**DOG OF THE WEEK**

Meet **Leila!** Nice to meet you, my name is Leila. I'm a very nice girl that likes to be near my friends and give lots of kisses! I can be a little awkward at first because I'm still getting used to the whole socializing thing. While my friends have been told that I don't like men, it appears as though I'm just a little more likely to be initially fearful of them. I sing to the radio or any music playing!

Please contact **Kootenai Humane Society** at 208-772-4019 or visit our website at [www.companionsanimalcenter.org](http://www.companionsanimalcenter.org)

# WEEKLY Horoscopes for Aug 24-30

- 
**ARIES – Mar 21/Apr 20**  
 Aries, you may want to move your relationship in a different direction, but your partner is resistant. This could be a conflict, or something that opens up a dialogue.
- 
**TAURUS – Apr 21/May 21**  
 Taurus, you might feel like doing all you can to make a problem go away, and think that acting immediately is the way to go. But ponder a few options beforehand.
- 
**GEMINI – May 22/June 21**  
 Gemini, a professional opportunity that seems to have many positive financial outcomes actually could have a down side to it. It's best if you do your research before acting.
- 
**CANCER – June 22/July 22**  
 You may think that others do not understand you, Cancer. But that may be a good thing. You can focus on explaining your position and maybe make a few friends along the way.
- 
**LEO – July 23/Aug 23**  
 Leo, you tend to be attracted to things that tempt fate or may even be considered forbidden. When others want you to walk the straight and narrow for a bit, it could be tough.
- 
**VIRGO – Aug 24/Sept 22**  
 Virgo, an opportunity to get away presents itself. Enjoy this much-needed respite and don't be afraid to go the extra mile to ensure the trip is as memorable as possible.
- 
**LIBRA – Sept 23/Oct 23**  
 You may want to do it all, Libra, but sometimes you have to let others know you have limits. When you don't, it is easy to get taken advantage of or run yourself ragged.
- 
**SCORPIO – Oct 24/Nov 22**  
 Scorpio, are you ready for an adventure? Identify some new hobbies and then learn all you can about getting out there and doing those types of activities with frequency.
- 
**SAGITTARIUS – Nov 23/Dec 21**  
 A loved one may want to be more cozy with you this week, but you're content to have ample space and do your own thing, Sagittarius. Let your views be heard on this situation.
- 
**CAPRICORN – Dec 22/Jan 20**  
 Capricorn, you may want to tell a loved one what they want to hear right now to make a difficult situation go away. However, that only postpones the inevitable tough talk.
- 
**AQUARIUS – Jan 21/Feb 18**  
 You have been feeling like it is time to break away from your regular routine, Aquarius. It could be because there has been added stress on your shoulders. A vacation may be needed.
- 
**PISCES – Feb 19/Mar 20**  
 There are some limits to doing all of the work on your own, Pisces. First off, you may lack the time and the expertise. Bring on helpers this week if anyone is available.

# Fishing Magician

*Dave Jayne*

Reach Dave @ [www.FishingMagician.com](http://www.FishingMagician.com) or [FishBoy@nwi.net](mailto:FishBoy@nwi.net) "The Outdoor Insider"

The sockeye fishing on Lake Wenatchee has been phenomenal. I got limits every day last week and got them early enough to be off the water before it got too hot. The quality of the fish is holding up surprisingly well, so I plan to do more trips. If you haven't tried the sockeye fishing on Lake Wenatchee better get to it soon.

A couple of months ago Christine Lee, who works at Bob Feil Boats and Motors, asked me if I could take her and her mother fishing. She would be visiting from Alberta, Canada in mid-August, and loves to fish. She said it didn't matter what we fished for, she just wanted to catch something. I put them in my calendar for August 15th and told her that where we went and what we fished for would be determined then. I was keeping my fingers crossed that there would be a good fishery going at that time. Turns out that the sockeye fishing on Lake Wenatchee was going great, so that's where we went.

