake, has a dam at the very top end. This manages the flow into the reservoir, and it seems there is always a heavy current here. Couple the current with the very snaggy bottom it is not an easy area to fish. Fortunately, James is

an old hand at fishing here and he did a masterful job driving the boat. He put us right on the "nursery" and we were very busy catching fish. This spot is notorious for its snags and small walleye. We probably caught 60 walleye on our way to getting three limits of keepers. It was a ton of fun and we all took home the makings for fresh walleye dinners.

Salmon anglers are on the water at the crack of dawn and off the water fairly early. Others, who are fishing for walleye and bass in our region are often out in the heat of the day. I have spent many days on the water on Banks Lake, Potholes Reservoir and other places when the temperatures have exceeded 90 or 100 degrees. I don't have a top on my boat, so I am exposed to the sun the whole time. I have found a good way to beat the heat, though. I have a portable mister, that really helps keep me and my fellow anglers cool. It's called an Artic Cove, and it has a two speed fan and two settings of a pump that produces the mist. It sits on top of a five gallon bucket that you fill with water from the lake. It is battery operated, and I bought a spare battery so I can run it on high speed and full mist and not run out of power. This simple unit has made it possible to stay out on the water even on the hottest days.

There's some great summer run salmon fishing going on right now, and it looks like a better than expected sockeye fishing ahead of us this season!

WEEKLY Horoscopes for July 7 - 13

ARIES – Mar 21/Apr 20

Aries, there are tips and tricks to learn through observation of others, particularly if those people are doing something with style. Keep your eyes peeled for inspiration.

TAURUS – Apr 21/May 21

Taurus, let other people know what you are feeling by wearing your heart on your sleeve a little more often. You don't have to be stoic all of the time. It is alright to ask for help as well.

GEMINI – May 22/Jun 21

It may seem like the days this week will trickle by at a snail's pace, Gemini. It is perfectly fine to enjoy some slow-moving days for a change to help you recharge.

CANCER – Jun 22/Jul 22

Cancer, kick up your flirtatious nature, particularly if you have your eye on someone and are eager to start a relationship. Those who are attached can rekindle the passion.

LEO – Jul 23/Aug 23

Leo, share your optimism and level-headedness with someone who could use your support right now. You have an uncanny way of making others feel relaxed just by being in your company.

VIRGO – Aug 24/Sept 22

An interesting travel opportunity comes your way, Virgo. However, at first glance it might not seem like the type of trip you would normally take. Keep an open mind and be surprised.

LIBRA – Sept 23/Oct 23

Libra, if you do not like the way things are going in one of your relationships, it is alright to speak up and encourage change. You are an equal partner and compromise is necessary.

SCORPIO – Oct 24/Nov 22

Scorpio, you have to jump on every opportunity to get ahead that is presented to you, even if it may temporarily upset your schedule and life. The investment will be worth it.

SAGITTARIUS – Nov 23/Dec 21

Get involved with helping others as much as possible, Sagittarius. This way you will be in the unique position to help someone close to you who needs it soon enough.

CAPRICORN – Dec 22/Jan 20

Capricorn, there is nothing that you cannot accomplish when you lay on the charm. Others will flock to you this week and want to hear what you have to say.

AQUARIUS – Jan 21/Feb 18

Enjoy every meeting of minds that you encounter, Aquarius. Each relationship and discussion can help broaden your horizons, and you can use that information wisely.

PISCES – Feb 19/Mar 20

Pisces, no matter how good a partnership looks on paper, if you are not meshing with this individual then it is not a partnership worth pursuing. Focus your attention elsewhere.
