WEEKLY Horoscopes for Nov 30 - Dec 6

ARIES – Mar 21/Apr 20
Aries, if you work or spend time with an introvert, reach out to him or her and strike up a conversation. This person may only need a little nudge to become a good friend.

TAURUS – Apr 21/May 21
Taurus, a friendly competition that may have started out lighthearted is now starting to transform into something a bit more competitive. Dial it back a bit.

GEMINI – May 22/Jun 21
Gemini, things are starting to slow down in your life, and your to-do list has gotten shorter. Expect things to ramp up again soon enough, but enjoy the break for now.

CANCER – Jun 22/Jul 22
This is a good week to begin something that you've been thinking about tackling, Cancer. You'll have pep in your step and others willing to lend a hand if it is needed.

LEO – Jul 23/Aug 23
Leo, someone may offer you some honest feedback that is a little too raw for your ego at this point in time. You will simply have to take it with dignity and lick your wounds elsewhere.

VIRGO – Aug 24/Sept 22
You need to be the driving force on a project that will pop up, Virgo. Even though you're not sure of your readiness for this type of work, you can give it a good attempt.

LIBRA – Sept 23/Oct 23
Whatever you tackle this week, it shouldn't revolve entirely around money, Libra. Finances may have gotten in the way of things for some time; focus now on relationships.

SCORPIO – Oct 24/Nov 22
Don't let a dream you had put you all in a tizzy, Scorpio. That was just your subconscious working through some things and not a prediction of things to come.

SAGITTARIUS – Nov 23/Dec 21
Don't be shy about receiving credit for something that you did, Sagittarius. You deserve the recognition no matter how large or small the task. Celebrate all your victories.

CAPRICORN – Dec 22/Jan 20
You may be coveting something of late, Capricorn. However, only when you stop actively wanting that thing or person will you finally get what you desire.

AQUARIUS – Jan 21/Feb 18
Aquarius, your positive attitude is an asset in life. Even as challenges come your way this week, you can prove the naysayers wrong by maintaining your rosy outlook.

PISCES – Feb 19/Mar 20
Pisces, standing up for yourself this week is challenging, but you need to do it to get your point across. Don't worry, you have many supporters in your corner cheering you on.

NOXIOUS WEEDS

What is a Noxious Weed? They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

SULFUR CINQUEFOIL

SULFUR CINQUEFOIL (POTENTILLA RECTA)

A perennial with one to several stalks growing from the rootstock. Grows 1-3ft tall. Leaves and stems are covered in hair. Palm shaped leaves are divided into leaflets that are 2-4 inches long with toothed edges. Yellow flowers have 5 heart shaped petals with a dark yellow center. Flowers appear on the top of the stem. Spreads by seed and root fragments. Hand pulling and digging can be effective if all the root is removed. Mowing and grazing is not effective. Spraying is most effective in the rosette stage, before the flower buds begin to develop.

DOG OF THE WEEK

Meet **Nala**! Most of my prior life I was an outdoor dog and I enjoyed it quite a bit! I know some tricks and am house broken. Since I'm such a big ball of energy, it is required I go to a home with a fully fenced yard so I can play safely. I can be a little protective of my space, it would be ideal for me to go to a home with no other animals or small children until I'm a little more mature.

Please contact **Kootenai Humane Society** at 208-772-4019 or visit our website at www.CompanionsAnimalCenter.org

PLEASE SPAY OR NEUTER YOUR PETS!

December GARDENING TIPS

Master Gardeners of Spokane County

LIVE CHRISTMAS TREES

If you cut a live tree to use in your home for Christmas, remember to recut the trunk before placing it in the tree stand and keep well watered. Use the tree for small animal shelters and/or plant protection when you remove it from your home.

HOLIDAY DECORATIONS

Use branches, leaves, pinecones, hardy plants & interesting containers you find in your garden to create beautiful indoor/outdoor decorations. Add lights to brighten up the setting.

DE-ICERS & DECOR

Commercial de-icers & salt can severely damage your plants. Use sand or kitty litter as a safer alternative for your sidewalks and driveways. Be careful about not placing outdoor lights where the bud tips will break off and be gentle when removing holiday lighting so you don't break crucial branches.

GREAT READING

This is a good time to catch up on your reading. Explore your own stash of garden books or go to the library. Watch TV shows about gardening. Keep notes about what you like so you can hit the ground running in the spring.

CAT OF THE WEEK

Meet **Sophia**! I was left at the front doors of the shelter ,so little is known about me or my past. I am a sweet girl who is currently adjusting to shelter life. I enjoy being pet but do ask that I am given some time to settle into my new environment. I would be best as an only pet. I do not like dogs and would prefer to be the only cat. I am an indoor only cat. Be sure to have time and space for me.

Please contact **Kootenai Humane Society** at 208-772-4019 or visit our website at www.CompanionsAnimalCenter.org

PLEASE SPAY OR NEUTER YOUR PETS!

