Did You Know?

Much like their many of their human counterparts, pets do not always relish winter. Animals can experience arthritis pain or fatigue when the cold sets in. Shorter periods of daylight also may make them less active and likely to sleep for longer periods of time. In an effort to stay warm, some pets get creative. Cats can unintentionally put themselves in danger just to chase a chill away. The American Animal Hospital Association says cats will curl up against almost anything, including car engines, to stay warm. Cats caught in moving engine parts can be seriously hurt or killed. Before you turn your engine on, check beneath the car or make a lot of noise by honking the horn or rapping on the hood. Also, if you have exposed radiators in a home or apartment, construct a cover to prevent cats and dogs from climbing on the exposed coils. The hot water pumping through radiators can cause burns. Cats and dogs also may get too close to fireplaces, so use a protective screen to keep them away from hot embers. Pets also can knock over portable heaters in an attempt to get warm. Look for models that automatically shut off if they fall over to reduce your risk of fire.

Dave Graybill
"The Outdoor Insider"

I know that a lot of folks have their boats tucked away for the winter, but I try to keep mine ready until there is just too much snow to deal with. This time of year, I try to find some holes in the clouds to plan my fishing trips.

I am really tired of the rain we are getting here in Leavenworth. I know, I know, we need it, but it has sure put a damper on my plans to get out on the water. I am still getting reports of good kokanee fishing on Lake Chelan, with fish averaging a fat 13 inches. I ran into Joe Zelinski, who was checking catches of coho on the Icicle River for the WDFW, and he had fished Chelan. He said that he got a quick limit above the Yacht Club recently, and he marked very good numbers of fish in the lower basin, too. He found most of the fish at the 60- to 80-foot depth on the lake.

Joe mentioned that what is particularly exciting about the numbers and size of the kokanee that are being caught this winter is what we may expect next spring and summer. Most of These fish aren't going to spawn until next year. They will be hanging around and feeding all winter long and into next season. Anglers might be catching kokanee that are much larger than in recent years. We'll have to wait and see but the prospect of fishing Lake Chelan for kokanee of 15 inches and larger is sure something to look forward to.

He also showed me a couple of photos from recent trips to Potholes Reservoir. He has been trolling crank baits and was catching an amazing variety of fish. He was getting mostly walleye, but also had some big bluegill, some crappie and even rainbow trout. I did stop by the Icicle River later last week and found a proud angler with a fish he caught while casting from the handicapped platform. He had landed a very mature hen. This week's photo was taken on the Icicle last week.

Fish like to fool me. They will ignore my fly or lure to the point that I don't think they are even there. I said last week that I didn't think the coho were going to show up in the Icicle River in good enough numbers to provide decent fishing. Then they did. When I stopped by the river I saw more rigs parked at the access than I had all season, and when I looked over the bank there was an angler pumping a fish to the bank. I spoke to the angler, and they said they

give it a shot another day.

Kings are caught on Lake Chelan year-round, and this is a good time to try for them. If you would like to learn more about how to fish for Chinook on the lake, you can watch a couple of short videos Rick and I did. One is on how to prepare herring for Chinook fishing, and the other was shot last year when we boated a nice fish. To find the videos you can go to my YouTube channel. You can search for them under

