How to Spot, Avoid & Report

FAKE CHECK SCAMS

Fake checks might look like business or personal checks, cashier's checks, money orders, or a check delivered electronically. Here's what to know about fake check scams.

In a fake check scam, a person you don't know asks you to deposit a check. It's usually for more than they owe you, and it's sometimes for several thousand dollars. They tell you to send some of the money back to them or to another person. They always have a good story to explain why you can't keep all the money. They might say they need you to cover taxes or fees for a prize, to buy supplies for a job, to send back money they overpaid, or something else. But this is a scam.

Why Do These Scams Work?

These scams work because fake checks generally look just like real checks, even to bank employees. They are often printed with the names and addresses of legitimate financial institutions. They may even be real checks written on bank accounts that belong to someone whose identity has been stolen. It can take weeks for a bank to figure out that the check is a fake.

Fake Checks and Your Bank

By law, banks have to make deposited funds available quickly, usually within two days. When the funds are made available in your account, the bank may say the check has "cleared," but that doesn't mean it's a good check. Fake checks can take weeks to be discovered and untangled. By that time, the scammer has any money you sent, and you're stuck paying the money back to the bank.

Your best bet: Don't rely on money from a check unless you know and trust the person you're dealing with.

How To Avoid a Fake Check Scam

Never use money from a check to send gift cards, money orders, cryptocurrency, or to wire money to anyone who asks you to. Many scammers demand that you buy gift cards and send them the PIN numbers, buy cryptocurrency and transfer it to them, or send money through wire transfer services like Western Union or MoneyGram. Once you do, it's like you've given them cash. It's almost impossible to get it back.

Toss offers that ask you to pay for a prize. If it's free, you shouldn't have to pay to get it. Only scammers will ask you to pay to collect a "free" prize. Don't accept a check for more than the selling price. You can bet it's a scam.

Report Fraud

If you think you've been targeted by a fake check scam, report it to:

- 👉 The Federal Trade Commission
- 👉 The U.S. Postal Inspection Service
- 👉 Your State Attorney General

Dave Jayne
"The Outdoor Insider"

I just barely beat the storm to get my boat moved from Leavenworth to its place to wait out winter till the spring. I will be doing a lot of fishing from the shore or getting rides from friends until things thaw out. I have a pretty good list of things to do this winter, so let the fun begin!

Checking back on my photos taken a year ago, I found one that was taken at the middle net pens on Rufus Woods Reservoir. It showed Austin Moser and Randy Sykes, on Austin's boat on his first trip to Rufus last year. Austin will often invite me on exploratory missions, and he wanted to see if the fishing for triploids was good enough to book some trips. Yup, we caught some really nice fish. He had Randy and I try a couple of things, like fishing bait on the bottom, but what worked the best was casting olive-colored jigs. The fish loved them, and we were able to get our limits pretty quickly when we switched to this method. Austin booked a bunch of trips to Rufus last season and caught some real monsters. He had a great time catching walleye on Rufus, too.

Thanks to Austin, Eric Gransstrom, Rollie Schmitt, and I caught our triploids on olive jigs on Rufus Woods at the middle net pens last April. It was amazing that the huge triploid that Eric landed was taken on an 1/8th ounce jig. I know that casting jigs along the shore is one of my brother Rick's favorite ways to catch triploids on Rufus. Not only is it effective and fun, but anglers can also release the smaller fish. When using bait all fish landed count toward your limit, whether kept or not. I hope I can get up to Rufus soon. This week's photo is of Austin and Randy Sykes with the first limit of triploids take from Austin's boat last December.

I had a great conversation with Jill Phillips, with the Colville Tribe's Fish and Wildlife Department. I had left a message asking if she knew where all the small trout that were being caught in Rufus Woods were coming from. She said the tribe hadn't released any fish for months and she doubted they came from the commercial net pens on Rufus. Most likely they were coming downstream from Lake Roosevelt. They may have released rainbow from some of the

net pens they operate up there.