Christine and her mother Brenda Wallace met me at Coles Corner at 5:30 and followed me to the boat. It was a glorious day to be on the lake. No wind and not too many boats on the water. We left the dock just after 6:00 and it didn't take us long to get started catching fish. They did a great job hauling them in, and they were having a ball. At 9:15, when we needed just one more fish to have all three of our limits, we got a triple! We landed all three of them and released two dandy sockeye. Brenda's visit was timed perfectly for a great day of fishing.

Last Monday was a particularly special day of sockeye fishing for me. My brothers, Rick, and Lane Graybill were on board with me and my niece, Lane's daughter Sophie. It is not often that I get the chance to fish with this many of my family members. and we were all excited. Sophie would be going off to college soon, so I didn't know when we would get another chance to go fishing.

Usually, when you want to show people a great day of fishing, it doesn't work out that way. However, the fishing gods were smiling on us, and we were kept busy all morning, landing sockeye after sockeye on Lake Wenatchee. Better yet, the winds that had plagued my fishing trips for some days this season

were absent. We took turns reeling fish in, bonking and unhooking them, and loading them in the cooler. There was plenty of excitement as the rods in the holders bounced or the ones off the back end dipped under the stress of a fish on the line. There was plenty of laughter, too, as we celebrated netting another fish, or shared stories of past fishing trips or other adventures. There were 16 sockeye in the cooler when I turned the boat towards the dock. It was a day we will all remember for a long time.

Rob Phillips, the outdoor writer for the Yakima Herald and I had a hard time getting a date to fish Lake Wenatchee for sockeye that worked for both of us. We tried two or three times and had to change the date. I was about to give up when Sunday the 13th turned out to be the lucky day. Rob left Yakima at 3 a.m. to meet me at Coles Corner and he followed me to where the boat was docked. I was amazed to see the lake flat calm. I had fished in heavy wind for several days, and this was going to be a pleasure. I had no idea how good it was going to be. When I dropped the gear I didn't get all four rods out before Rob was cranking in a fish. Of course, Rob and I both have the two pole endorsement. But in fact, we never got all four rods out. We had rods leaning against the gunnels, fish flopping on the deck, and it was wild. Rob netted a fish for me and announced that we were done. I looked at my watch and it was 6:40.

I have never put two limits of sockeye in the boat in such a short time. That was some fun fishing. This week's photo is of Rob with a bright sockeye taken on our trip.

Rob is not only an outdoor writer, but he has also published a series of mysteries, all based on the fictional "adventures" of Luke McCain. In these books McCain is a northeastern Washington Fish and Wildlife police officer, and in addition to doing his duties of checking fishing licenses and tracking down poachers, he gets involved in everything from kidnapping to serial killer investigations. These are real page turners and are especially fun reading for those of us who are familiar with the placenames and areas where the thrillers take place. I read the first book and immediately ordered the rest of the books that were available through Amazon books. According to Phillips, sales are very brisk, through Amazon and other outlets that carry the books. He presented me with the fifth book in the series when we were done fishing, and another one that he just finished, that is what he calls more of a memoir. It is called A Dog Life Well Lived and is his recollection of his time spent with his hunting dogs over the years. I believe this book is also available through Amazon books, and upland bird and pheasant hunters will really appreciate this one.

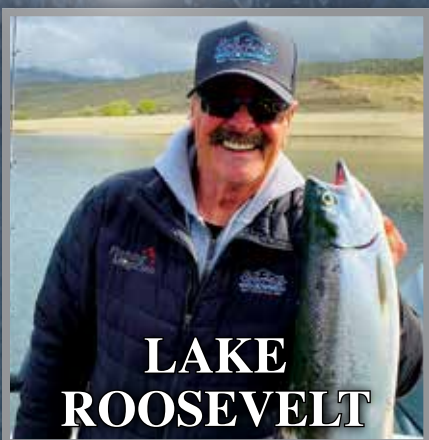

I had a trip planned to Omak Lake later this month with my good friend Buell Hawkins. I introduced Buell and his son Brad to fishing for Lahatan cutthroat on this lake many years ago, and he was going to bring his grandkids along. However, since the sockeye fishing is so good I changed our plans to go to Lake Wenatchee. We'll do Omak Lake at another time. Perhaps when the weather is a bit cooler.

