DOG OF THE WEEK

Meet **Nala**! I may be 7 but I've got a lot of tricks to show you that I'm more than just an adorable face. These include: sit, stay, down, come, leave it, drop, heel, quiet, and high five. I still have tons of energy and enjoy walks, playing with my tennis ball, and going for swims! However, once the activities are done for the day I'll be thrilled if you snuggle up beside me for some cuddles.

Please contact **Kootenai Humane Society** at 208-772-4019 or visit our website at www.CompanionsAnimalCenter.org

PLEASE SPAY OR NEUTER YOUR PETS!

CAT OF THE WEEK

Meet Kitty! Kitty is a friendly guy who enjoys his quiet time. He welcomes being pet, but does get nervous when you try to pick him up. He can be chatty and will seek out attention when needed. Kitty is naturally more reserved and we see this side of his personality when he interacts with dogs. He is also hesitant around other cats. He can live with other cats, they just have to be up to his standard.

Dave Jayne
"The Outdoor Insider"

The weather has played havoc with my fishing plans of late. It is particularly frustrating as there are several really terrific fisheries getting started in the region. It looks like there will be a change for the better and there will be some great fishing ahead for the early fall season.

Since I wasn't going to be able to fish on Tuesday I thought I would look for fish and maybe at least see some. I had hoped that the recent rain we had here in the upper Valley would draw some coho into the Icicle. I stopped at a couple of places where I could see them rolling if they were in the river, but no luck and no evidence that they had arrived. When I last checked the fish counts about 6,000 coho have passed over Rock Island Dam and only 2,000 over Rocky Reach, so there could be a significant number of them in the Wenatchee River. I guess they are waiting for more water in the Icicle before they make their move. I will continue to keep an eye out for them. Another place I like to go to "salmon watch" is in the Tumwater Canyon. There's a tailout and a deep hole below the bridge at the old Tumwater Campground where they will stack up, and sure enough I found a bunch of kings in there. There is a pullout just below where I look for fish on the right hand side of the road on the way up the canyon, and a short walk to where I can see them. It's quite a sight and I love to watch them roll and jump in the hole.

There is good news for anglers that are fans of fishing for coho on the upper Columbia River. The river is open to coho retention from above Priest Rapids Dam to Wells Dam and remains open for Chinook. Anglers are allowed to keep two adult Chinook and two coho. All wild Chinook must be released. From Highway 173 Bridge at Brewster to the rock jetty at Foster Creek anglers may also keep two adult Chinook but must release all wild fish. Also, the Icicle River has opened for coho fishing. The recent rain that fell in our region helped a little, but still wasn't enough to draw coho into the Icicle. I have been checking the river and it is very low and clear and have I yet to see any signs of coho in the river. I am sure that they are holding up in the deeper holes in the Wenatchee and will rush up when the water levels increase in the

Icicle. A new section of the Icicle has been opened this year, too, and will give anglers more water to fish. Please visit the WDFW website and read the most recent release about the Icicle and upper Columbia River updates details.

Everything came together, and I got to fish Potholes Reservoir last week. I jumped on guide, Brian Nielson's boat, and Mike Wren joined us. We put the boat in at the launch at Mar Don Resort, and although the reservoir is very low right now, the folks at Mar Don have placed some markers to make it easier. Anglers should be aware some launches are very shallow right now, and the sand

bar off the State Park and off Crab Creek should be avoided. Brian ran the boat out to his stomping grounds northeast of the State Park, and I had a bite within five minutes. The bites came at a steady pace all morning. Mike Wren and I were using 2-ounce bottom bouncers with the sparkly green Smile Blades, and the walleye loved them. We were getting our baits picked regularly and were burning through the nightcrawlers. Not only were we missing a lot of walleye, but we also caught several largemouth bass, smallmouth bass, bluegill, perch and one catfish. Brian did a great job keeping our speed at point nine mph in the gusting breeze and we had eleven walleye from 15 to 21 inches when we headed for home. This weeks photo is of one of the walleye we caught on Potholes

The Washington Department of Fish and Wildlife (WDFW) announced today it will lift its campfire and other remaining fire restrictions on most Depart-

ment-managed lands. "We have seen major decreases in the fire danger statewide since last week as the recent round of storms came through this past weekend," said Cynthia Wilkerson, WDFW's lands division manager. "We know folks are eager to enjoy the outdoors this fall season and are pleased to be able to repeal these restrictions today. Fire danger remains high in the White Salmon and Chelan areas, but most eastside areas have moved from high to moderate and remains low in Blue Mountains due to recent rain events."