Dave Jayne
"The Outdoor Insider"

Holy cow, it's going to be December. I am very pleased to be this far into winter and I can still see the ground here in Leavenworth. No significant snow yet, so I am planning to get out in the boat for as long as I can. It's cold, but when the sun is shining, it's a great time to be outdoors and on the water somewhere.

Both Eric Granstrom and I have been reporting about the fun times we have had shore fishing at Brandts Landing and other locations on Rufus Woods Reservoir or Lake Roosevelt. I usually wait until some time in December to fish these places, but I just couldn't wait. James Lebow was eager to fish Brandts Landing, so we gave it a try last Friday. In spite of what the Colville Tribe fish checker had been telling me—that only small fish were being landed at Brandts, we wanted to go anyway. The forecast was for a cold, but sunny day, and I got there early to claim my favorite spot. James showed up while I was making my first cast, and we soon had four rods baited with Power Bait soaking as far as we could cast from shore. James got a bite but didn't hook up, and about an hour later he did land the only fish we got that day. Turns out, Dave the fish checker, was right. It was probably the smallest trout we had ever caught at Brandts. Still, it was a great way to spend some time outdoors. I will be fishing Brandts later this winter.

For anglers who haven't been to Brandts Landing, it isn't difficult to find. When you cross the Highway 17 Bridge at Bridgeport, right below Chief Joseph Dam, you take a left. Continue on this road for 8.2 miles and you will arrive at this Federal Park. There is a vault toilet here and picnic tables and fireboxes at most of the eight accesses to the river. Anglers should note that they will be casting onto a shallow flat. Even a very long cast will only put your bait into eight to ten feet of water. There are some weed lines along here and the bottom is made of round rock, that can snag your line. Most people will use large egg sinkers, a three-foot leader and a size 6 to 4 hook. Power Bait is the most popular attractant added to the hook. I like to use a marshmallow

and shrimp, or marshmallow and nightcrawler combo, scented with Graybills Guide Formula, the Craw/Anise flavor. Anglers should also be aware of the rule that states that all fish taken with bait must be retained. Any fish released does count toward the two-fish daily limit on Rufus Woods.

I have so many things to be thankful for that it is impossible to mention them all. What a blessing to be born and raised in Eastern Washington, and to have a father that introduced me to the joy of fishing. I have a wife that has endured freezing temperatures when ice

provided me with Smoker Craft and Kingfisher boats that make my on the water experiences possible. This week's photo is of my wife Eileen scraping snow and ice off the windshield of the boat so I can see where I am going after we launch on Lake Chelan in a past season.

One of the most popular fisheries in Eastern Washington is for triploid rainbow trout in Rufus Woods Reservoir. There are several public access points with picnic tables and fireboxes just above Chief Joseph Dam and at Brandts Landing. These get a lot of use by anglers, but the fishing effort by boaters and shore anglers is even greater at the upper end of the reservoir. The boat launch at Seatons Grove, which is just six miles downstream from Coulee Dam, is often crowded with trucks and trailers. Most of these boats are headed for the net pens. This is where the triploids are raised and the feed that filters out of the nets attracts good concentrations of these trout. Boaters will anchor near the pens and usually cast bait to catch fish. Many boaters are willing to pay the \$80 Access fee and the \$10 launch permit to launch at the middle pens. Shore space is limited here, but the fishing can be quite good. Shore anglers are required to pay the Access fee, which can be done by the day for \$20. No Tribal license is required here.

Most fish with bait on the bottom. I like to troll downstream below the upper net pen. I use a bottom bouncer rig and spinner baited with a nightcrawler. Using this method, I am able to catch walleye and triploid rainbow trout. I try to keep the boat in about 50 feet of water and do have to move out and around the large snag about half way through the trolling path. I do hang up occasionally but find it a great way to "double down" on my opportunity to catch fish. Rufus Woods and Lake Roosevelt aren't the only good places to fish in the winter in our area. The kokanee fishing on Lake Chelan may be the best it has been in years this winter. I have already had a two-limit day, and plan to have many more. If you see me out there be sure to say hi!

fishing and steelhead fishing, and the heat of the tropics when we traveled to Belize. She has spent countless hours editing and preparing videos that she recorded to be aired on the local television stations and continues to edit my writing, so it makes sense to my readers. Many people have told me that I have the best job in the world, and I don't disagree. Sharing my experience with listeners to my radio broadcasts, readers of my columns and E-Letters, and through videos has been very rewarding. I want to thank the fishing partners and guides for their time to do the videos. I couldn't do any of this without the support of the many sponsors and advertisers on my broadcasts and website. I want to especially thank Bob Feil Boats and Motors. They have

**Generator Safety**

Downed utility lines, power company blackouts, heavy snow falls or summer storms can all lead to power outages. Many people turn to a portable generator for a temporary solution without knowing the risks.