I am going to be looking for my next fishing adventures beyond Lake Wenatchee soon. I am hearing that there are still kokanee in the lower Basin on Lake Chelan. I like to have a good supply of these tasty fish in my freezer. My wife loves the crispy fish cakes I make with kokanee from Lake Chelan.

## Grill Safe This Summer

The relaxing nature of summer can make it easy to overlook safety, particularly when grilling. However, the right safety measures when cooking over an open flame can prevent home fires and other accidents that can cause injury and even death. In recognition of the many things that can go wrong when grilling, the Federal Emergency Management Agency and the U.S. Fire Administration offer these simple fire safety tips that every grillmaster can keep in mind as summer grilling season hits full swing.

- Only use a grill outside. Grills should never be used indoors, and that includes in garages with the doors open. Before lighting a flame, make sure the grill is at least three feet from siding, deck rails and eaves.
- Establish a safe zone around the grill. A three-foot safe zone around the grill can decrease the likelihood that pets will run into and potentially tip over the grill. Kids can be taught to respect this zone as well so they avoid being burned.
- Open a gas grill before lighting it. Charcoal grills, hybrid grills and smokers cannot be lit unless the lid is lifted. That isn't the case with gas grills, but gas grills should never be lit with the lid closed. If a gas grill is lit with its lid closed, gas can build up inside and that could cause an explosion. Even if there's some summer rain falling, open the lid on a gas grill before turning the ignition switch.
- Keep an eye on the grill at all times. It's tempting to walk away from a grill while food is cooking, but someone should always be tasked with staying close to the grill. If cooks must walk away, ask another adult to stay close to the grill until you return. All it takes is a few seconds for a fire to start.
- Clean the grill regularly. Regular cleaning of the grill is both healthy and safe. Cleaning helps to ensure the cooking surface is clean and unlikely to cause food poisoning. But a grease-free grill also poses less of a fire hazard than one that hasn't been cleaned.
- Let coals cool before discarding them. Coals from the grill should be given ample time to cool before they're removed from the grill and discarded.
- Remember to turn the gas valve to the off position after cooking. When cooking with gas grills, cooks must remember to turn the valve to the off position once all the food has been cooked.

Simple safety measures can ensure summer grilling season goes off without a hitch.

**VALVE COVER RACES AT MILLWOOD DAZE AUGUST 26**

MILLWOOD, WASH. (Aug. 21, 2023) — Gravity, not motors, will do the propulsion at the second annual Valve Cover Races sponsored by Bottles at Millwood Daze, Aug. 26.

The event features a track with two lanes, similar to a drag strip, and will offer a variety of classes and races. The competition is very similar to the Cub Scouts "Pinewood Derby" where cars race down an angled track.

Only difference is the vehicles are all built from engine valve covers and use skate wheels.

Preregistration is suggested and can be done in advance at Bottles in Millwood during regular hours. Day of the race registration will begin Aug. 26 at 2 p.m. and close just before racing begins at 3 p.m. Cost: \$15 per entry.

**Categories for Contestants:**

Junior League, ages 16 and below  
Adult League, ages 17 – 99

**Basic Rules of the Track**

- Cars shall be made of an actual automotive valve cover
- No engines or propulsive additions allowed
- Car may not contain any moving weights
- Wheels may be attached to the valve cover in any way, but may not exceed beyond the front of the valve cover
- Wheels may be made of any material

- Car may be no longer than 36 inches
- Car may be no wider than 10.5 inches
- The front of the car may be no taller than 3 inches
- Cars should weigh 10 pounds or less — Cars found to be overweight may still race, but will not qualify for the overall winner's title

Millwood Daze is family friendly and racer designs should be appropriate for all audiences

Visit: [millwooddaze.millwoodnow.org](http://millwooddaze.millwoodnow.org) for more information. ■

**PROBLEMS HAUNT ARMSTRONG AT BAKERSFIELD**

BAKERSFIELD, CALIF. (Aug. 19, 2023) — Spokane's Terry Armstrong Jr. made his first visit to Madera Speedway in 2021 and the "Olga's California Dream 100" very memorable when he took home the victory and \$2,000 first-place money.