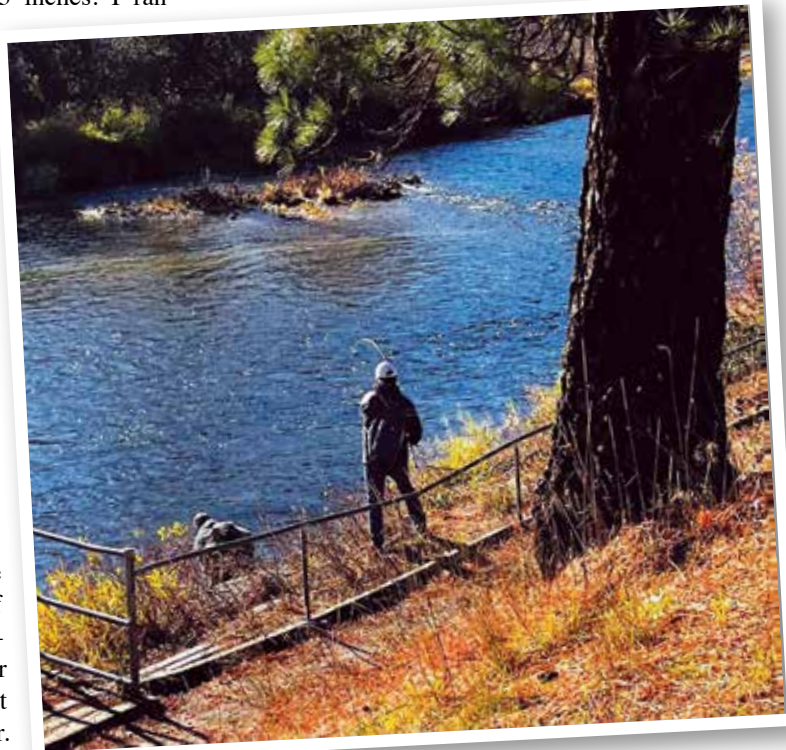

Dave Graybill. The one we did while catching the king can be viewed by going to my website at www.FishingMagician.com, and clicking on the Fishing TV Page. It's under Fishing for Lake Chelan Chinook with Rick Graybill. Both of these short videos will give you good information about how to fish for these prized fish. They are not only great fighters they are probably the best eating Chinook you'll ever taste.

You can split your time when fishing on Lake Chelan between fishing for kings and kokanee. It is not unusual for anglers to catch kings while fish-

ing for kokanee, but if you really want to target kings you are better off using the techniques that are described in the videos that I mentioned. You also have to troll at a faster speed when targeting kings.

Another species that is available to anglers on Lake Chelan are cutthroat. These are planted in the lake every year and they are very abundant throughout Chelan. Although they often hit the kokanee gear people are trolling, some anglers will flatline small plugs out the back of the boat to get them. They can really add to the fun of a day on the water. Most of the cutthroat I have caught while kokanee fishing average between 12 and 14 inches, and I'm sure there are large cutts in the lake.

I see a couple of sunny days in the forecast for the coming week. I plan to take advantage of them!

had hooked a few in the stretch below the hatchery and were going to try the spot on East Leavenworth Road before they quit for the day. A WDW fish checker was there, and he said that the Icicle River had come up with the heavy rain that fell in Leavenworth, and that pulled the coho into the river. Anglers were doing the best they had since the season opened in late September. It will remain open through the end of November. He reminded anglers about the posted boundary that they can fish on the Icicle, and to keep below it. Enforcement is checking.

My brother Rick and I had planned a trip to Lake Chelan to try to catch a couple of Chinook, but the weather forecast was for high wind. It was supposed to rain, too, but we've both put up with that while fishing. We draw the line at high wind, though. So, we are going to

Report

"Going fast is your job...telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

DALTON OLSEN - JUNIOR LIGHTNING

The 2023 racing season was Dalton's seventh season behind the wheel of a race car.

What started out rocky because he was getting used to a brand-new car turned into success with 10 final round appearances between Qlispe Raceway Park and Walla Walla Dragstrip.

This is his third championship in the Junior category with two being In the Junior Thunder class and this third in the Junior Lightning class.

Besides his racing, Dalton enjoys helping his dad drag race, as well as getting more of my family interested into the sport.

Outside of racing I help around our family farm and of course maintain the race cars.

"What made the 2023 season memorable was my parents giving me the opportunity to continue racing against some of the best in the northwest," Dalton wrote in an email.

He also listed as important, "The friends I have made along the way, and most importantly some of the track photographers such as Doug Crann and Annette Barton that spend their time at our local points races to make sure we have proof of our memories."

"I want to put out a huge thanks to the Qlispe Raceway Park team, who helped us racers come back to the place many have dedicated our lives to," Dalton said.

In addition he thanks many of the top hitters in the sportsman pro and super pro classes who have gave him so much information to make me a better racer.

Qlispe Raceway Park 2023 Point Leaders: Junior Lightning

HYDEE LYMAN - JUNIOR STREET

This is Hydee's first year racing junior street, although she has been supporting her parents for many years by helping them in the pits.

She was very nervous at first, but after a few times down the track, Hydee was hooked.