Campfire restrictions for WDFW's South Central Region including Benton, Franklin, Yakima and Kittitas counties will be in place through Oct. 15. A campfire ban remains in place through Oct. 15 at the Columbia Basin Wildlife Area in Adams and Grant counties. A campfire ban also remains in place through Oct. 31 at the Klickitat Wildlife Area in Klickitat County due to their drier, more sensitive nature. Campfires are always restricted on the Sunnyside-Snake River Wildlife Area.

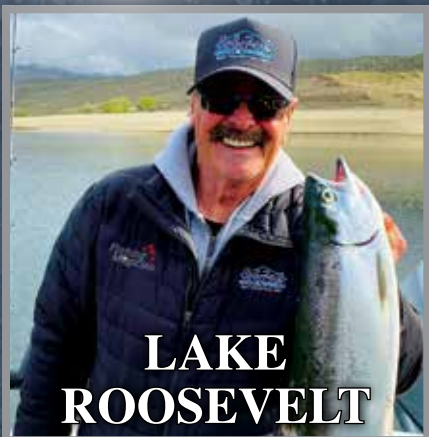

WDFW institutes campfire bans in hot summer months to reduce fire risk across the state on Department-managed lands and surrounding public lands and communities. These actions help protect habitat, wildlife, and human health. "There has been an increased understanding of the need for these restrictions amid large, damaging wildfires in recent years," Wilkerson said. "We thank the public for helping reduce the risk of wildfire and continue to encourage people to recreate responsibly to prevent wildfires. This includes using alternatives to campfires such as propane stoves for cooking and fully extinguishing any campfires that do occur."

Outdoor recreationists are encouraged to check fire restrictions for various public land management agencies before they go, as they can vary. For more information about fires and fire prevention on public lands, visit the Washington State Department of Natural Resources website or the U.S. Forest Service website. For local restrictions, residents should contact their county. Maps and detailed information about WDFW's 33 wildlife areas are available on WDFW's website. More information about Recreate Responsibly is available at recreateresponsibly.org/.

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

EVAN GOETZ BECOMES YOUNGEST FALL CLASSIC WINNER AT 16

West Richland, Wash. — Evan Goetz may be new behind the wheel on the streets and highways, but he can drive with the best of them on the racetrack.

That he proved Oct. 1 when the Okanogan teen who just turned 16 a few weeks back won the 36th running of the Fall Classic on the half-mile tri-oval at Tri City Raceway at Red Mountain Event Center.

Goetz, who just two weeks ago, won the Neal Newberry 125 at Wenatchee Super Oval, capped the 2023 season with victory over another youngster, Kasey Kleyn, by a third of a second and Naima Lang, .954 seconds back in the 125-lap, 62.5-mile race.

Winning the \$10,000 first place money was not an easy victory for Goetz, as 2019 series champion, Trevor Cristiani grabbed the lead on a lap 99 restart. Goetz stalked Cristiani and took the lead back on lap 114.

Kleyn, who won Saturday's Pro Late Model main event win, grabbed second on lap 118 and took up chase of Goetz. Drama was added to the finish when the yellow flew on lap 120, resulting in a five-lap shootout.

Trevor Cristiani and Thomas Stanford completed the top-five. Andy Beaman, Ashton Cristiani, last chance qualifying race winner Trace Thompson, Dave Garber and Jason Jefferson rounded out the top-10.

Lang is a three-time winner at the Fall Classic, last visiting

the top step on the podium in 2020. He won back-to-back titles in 2011 and 2012 when the race was staged at Yakima Speedway.

Besides Lang, the 2023 Fall Classic included four former winners. Jason Jefferson (2016), Tayler Riddle (2015) landed 11th and 2022 victor, Donnie Wenat was 12th. Mike Longton (2008) finished 22nd.

Fourteen drivers finished on the lead lap while 2023 champ, Haeden Plybon, lost his engine on lap 117 and finished 17th. Plybon's earlier four races wins clinched the championship.

