**Cooking Safety**

Cooking brings family and friends together, provides an outlet for creativity and can be relaxing. But did you know that cooking fires are the number one cause of home fires and home injuries? By following a few safety tips you can prevent these fires.

**"COOK WITH CAUTION"**

- Be on alert! If you are sleepy or have consumed alcohol don't use the stove or stovetop.
- Stay in the kitchen while you are frying, boiling, grilling, or broiling food. If you leave the kitchen for even a short period of time, turn off the stove.
- If you are simmering, baking, or roasting food, check it regularly, remain in the home while food is cooking, and use a timer to remind you that you are cooking.
- Keep anything that can catch fire — oven mitts, wooden utensils, food packaging, towels or curtains — away from your stovetop.

**If you have a small (grease) cooking fire and decide to fight the fire...**

- On the stovetop, smother the flames by sliding a lid over the pan and turning off the burner. Leave the pan covered until it is completely cooled.
- For an oven fire, turn off the heat and keep the door closed.

**If you have any doubt about fighting a small fire...**

- Just get out! When you leave, close the door behind you to help contain the fire.
- Call 9-1-1 or the local emergency number from outside the home.

**COOKING & KIDS**

Have a "kid-free zone" of at least 3 feet (1 Metre) around the stove and areas where hot food or drink is prepared or carried.

**FACTS**

- ! The leading cause of fires in the kitchen is unattended cooking.
- ! Most cooking fires in the home involve the kitchen stove.

*Dave Jayne*  
"The Outdoor Insider"

The first snow has fallen here at my home in Leavenworth. Well, a "wintery mix" is what they call it. I managed to pick a couple of sunny days last week to get out on the water and try my luck. It is getting near the time when I change my fishing tactics.

This time of year, I often choose to fish from the shore at several locations in our region. Rainbow trout and triploid rainbow trout are my target, and the possibility of landing some really big fish is very good.

This year, the Colville Tribe released over 45,000 triploids into Rufus Woods. They released 15,000 in February, weighing 2 pounds each. In the period of April through May they released 25,000 2 pounders, and an additional 5,000 were released later in May and June. The fish in this plant weighed 1.8 pounds. When you consider the rapid growth rate of these fish, anglers can realistically expect to catch trout weighing 4 to 6 pounds now. The possibility of getting one that weighs double digits is very real.

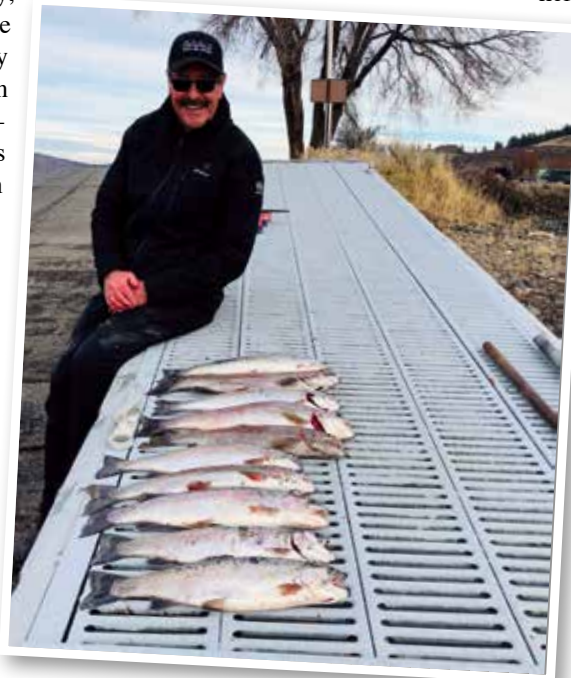

Most anglers will fish Rufus Woods at the public accesses above Chief Joseph Dam, or at my favorite spot, Brandts Landing, which is a Federal Park six miles above the boat launch. Fishing from shore at the middle net pens is very popular, even though this requires a Tribal Access permit.