Since then, however, luck has not been on Armstrong's side as he has had a series of problems in both 2022 and 2023 events.

"We had our clutch break and practice on Thursday; Friday morning thought we fixed the problem. Went out and the clutch broke again," Armstrong wrote in a Facebook mes-

sage.

"We pulled the motor out built another motor in the pits threw it in after 9 hours and it would not start," Armstrong said.

"So again, for the second year I spectated and crewed for my friends and competitors," adding "Sometimes you're the bug and sometimes you are the windshield."

The race is the brainchild of Bob Coply, who along with his late wife, Olga, with the spotlight shining on racers who are generally the backup shows. ■

**PLYBON'S NWSLM STREAK AT THREE FOLLOWING MERIDIAN WIN**

MERIDIAN, IDAHO (Aug. 19, 2023) — Murphy's Law was in full force for Haeden Plybon at Meridian Speedway during the running of the Idaho 208 Northwest Super Late Model race Aug. 19.

For reference, Murphy's law is the adage that goes "Anything that can go wrong will go wrong."

And despite Murphy riding along on the 375-mile drive and spending Friday with the team, Plybon was first across the line when the checkered flag flew and the 19-year-old Spokane driver was there for the win — his third in a row and fourth in the last five outings.

Plybon finished ahead of a pair of local drivers, Middleton's Zach Telford and Jonathan Gomez from Kimberley, Idaho. Aubree Cristiani from Boise and Spokane's David Garber rounded out the top-5.

"This was the toughest weekend we had ever had for sure," Haeden's father, Tom Plybon wrote in a text message.

They showed up on Friday for practice and promptly blew the engine with no spare in the trailer.

"Seriously with those crate motors it is kind of hit or miss," Haeden Plybon said in an Aug. 21 interview. "One year we went through two or three of them," he added.

The team of Zach Riehl just so happened to have a spare motor, so the Plybon crew did an "all-nighter" swapping engines, and they were good to go for Saturday qualifying, right?

Not so fast as next came a broken axle in practice.

That repair completed, Plybon went out and qualified No. 4 with a lap of 13.149 seconds behind Cristiani who clocked a 13.045.

Plybon actually drew the second-row fourth slot in the inverted start and began a slow run to the lead that once included starting from the back of the pack following a wreck.

He pried the lead away from Cristiani who hit the wall at lap 138 of 208 on the tight quarter-mile oval and then had the field in his rearview mirror the remainder of the race.

Plybon, a Mead High School graduate, attributes the team's success to a familiar name in racing, crew chief Kevin Richards who is a longtime driver at high levels like NASCAR's Winston West. Richards calls on decades of experience, as well as the DNA of his father, Roger, a wizard from a bygone era.

"He's a smart guy," who has, "Been around for a day or two," Plybon says. "I mean after work like every single day he is working on that car."

Going into Meridian, Plybon had a 42-point edge on his closest pursuer, Max Schroeder in the chase for the championship. Schroeder finished 12th. He was 46 ahead of Zach Riehl who finished eighth so when new standings come out Plybon will have edged a bit closer to his first series title.

Three events remain with the next outing Sept. 3 at Hermiston. ■

**HYDRO MUSEUM SMASH AND GRAB**  
Kent, Wash. (Aug. 18, 2023) — Please excuse the mess the Hydroplane and Raceboat Museum wrote in an email to report a smash-and-grab burglary at the Kent, Wash. facility.  
“Last night someone decided to use a stolen car to “re-model” the Hydroplane and Raceboat Museum gift shop in a smash and grab break-in. No historical artifacts were damaged or stolen, but it’s going to take a while to get cleaned up and back to normal. We will be open as usual but just ask that you have a little patience as we work through this,” was the message.