Fall Classic top-three included race winner Evan Goetz (center), runner-up Kasey Kleyn (right) and third-place Naima Lang (left). -NWSLM photo

HAEDEN PLYBON CLAIMS NWSLM CHAMPIONSHIP

After a four-win season in the Northwest Super Late Model Series presented by RaceCals, congratulations to Haeden Plybon for winning the series championship.

Plybon lost a motor with eight laps remaining, to finish 17th in the Fall Classic. It was his only finish outside the top-10.

NWSLM ROOKIE-OF-THE-YEAR IS ZACH RIEHL

Congratulations to Zach Riehl for scoring the Northwest Super Late Model Series Rookie-of-the-Year Award.

The honor was especially hard fought for Riehl who was involved in a late-race wreck on a lap 99.

The team thrashed on the car to get the car back on track. The effort was worth it, as Riehl earned the rookie honors over Wyatt King after a 16th-place finish in the Fall Classic.

Seller Basics | Worksheet

CALCULATE CAPITAL GAINS

When you sell a stock, you owe taxes on the difference between what you paid for the stock and how much you got for the sale. The same holds true in home sales, but there are other considerations.

How to Calculate Gain

| | |
|---|---|
| Your home's original sales price when you bought it (not what you brought to closing). | |
| Additional costs you paid toward the original purchase (include transfer fees, attorney fees, and inspections, but not points you paid on your mortgage). | + |
| Cost of improvements you've made (include room additions, deck, etc. Improvements do not include repairing or replacing existing items). | + |
| Add the above items to get your adjusted cost basis: | = |
| The proceeds from selling your home (the amount of money you realized from the sale, less selling expenses, such as brokerage commissions, inspection costs, legal fees, title costs, money you spent to fix up your home to prepare it for sale, and so on.) | |
| Minus the adjusted cost basis figure from above. | - |
| Your capital gain: | = |

A Special Real Estate Exemption for Capital Gains

Up to \$250,000 in capital gains (\$500,000 for a married couple) on the home sale is exempt from taxation if you meet the following criteria: (1) You owned and lived in the home as your principal residence for two out of the last five years; and (2) you have not sold or exchanged another home during the two years preceding the sale.

You may qualify for a reduced exclusion if you otherwise qualify, but are short of, the two-out-of-the-last-five-years requirement if you meet what the tax law calls "unforeseen circumstances," such as job loss, divorce, or family medical emergency.

DID YOU KNOW?

• Small businesses accounted for 65% of all net new jobs over the past 17 years.

• Small businesses employ 77 million Americans.

• 89% of consumers agree that independent businesses contribute positively to local economies.

• Residential neighborhoods served by a successful independent business district gained, on average, 50% more in home values than their citywide markets.

• Independent restaurants return more than two times as much money per dollar of sales than national restaurant chains.

• If independent businesses regain their 1990 market shares, it would create 200,000 new small businesses, generate nearly \$300 billion in revenues and employ more than 1.6 million Americans.

• If just half the U.S. employed population spent \$50 each month in locally owned independent businesses, it would generate more than \$42.6 billion in revenue.

• For every square foot a local firm occupies, the local economy gains \$179 vs. \$105 for a chain store.

We Build on Your Land Choose Condron Homes as Your Builder.

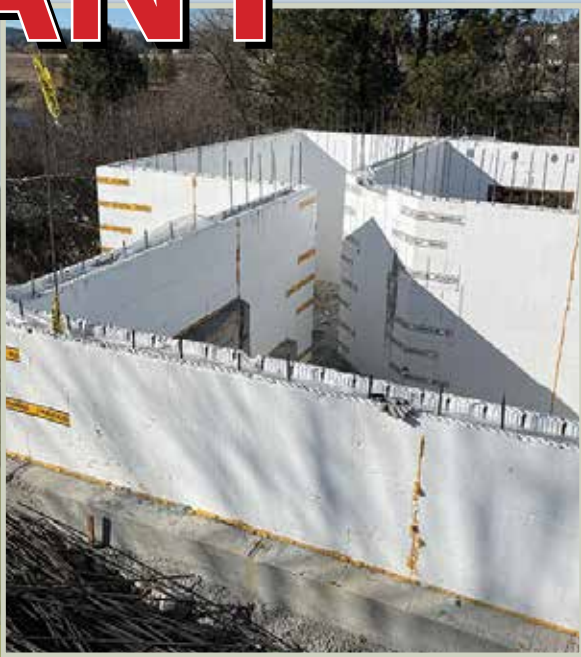

BUILDING HOMES WILDFIRE RESISTANT

In response to recent wildfires, Condron Homes has decided to take action and be part of the solution.