I also like to fish Lake Roosevelt from shore. Near Coulee Dam I fish at Crescent Beach or Spring Canyon. I also fish from shore at Keller. The trout I catch on Lake Roosevelt average 16 to 20 inches. At all of these locations I use the same method. A sliding slip sinker rig with the hook baited with either Power Bait, a marshmallow and shrimp or nightcrawler combo. This week's photo is of two limits of trout Tom Verschuren and I landed at Keller in November a few years ago.

I keep a backpack handy, that is loaded with what I need for a day of fishing from shore. There are rod holders, extra leaders and sinkers, a stringer, a good selection of Power Bait, a jar of shrimp and marshmallows. I can grab this and hit the door with everything I need to catch Rufus Woods or Lake Roosevelt

trout. I will also often bring hand and foot warmers, my Fishing Buddy propane heater, or even some wood to start a blaze in the fireboxes that are located at many of the public access points at Brandts Landing.

The weather forecast was for another sunny day last Thursday, so I called my friend James Lebow in Moses Lake, and asked if he would like to give Potholes a try. He was willing so we fished it Thursday morning. I wanted to see if we could catch some walleye with crank baits off side planers, and we trolled the area at the very top end of Medicare

Beach. It was here we scored a first—a catfish on a plug! We also landed a nice smallmouth. We weren't getting any hits on the plugs and really weren't marking many walleye, so we headed to the other side of the reservoir, where we usually find and catch walleye. We switched from trolling side planers and plugs to bottom bouncers and spinners. Well, that didn't really pay off either. We only caught one whopper perch. We marveled at the huge flocks of Canada geese and snow geese that were flying overhead or rafting up on Potholes.

We contemplated what we wanted to do next, and I called Dave, who checks catches on the bottom end of Rufus Woods for the Colville Tribe. He said that there are still mostly small trout being caught, and no one seems to know where they are coming from. I will call

my contact at the Colville hatchery and see if they have released any small fish lately. So, we may wait a while before we fish from the shore at Brandts Landing. I have had some great days here over the winter months.

We have many clear, calm and sunny days in the winter over here, and last Tuesday was one of them. It was a great day to be on Lake Chelan, and we had very good kokanee fishing. Tom Verschuren and I had a great start just above the Yacht Club, with a double. One was a small cutthroat and the other was a small kokanee. I thought, oh boy, here we go! We landed seven kokanee trolling in this spot. There were three other boats trolling above the Yacht Club. Traditionally, this is a good place on the lake to find schools of kokanee in the winter.

Then, the bite really slowed down, and the wind started to blow a bit. We figured that this would be a good time to try another area, so I drove the boat to the "Blue Roofs", which are on the shore across the road from Pat and Mike's. There were no other boats here in the lower basin. We got a fish within ten minutes of getting our gear out, but then nothing for about 20 minutes. We crossed the lake and started trolling below Rocky Point and things changed—for the better. We were getting more fish, even spotting some schools of fish on the depth sounder, and they were larger than the kokanee we were getting above the Yacht Club. We got 13 in about an hour and a half. Several were 13 to 14 inches.

We were running the downriggers at 80 feet, and rods with five ounce leads at 80 on the line counter out the back. The back rods were catching as many or more than the downrigger rods. I had my favorite orange spinners behind orange Kokabow blades on a couple of rods and pinks spinners behind pink Kokabow blades on a couple of rods. I started running more pink earlier this season with good results. I was keeping my speed at about 1.2 mph.

There is a lot of good fishing to look forward to this winter. I have too many things to be thankful for on this Holiday. I hope you all have a great Turkey Day!

## SUPPORT SMALL BUSINESS THIS HOLIDAY SEASON

The holidays are here again, and shopping around for unique gifts is in full swing. However, the last couple of years have been challenging for many of our small businesses & local retailers. Therefore, to help our local Central WA economy recover, it's more important now than ever to support small businesses in our community this holiday season.