THE PROPERTY | SELLER BASICS

**How to Hold a Successful GARAGE SALE**

Garage sales can be a great way to get rid of clutter and earn a little extra cash before you move. But make sure you plan ahead; they can take on a life of their own!

- DON'T WAIT UNTIL THE LAST MINUTE.** Depending on how long you've lived in your home and how much stuff you want to sell, planning a garage sale can take a lot of time and energy. And that's on top of the effort of putting your home on the market!
- CONTACT YOUR LOCAL GOVERNMENT.** Some municipalities will require you to obtain a permit in order to hold a garage sale. They're often free or cheap, but the fines for neglecting to obtain one can be hefty.
- SEE IF NEIGHBORS WANT TO JOIN IN.** You can turn your garage sale into a block-wide event and lure more shoppers. However, a permit may be necessary for each home owner, even if it's a group event.

- SCHEDULE THE SALE.** Sales on Saturdays and Sundays will generate the most traffic, especially if the weather cooperates. Start the sale early — 8 or 9 a.m. is best — and be ready for early birds.
- ADVERTISE!** Place an ad in the newspaper, free classified papers, and websites, including the date(s), time, and address of the garage sale. Add information about what will be available, such as kids' clothes, furniture, or special equipment. On the day of the sale, use balloons and signs with prominent arrows to grab attention.
- PRICE YOUR GOODS.** Clearly mark rounded prices (50¢, 3 for \$1, or \$5, for example) with easily removable stickers.

- IF IT'S JUNK, RECYCLE OR DONATE IT.** If it's truly garbage, throw it away or place it in a freebie bin. Don't try to sell broken appliances, and have an electrical outlet nearby in case a customer wants to try plugging something in.
- DISPLAY ITEMS NICELY.** Organize by category, and don't make customers dig through boxes.
- STOCK UP ON SUPPLIES.** Having a stock of old shopping bags that can be reused encourages people to buy more items. Keep wrapping paper handy for wrapping fragile goods.
- MANAGE YOUR MONEY** Obtain ample change for your cashbox, and have a calculator on hand. Assign one person to man the "register," keeping a tally of what was purchased and for how much.

## Taking control of YOUR WILDFIRE RISK

### What Is the Fire Problem?

Every year, devastating wildfires burn across the United States. At the same time, a growing number of people are living where wildfires are a real risk. While these fires will continue to happen, there are things you can do to protect your home and neighborhood as well as your family's safety. NFPA® has found that in many cases of home destruction during wildfires, the homes were more flammable than the surrounding brush and trees. By taking action now, before a fire starts, you can increase your chances of having an ignition resistant home and community.

### What Can Be Done About It?

Research shows that embers (burning pieces of airborne wood and/or vegetation that can be carried more than a mile through the wind) and small surface fires are the primary source of home ignitions during wildfires.

To make your home safer, you need to prepare it to withstand embers and keep flames or surface fire from touching the home or any attachments. You can do this by limiting the amount of flammable vegetation, choosing ignition-resistant building materials and construction techniques, and conducting periodic outdoor maintenance within the three home ignition zones (HIZ). [Learn more about the HIZ at Firewise.org](http://www.Firewise.org)

### WORKING WITH NEIGHBORS

Home ignition zones often overlap onto adjacent properties. This makes the conditions of neighboring homes and vegetation a part of the wildfire threat. It's extremely important that neighbors work collaboratively with each other—and talk with each other—to reduce their shared risk.

### FIREWISE USA® PROGRAM

Firewise USA® is a voluntary program that provides a framework to help neighbors get organized, find direction, and take action to increase the ignition resistance of their homes and community.