We have seen the need for wildfire resistant homes in our area. The team at Condron Homes has the knowledge and skills to build **Insulated Concrete Form (ICF)** residential homes; proven to be more resilient, energy efficient and comfortable than traditional stick-frame homes.

Due to the high demand of ICF buildings in the area, Condron Homes has elected to first serve the people in our community most vulnerable to wildfire damage. Condron Homes is now building ICF structures in North Spokane County, Pend Oreille County, & Bonner County.

Get started now to break ground in Spring 2024.

Painting Q&A: Tips from the Expert

Darrick Preble with Preble Painting

How late in the season can you typically paint the exterior of a home, with our weather here in Spokane?

Anywhere from mid October to mid November, it changes every year. Nothing dries under 40 degrees, and with the short days you have

to provide more drying time. Short, cold days become too risky to do a good paint job. The paint might spiderweb or fail and have to be repainted the following year.

Our season typically begins after the winter, when spring becomes nice enough to paint outside. It's best to get an estimate in the fall or winter so you can be first on the schedule when it gets nice in May or June. Typically we have a list of clients that booked ahead for Summer back during the Fall, so you don't want to wait until March thinking you are being proactive. Get an estimate now for next year!

What kinds of hot trends & colors are you seeing people choose lately?

Good Question! This year it's been white houses with black trim, last year it was blue houses with white trim, the year before it was just grey houses, with whiter grey trim.

One thing that hasn't gone out of style is grey houses with black trim - that's what I recommend to people. Grey is a fascinating shade with every single color, and that's what's been trending since 2005 and growing strong.

For 2024 - I think it's going to be bluish greys, greenish greys or brownish greys with black trim - those are the most popular greys. White trim is probably becoming less popular, and trending downwards.

Pastel colors are also becoming especially popular on accent doors, the colors are really soft and smooth.

What finish do you recommend? Satin, Flat, Matte, Gloss, Metallic, or...?

For interiors, people are moving away from gloss finishes for trim & cabinets, and using satin finishes instead, it looks more modern. Flat has zero reflectiveness, no sheen - almost like a primer, and it's very porous. Matte has a tiny bit, but basically you can't even see it. Satin is the best of both worlds, looks great and has better protection.

Even though it looks fantastic, I wouldn't recommend matte to people who have kids or animals, or anything out in the country where it gets dusty. If you're going to need to wash your walls, you never want to use matte. As a general rule, I recommend eggshell and satin finishes instead.

Any last important advice?

My last tip is painting kitchen cabinets! Which is also very popular and trending right now. This is one of the least expensive things you can do that will increase the value of your home. There are so many choices of colors these days, and since it's inside, it's easy to do in the winter. And refinishing your kitchen cabinets is MUCH less expensive than replacing them, and they feel like a whole new kitchen!

Hardscape Designs

Courtesy of Sam Maple, Certified Arborist, Owner of Sam's Tree & Landscape

At Sam's Tree & Landscape LLC we understand that hardscape designs can really make your outdoor spaces look exceptional. A properly executed design will both stand out and blend in all at the same time. Hardscapes are practical... offering a gathering area or resting spot, but the best ones also take their clues from nature. Let our experienced hardscape design team craft something that will both enhance the natural surroundings and offer you some practical value. Call today to meet with us!

Stone Features

Adding permanent stone walkways and stone features to your property not only adds value to your property, but it contains your plants and mulch, and gives a backbone and foundation to your entire yard.

Fire Features

Fire brings an atmosphere of warmth and comfort, and a new dimension to any outdoor space. Cool evenings become even more enjoyable around the warmth of this exciting focal point.

Artistic Accents

Enhance and personalize your landscape design. Our established relationships with local artists and craftsmen mean we can provide you with quality results.

Water Features

The sound of flowing water promotes a feeling of relaxation. Water features also provide a beautiful, natural focal point for family and guest activities.

Ambient Lighting

Your outdoor space will look even more inviting as the evening wears on, and will add a warm glow to your property.