She did qualify this year to represent the track for the team divisional finals in Woodburn, Oregon this year. They only send two Junior Street class racers from each track for that event, so it was an amazing opportunity for her to represent Qlispe.

Outside of racing Hydee has done dance for 10 years and has done it competitively for the last 6 seasons. Her passion seems to be at the dance studio, and now out

at the track.

It is her outlet.

Hydee is also a Type 1 diabetic warrior that takes life by the horns and doesn't let anything stop her.

Her pit crew consists of her parents, Heather and Cody Eller, who help and support her. Her mom, Heather, is her co-pilot when she races.

There is something about the winter months and curling up with a good book by the fireplace. But did you know that heating equipment is one of the leading causes of home fire deaths? With a few simple safety tips and precautions you can prevent most heating fires from happening.

- Keep anything that can burn at least three-feet (one metre) away from heating equipment, like the furnace, fireplace, wood stove, or portable space heater.
- Have a three-foot (one metre) “kid-free zone” around open fires and space heaters.
- Never use your oven to heat your home.
- Have a qualified professional install stationary space heating equipment, water heaters or central heating equipment according to the local codes and manufacturer’s instructions.
- Have heating equipment and chimneys cleaned and inspected every year by a qualified professional.
- Remember to turn portable heaters off when leaving the room or going to bed.
- Always use the right kind of fuel, specified by the manufacturer, for fuel burning space heaters.
- Make sure the fireplace has a sturdy screen to stop sparks from flying into the room. Ashes should be cool before putting them in a metal container. Keep the container a safe distance away from your home.
- Test smoke alarms at least once a month.

Install wood burning stoves following manufacturer's instructions or have a professional do the installation. All fuel-burning equipment should be vented to the outside to avoid carbon monoxide (CO) poisoning.

Install and maintain CO alarms to avoid the risk of CO poisoning. If you smell gas in your gas heater, do not light the appliance. Leave the home immediately and call your local fire department or gas company.

Half of home heating fires are reported during the months of **December, January & February.**

WEEKLY Horoscopes for Nov 16-22

ARIES – Mar 21/Apr 20

It's important to pay attention to your physical health this week, Aries. It's key to give your body plenty of rest and healthy foods to strengthen your immune system.

TAURUS – Apr 21/May 21

Something out of the ordinary may happen to you this week, Taurus. You don't know what to expect, but be aware of your surroundings and the people you meet.

GEMINI – May 22/Jun 21

This is a perfect time to review your goals or to-do list, Gemini. If you don't have things jotted down, brainstorm with friends on what you may want to accomplish, then make plans.

CANCER – Jun 22/Jul 22

Cancer, do not turn anyone away if they come to you looking for assistance. Someone in need is likely to seek you out in the days to come and you should be ready.

LEO – Jul 23/Aug 23

There is no shame in taking a day off or slowing down for a breather, Leo. Spend the day in bed or lounging on the couch if you desire. Give yourself a break if you've been running around.

VIRGO – Aug 24/Sept 22

If emotions are high, Virgo, you might need to figure out a way to relieve some stress. Turn on the music loudly and dance around in your home while singing along.

LIBRA – Sept 23/Oct 23

Libra, you could feel sluggish a few days this week. Once some friends urge you to get out and do something, you'll quickly feel reenergized and ready to have a good time.

SCORPIO – Oct 24/Nov 22

Scorpio, failure can be a tough pill to swallow, but if you don't succeed at something you have to get back up and simply try again. Don't let one setback eat at you for long.

SAGITTARIUS – Nov 23/Dec 21

Don't let your pride get in the way of rekindling a friendship Sagittarius. Rather than drum up old news, talk about the things you look forward to doing together.

CAPRICORN – Dec 22/Jan 20

Capricorn, things may work out if you give them another chance. Don't throw in the towel on your ideas just yet. Figure out a new angle and then get started on a new course.

AQUARIUS – Jan 21/Feb 18

Take the blinders or rose-colored glasses off, Aquarius. You can't adequately handle a situation unless you know all of the facts and have a clear grasp of reality.

PISCES – Feb 19/Mar 20

If things are starting to feel boring, it might be time for a change of pace, Pisces. Simple things like changing around the furniture or taking a new route home can help.