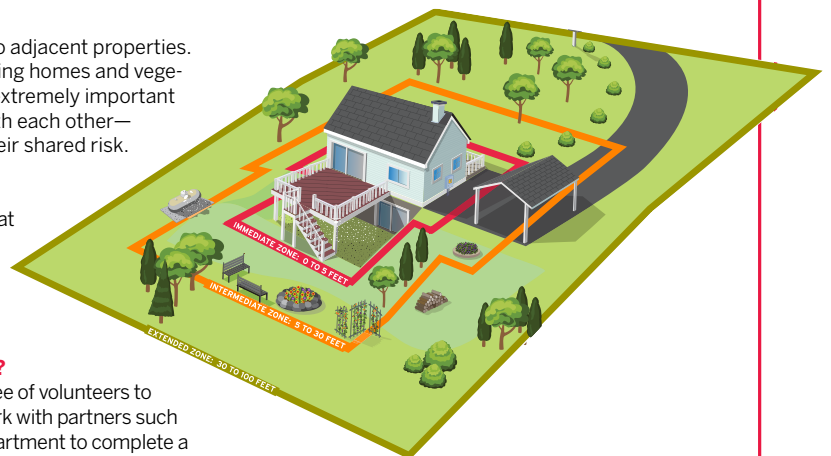

### HOW DOES THE PROGRAM WORK?

**Organize it:** Create a board or committee of volunteers to represent your community. They will work with partners such as local forestry agencies or the fire department to complete a wildfire risk assessment and present it to the community.

**Plan it:** The wildfire risk assessment should highlight recommendations for action. From this risk assessment, the board will identify and prioritize action items for reducing ignition risk to homes. This action plan may span several years.

**Do it:** Host an outreach event and work with neighbors on addressing items in the action plan.

**Tell us about it:** New and renewal applications can be completed at [portal.firewise.org](http://portal.firewise.org). Tell us about the actions and efforts in your community to engage residents and complete mitigation work at the home level.

### VISIT FIREWISE.ORG TO:

- » Find tools to organize your community
- » Download and share research fact sheets on wildfire and home construction
- » Hear from other residents about importance of work at the home and community level
- » Learn the basics of wildfire and what actions to take around your homes

## Tubbs Hill Reminders

With the weather warm and nice, you might be planning on hitting one of the many hiking trails the Inland Northwest has to offer. Before you head out there, the City of Coeur d'Alene wants to remind you of some procedures you must follow at Tubbs Hill. The city wants to remind you that biking is not allowed on any of the trails. If you want to bike, you can head to places like Canfield Mountain. You are also encouraged to bring your four-legged friends with you, but make sure they are on a leash. If you want to give them a place to run around freely, there is a dog park at the base of the park. Be sure to clean up after yourself as well. If you have any questions, you can contact Urban Forester Nick Goodwin at 208-769-2266, or you can email him at [ngoodwin@cdaid.org](mailto:ngoodwin@cdaid.org).

## August GARDENING TIPS

Master Gardeners of Spokane County

### PLANT COOL CROP VEGGIES

You can get a fall crop of many vegetables by planting by mid month a new crop of spinach, peas, lettuce and other leafy greens.

### MAINTAIN PERENNIALS

To keep your perennials blooming for as long as possible many will respond with a second bloom if you deadhead the spent blooms.

### WATERING & FERTILIZING

Keep watering as the ground is getting very dry. By mid month, stop fertilizing roses and woody shrubs so that they have time to harden off before the cold weather.

### HARVEST FRUITS & VEGGIES

Before you know it, you will have apples, peaches, plums, tomatoes, zucchini, beans, cabbage, peppers and more! Be sure to harvest your fruits and veggies to maintain proper plant health.

## NOXIOUS WEEDS

**What is a Noxious Weed?** They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

**KOCHIA**

### KOCHIA

(*BASSIA SCOPARIA*)

This bushy, upright annual that grows up to 5ft tall and several feet in diameter. Leaves are narrow to lance-shaped, alternately arranged on the stem with soft hairs on the edges and undersides. Stems are upright, branched and hairy. Stems may be tinged red in the fall. Small, inconspicuous flowers are greenish and lack petals, usually surrounded by a cluster of hairs. These are taprooted and spread by seed. Hand pulling and digging if effective on small infestations. Toxic to livestock in large quantities.