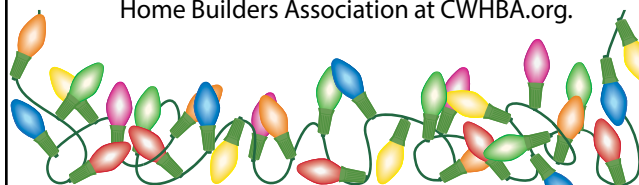

Overall, more than 32 million small businesses in the United States employ nearly half (47%) of the country's private workforce. In our community, every time you patronize a homegrown shop, book store or other retailers, you are helping to make a sizable contribution locally. In addition, small businesses have generated 12.9 million new jobs over the past 25 years, accounting for 2 out of every 3 jobs added to the economy. So, there is no question that small businesses help communities thrive across the country.

If you've passed by a local shop several times but never had an opportunity to visit, now is the best time to check it out. Small businesses in our area often carry locally made, one-of-a-kind gifts or items you may not be able to find anywhere else. If you work up an appetite shopping in stores this holiday season, restaurants or coffee shops also benefit the local economy.

Our community's local home builders and remodelers are also small businesses contributing to our local economy. According to the National Association of Home Builders, constructing 100 new single-family homes creates 394 local jobs, \$28 million in wages and business income and \$3.6 million in taxes and other revenue for local governments.

Once your holiday shopping list is complete, if you're looking for someone to remodel or even build your dream home, consider seeking out a business based in our community to see what they offer. Our community has an array of qualified professionals including home builders, remodelers, tradespeople and professional service providers.

For more on information on locating a small business related to the home building industry, check out The Exchange each week or contact the Central Washington Home Builders Association at CWHBA.org.

NOVEMBER 24, 2023 Report

"Going fast is your job...telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

**MELINA BANKS - SUNSET SPEEDWAY**

Despite having her gene pool deeply rooted in drag racing, Melina Banks has decided to pursue her passion for speed on the dirt go-kart track at Sunset Speedway in Spokane.

And why fiddle with success?

Banks' dad, Patrick and her grandmother, Bonnie McLain, both spent years devoted to the quarter-mile. Bonnie, who passed away in January, was the forever director of the timing tower at Spokane Raceway Park.

Patrick has driven all kinds of cars, both on the oval and drag strip. He was the 2018 vintage modified champion at Stateline Speedway.

But there's no convincing 13-year-old Melina, a Mountain-side Middle School in the Mead district to switch from dirt to drags.

"She likes drag racing to watch," Patrick wrote, however, "She says too much work for a short ride.

"We have a blown alcohol front engine-dragster and she wants nothing to do with it," her dad added. As far as karts vs. drag racing is concerned, she wanted the longer ride, not just a few seconds.

Banks won in two classes in 2023 at Sunset, one being Jr. II Clone where she was in a battle with Bently Bartle and edged him by just 2 points. Banks was the lone driver in the Jr. Cage Karts.

This year is her fourth consecutive year of winning the championship in the flat kart.

Melina won the Jr. Wing class championship where she raced with the open 500s all year. Her best finish was third with half the engine power.

Melina also made a trip to Rainer and raced with the Pacific Outlaws and finished sixth out of 12 in the a main starting last after racing her way in the A main. This placed her first

in the 250 class.

The flat kart has special meaning for Melina as it was a gift from her grandmother before she passed away.

Looking to 2024, Melina is planning on running the Junior Unlimited All Stars and going for a UAS championship. Unlimited All Stars race all over the country with the Grand Nationals in Arizona.

"We are trying to schedule two quarter points races at Sunset Speedway this year for UAS and a few on the coast," Patrick said.

Melina wants to stay with dirt racing if we move into other classes," her dad said. "She would like to do dirt modified or sprint cars."

When not immersed in racing Melina plays volleyball, basketball and is a member of the school band where she plays trombone.