Creative Hardscaping

Creative hardscape designs do more than just give you great outdoor spaces, they are an essential landscaping tool used to transform yards from normal to amazing. Properly designed patios, sidewalks, driveways and retaining walls also add dashes of warmth and practical artistry to your yard.

Top Reasons to Professionally Clean Your Spokane Bins

Trash bins constantly contain contaminated waste products like rotten food, food scraps, discarded food containers, tissues, used paper towels & more. Let's not forget that our garbage bins then become filled with germs, bacteria, rodents, insects & other vermin. These sort of creatures thrive in this dirty, germ-filled environment — an environment that could potentially make you or your family sick.

The Unsightly Appearance Of Dirty Trash Bins

We spend a significant amount of time & money on our home for things like the lawn, roof, siding, landscaping, etc. Any of these items can increase the curb appeal of your living space — your trash bins included.

Germ + Bacteria Elimination Inside of Your Bins

Believe it or not, your waste bins are an absolute breeding ground for all sorts of germs & bacteria. Things like Salmonella, Listeria, & E-Coli are a few of the many disgusting & dangerous issues you can face when handling waste & recycling bins. Sanitizing your trash bins regularly can kill these sorts of germs.

Clean Trash Bins are a Wildlife Deterrent

Animals are quickly & easily attracted to any food scraps left inside or your trash bins. Rodents, raccoons, bears, opossums, or other wildlife will rummage through your bins leaving an even bigger mess than you bargained for. When your garbage bins are cleaned regularly, you'll greatly reduce the possibility of attracting any sort of wildlife onto your property.

Maggot & Fly Elimination From Within Your Bins

Flies are attracted to all sorts of trash. Even worse, these same flies will breed in your dirty Spokane garbage bins. The result will be trash bins filled with disgusting maggots. Left unchecked, these maggots will quickly hatch into even more flies.

Odor Elimination From Your Spokane, WA Trash Bins

The trash we place inside of our bins naturally creates an offensive odor. The rotting food, used paper towels, wipes and diapers, are a few of the many items we might throw out each & every day. Why is it a wonder that our waste bins smell the way they do?

If you live in the City of Spokane, call 509.596.0044 or schedule your Spokane trash bin cleaning services online today.

3 Great Reasons to Replace Aging Windows

Windows in a home are easy to take for granted. Unless windows are showing signs of wear and tear or so dirty that it's hard to see through them, it's easy for them to go unnoticed. However, replacement windows can add value to a home and even save homeowners a substantial amount of money.

Much of the savings that can be attributed to new windows is related to energy efficiency. The Office of Energy Efficiency and Renewable Energy estimates that as much as 30 percent of heating and cooling energy can be lost through heat gain or heat loss, and aging, inefficient windows contribute to such losses. Replacing those windows can save homeowners substantial amounts of money, with one expert at Angi estimating that installation of energy efficient windows can help trim energy bills by as much as 12 percent.

Cost savings are often noted when firms promote replacement windows, but homeowners should know that replacement windows also provide numerous additional benefits. In fact, the following are three great reasons for homeowners to consider upgrading their windows today.

1. New windows help reduce carbon footprint. The U.S. Environmental Protection Agency reports that replacing single-pane windows with ENERGY STAR® certified windows can help to reduce CO2 emissions by a significant margin. The EPA reports that such windows can save the equivalent of as much as 6,200 pounds of CO2 emissions thanks to reduced energy consumption associated with the new windows.

2. New windows can brighten a home. Natural light brightens a room and

can make it appear larger. Homeowners who have grown accustomed to old windows may not realize how little light such windows let into their homes. Aging windows can become foggy over time and prevent natural light from getting into a home. That can create a gloomy feel and force homeowners to turn up the thermostat on cold days. New windows brighten the home and the natural light that pours in on a cold day can help heat the home at the same time.

3. New windows cut down on noise. Window manufacturers are always on the lookout for ways to produce windows that make homes more comfortable. Noise reduction is one way to accomplish that goal, and Consumer Reports notes that triple-glazed windows can help to dramatically reduce outside noise. Homeowners who currently have single-pane windows may be astonished by the difference in outside noise levels when upgrading to triple-glazed windows, which contain a third layer of glass. That third layer of glass significantly reduces noise levels, making triple-glaze windows ideal for homes on busy streets or those in urban areas with lots of foot traffic.
