*Dave Graybill*  
"The Outdoor Insider"

I know that a lot of folks have their boats tucked away for the winter, but I try to keep mine ready until there is just too much snow to deal with. This time of year, I try to find some holes in the clouds to plan my fishing trips.

I am really tired of the rain we are getting here in Leavenworth. I know, I know, we need it, but it has sure put a damper on my plans to get out on the water. I am still getting reports of good kokanee fishing on Lake Chelan, with fish averaging a fat 13 inches. I ran into Joe Zelinski, who was checking catches of coho on the Icicle River for the WDFW, and he had fished Chelan. He said that he got a quick limit above the Yacht Club recently, and he marked very good numbers of fish in the lower basin, too. He found most of the fish at the 60- to 80-foot depth on the lake.

Joe mentioned that what is particularly exciting about the numbers and size of the kokanee that are being caught this winter is what we may expect next spring and summer. Most of These fish aren't going to spawn until next year. They will be hanging around and feeding all winter long and into next season. Anglers might be catching kokanee that are much larger than in recent years. We'll have to wait and see but the prospect of fishing Lake Chelan for kokanee of 15 inches and larger is sure something to look forward to.

He also showed me a couple of photos from recent trips to Potholes Reservoir. He has been trolling crank baits and was catching an amazing variety of fish. He was getting mostly walleye, but also had some big bluegill, some crappie and even rainbow trout. I did stop by the Icicle River later last week and found a proud angler with a fish he caught while casting from the handicapped platform. He had landed a very mature hen. This week's photo was taken on the Icicle last week.

Fish like to fool me. They will ignore my fly or lure to the point that I don't think they are even there. I said last week that I didn't think the coho were going to show up in the Icicle River in good enough numbers to provide decent fishing. Then they did. When I stopped by the river I saw more rigs parked at the access than I had all season, and when I looked over the bank there was an angler pumping a fish to the bank. I spoke to the angler, and they said they

give it a shot another day.

Kings are caught on Lake Chelan year-round, and this is a good time to try for them. If you would like to learn more about how to fish for Chinook on the lake, you can watch a couple of short videos Rick and I did. One is on how to prepare herring for Chinook fishing, and the other was shot last year when we boated a nice fish. To find the videos you can go to my YouTube channel. You can search for them under

Dave Graybill. The one we did while catching the king can be viewed by going to my website at [www.FishingMagician.com](http://www.FishingMagician.com), and clicking on the Fishing TV Page. It's under Fishing for Lake Chelan Chinook with Rick Graybill. Both of these short videos will give you good information about how to fish for these prized fish. They are not only great fighters they are probably the best eating Chinook you'll ever taste.

You can split your time when fishing on Lake Chelan between fishing for kings and kokanee. It is not unusual for anglers to catch kings while fish-

ing for kokanee, but if you really want to target kings you are better off using the techniques that are described in the videos that I mentioned. You also have to troll at a faster speed when targeting kings.

Another species that is available to anglers on Lake Chelan are cutthroat. These are planted in the lake every year and they are very abundant throughout Chelan. Although they often hit the kokanee gear people are trolling, some anglers will flatline small plugs out the back of the boat to get them. They can really add to the fun of a day on the water. Most of the cutthroat I have caught while kokanee fishing average between 12 and 14 inches, and I'm sure there are large cutts in the lake.

I see a couple of sunny days in the forecast for the coming week. I plan to take advantage of them!

had hooked a few in the stretch below the hatchery and were going to try the spot on East Leavenworth Road before they quit for the day. A WDW fish checker was there, and he said that the Icicle River had come up with the heavy rain that fell in Leavenworth, and that pulled the coho into the river. Anglers were doing the best they had since the season opened in late September. It will remain open through the end of November. He reminded anglers about the posted boundary that they can fish on the Icicle, and to keep below it. Enforcement is checking.