- » Generators should be used in well ventilated locations outside away from all doors, windows and vent openings.
- » Never use a generator in an attached garage, even with the door open.
- » Place generators so that exhaust fumes can't enter the home through windows, doors or other openings in the building.
- » Make sure to install carbon monoxide (CO) alarms in your home. Follow manufacturer's instructions for correct placement and mounting height.
- » Turn off generators and let them cool down before refueling. Never refuel a generator while it is hot.

- » Store fuel for the generator in a container that is intended for the purpose and is correctly labeled as such. Store the containers outside of living areas.

Just Remember...

When plugging in appliances, make sure they are plugged directly into the generator or a heavy duty outdoor-rated extension cord. The cords should be checked for cuts, tears and that the plug has all three prongs, especially a grounding pin.

If you must connect the generator to the house wiring to power appliances, have a qualified electrician install a properly rated transfer switch in accordance with the National Electrical Code® (NEC) and all applicable state and local electrical codes.

FACT

- ! CO deaths associated with generators have spiked in recent years as generator sales have risen.

Report

"Going fast is your job...telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

HEATHER ELLER, POWDERPUFF - 2023 POINTS CHAMPION AT QLISPE RACEWAY PARK

Heather Eller.

This is Heather's sixth year racing for points in Spokane. She was previously the 2019 points champion in the Powderpuff class.

Anything involved in motorsports has always been a passion since she was little, but bracket racing seems to be her favorite. Her husband and kids are out at the track every season with race family.

This year was the most fun having both her son and daughter racing with her and her husband this year. Both kids race in junior street with her son placing third in points and her daughter, Hydee Lyman, winning the championship in that class.

"This year in Powderpuff was the first year of the track re-opening, so it was such an honor to be the first championship winner for Qlisper," Eller wrote in an email. "I enjoy racing with my Miss Shifter sisters, and we are all are super competitive with each other."

Never have the standings been so close with a total of just 6 points between the top-3. "We battled it out until the end," Eller said.

Outside of racing Heather enjoys spending time with her family and 4 kids that keep her plenty busy. That along with working at Nickel's Worth locally keeping print alive in North Idaho.

Eller thanks her 2023 sponsor, American Eagle Automotive in Rathdrum, Idaho.

POWDERPUFF POINTS 2023

Car #	Name	Points
635	Heather Eller	185
718	Angie Weaver	181
6180	Jessica Boller	179
7383	Judy Wright	130
8216	Danyelle Boller	112

Heather Eller and daughter Hydee Lyman share a special moment.

Smoke Alarms at Home

SMOKE ALARMS ARE A KEY PART of a home fire escape plan. When there is a fire, smoke spreads fast. Working smoke alarms give you early warning so you can get outside quickly.

SAFETY TIPS

- Install smoke alarms in every bedroom. They should also be outside each sleeping area and on every level of the home. Install alarms in the basement.
- Large homes may need extra smoke alarms.
- It is best to use interconnected smoke alarms. When one smoke alarm sounds, they all sound.
- Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.
- Current alarms on the market employ different types of technology including multi-sensing, which could include smoke and carbon monoxide combined.
- Today's smoke alarms will be more technologically advanced to respond to a multitude of fire conditions, yet mitigate false alarms.
- A smoke alarm should be on the ceiling or high on a wall. Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 10 feet (3 meters) from the stove.
- People who are hard-of-hearing or deaf can use special alarms. These alarms have strobe lights and bed shakers.
- Replace all smoke alarms when they are 10 years old.

FACTS

- ! A closed door may slow the spread of smoke, heat, and fire.
- ! Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level. Smoke alarms should be connected so when one sounds, they all sound. Most homes do not have this level of protection.
- ! Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or no working smoke alarms.

Seller Basics | Worksheet
CALCULATE CAPITAL GAINS

When you sell a stock, you owe taxes on the difference between what you paid for the stock and how much you got for the sale. The same holds true in home sales, but there are other considerations.

How to Calculate Gain

Your home's original sales price when you bought it (not what you brought to closing).	
Additional costs you paid toward the original purchase (include transfer fees, attorney fees, and inspections, but not points you paid on your mortgage).	+
Cost of improvements you've made (include room additions, deck, etc. Improvements do not include repairing or replacing existing items).	+
Add the above items to get your adjusted cost basis:	=

The proceeds from selling your home (the amount of money you realized from the sale, less selling expenses, such as brokerage commissions, inspection costs, legal fees, title costs, money you spent to fix up your home to prepare it for sale, and so on.)	
Minus the adjusted cost basis figure from above.	-
Your capital gain:	=

A Special Real Estate Exemption for Capital Gains

Up to \$250,000 in capital gains (\$500,000 for a married couple) on the home sale is exempt from taxation if you meet the following criteria: (1) You owned and lived in the home as your principal residence for two out of the last five years; and (2) you have not sold or exchanged another home during the two years preceding the sale.

You may qualify for a reduced exclusion if you otherwise qualify, but are short of, the two-out-of-the-last-five-years requirement if you meet what the tax law calls "unforeseen circumstances," such as job loss, divorce, or family medical emergency.