My brother Rick and I had planned a trip to Lake Chelan to try to catch a couple of Chinook, but the weather forecast was for high wind. It was supposed to rain, too, but we've both put up with that while fishing. We draw the line at high wind, though. So, we are going to

## IS IT TIME TO REMODEL OR RELOCATE? Part 2

There is always something on a homeowners to-do list, from changing air filters to finally repairing that leaky faucet. You may tackle a big project on your to-do list, such as a kitchen renovation or upgrading aging appliances. Modernizing your home can come with a hefty price tag. Depending on the scope of your project, it might be time to move on to a house that better suits your needs. To help you evaluate if you should invest in a home project or start saving for a new house, start by asking yourself the following questions:

### 1. What's my budget?

### 2. Is the layout of your current home conducive to a remodel?

### 3. What is the current value of your home compared to similar homes in your neighborhood?

If your home is already the most expensive in the area, you might see a small return on your investment if you remodel. But if comparable home values are more significant than your home's, you're much more likely to see a strong return by making improvements.

### 4. How might your needs change in the next 3, 5 or 10 years?

How might your needs change in the next three, five or 10 years? A growing family, kids going off to college, an aging family member moving in – all are factors that can significantly impact your future requirements for a home. According to the National Association of Home Builders, more than a third (39%) of buyers prefer a multi-generational home.

### 5. How do you feel about your current location?

Even if you change everything about your home, there are many things outside of your home that you have no control over. Have you resumed a lengthy commute to work, or taken up a hobby or activity farther away from your home? Other lifestyle factors to consider are the school district, parks and shopping centers, and the overall look and feel of the community.

To connect with a professional remodeler to help determine what updates are feasible for your home, contact the Central Washington Home Builders Association, and keep reading the Exchange each week!

*Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!*

### DALTON OLSEN - JUNIOR LIGHTNING

The 2023 racing season was Dalton's seventh season behind the wheel of a race car.

What started out rocky because he was getting used to a brand-new car turned into success with 10 final round appearances between Qlispe Raceway Park and Walla Walla Dragstrip.

This is his third championship in the Junior category with two being In the Junior Thunder class and this third in the Junior Lightning class.

Besides his racing, Dalton enjoys helping his dad drag race, as well as getting more of my family interested into the sport.

Outside of racing I help around our family farm and of course maintain the race cars.

"What made the 2023 season memorable was my parents giving me the opportunity to continue racing against some of the best in the northwest," Dalton wrote in an email.

He also listed as important, "The friends I have made along the way, and most importantly some of the track photographers such as Doug Crann and Annette Barton that spend their time at our local points races to make sure we have proof of our memories."

"I want to put out a huge thanks to the Qlispe Raceway Park team, who helped us racers come back to the place many have dedicated our lives to," Dalton said.

In addition he thanks many of the top hitters in the sportsman pro and super pro classes who have gave him so much information to make me a better racer.

#### Qlispe Raceway Park 2023 Point Leaders: Junior Lightning

Driver	Points
1. Dalton Olson	211
2. Sahara Wendt	184
3. Dakota Fortney	118
4. Allie Upton	92
5. Corban Box	85

### HYDEE LYMAN - JUNIOR STREET

This is Hydee's first year racing junior street, although she has been supporting her parents for many years by helping them in the pits.

She was very nervous at first, but after a few times down the track, Hydee was hooked.

She did qualify this year to represent the track for the team divisional finals in Woodburn, Oregon this year. They only send two Junior Street class racers from each track for that event, so it was an amazing opportunity for her to represent Qlispe.

Outside of racing Hydee has done dance for 10 years and has done it competitively for the last 6 seasons. Her passion seems to be at the dance studio, and now out

at the track.

It is her outlet.

Hydee is also a Type 1 diabetic warrior that takes life by the horns and doesn't let anything stop her.

Her pit crew consists of her parents, Heather and Cody Eller, who help and support her. Her mom, Heather, is her co-pilot when she races.

#### Junior Street Point Leaders

Car #	Name	Points
633	Hydee Lyman	152
604	John Sherlock	122
6948	Alexander Eller	89
542	Sage Clare	50