She did say that there would be a release of bigger trout by the Colville Tribe sometime in February. These should be 4 to 5 pounds and they will be put in at Seatons Grove and above Chief Joseph Dam in Bridgeport. This should give anglers something to look forward to this winter. Also, she said they plan on releasing the same number of triploids into Rufus Woods as usual next year, which is 45 to 50 thousand fish.

I mentioned my great trips to Omak Lake this year, and she told me a fish that could have been the new state record was taken there last spring.

Going by the length and girth measurement provided by the lucky angler, the Lahontan cutthroat probably weighed over 18 pounds, and would have beat the current record. It was taken during the catch and release part of the fishing season on Omak Lake, so the fish was released and didn't make it to a certified scale.

The weather in Leavenworth has been awful. We got buried in snow and the forecast is for rain. So, my first project is to get all the snow and water off the cover of my boat, and make sure it is drained. My next project is to load my smoker with a new batch of sockeye. We have family from Anaconda, Montana here, and I want to send them home

with some smoked sockeye. I also want to make up some of my salmon spread to enjoy while they are here.

I used to just hand out chunks of smoked fish, and then I started making the salmon spread. People love it so I make sure my family members get some for the Holidays. It's very simple to make. All you need, aside from the smoked fish, is some cream cheese and dill. I crumble up the fish, and here's an important trick. I put the cream cheese in the microwave for three minutes, then it is very easy to mix with the fish and dill. I put it into those 9.5 ounce containers after they have cooled, and into the fridge. You can microwave the containers for a minute before serving to make the mixture more "spreadable".

Right after the Holidays the annual RV, boat and sportsmen's shows begin. These shows are very popular, as everything that is new for the coming year is on display, and there are usually "show special" pricing available to those who attend. In Washington State, they begin with the Tacoma RV Show, that takes place at the Tacoma Dome on January 18th through the 21st. This is followed by Tri-Cities Sportsmen Show at the HAPO Center in Pasco. It starts on January 26th and runs through the 28th. The biggest sportsman's show in the state is the Washington Sportsmen's Show. It is held at the Washington State Fair Events Center in Puyallup. It begins on January

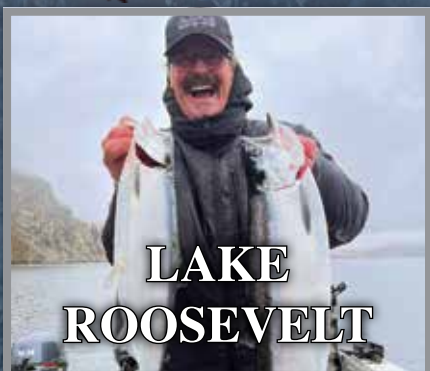

31st and stays open through February 4th. Overlapping with the show in Puyallup is the Seattle Boat Show. It's scheduled from February 2nd through the 10th. The main show is at Lumen Field Event Center and Bell Harbor Marina.

There is a lot going on at all of these shows and I will provide you with more information as the opening dates get closer. I have attended most of these shows and have enjoyed them all. When I am not on the "show circuit" I will be out chasing kokanee on Lake Chelan, big trout on Rufus Woods and Lake Roosevelt and when the area lakes freeze, trying my luck for a variety of species through the ice!

NOXIOUS WEEDS

What is a Noxious Weed? They are non-native plants that have been introduced to
Spokane County through human actions. Because of their aggressive growth and lack of
natural enemies, these species can be destructive, competitive, and difficult to control.

MUSK THISTLE

(*CARDUUS NUTANS*)

This biennial with a rosette grows 4ft in
diameter and mature plants can reach
7ft tall. Waxy leaves are dark green with
sharp spines. Upper stems are bare and
lower stems are spiny and winged. Pink to
purple flowers droop at maturity. Taprooted;
reproduces by seed. One plant can produce
1000 seeds that remain viable for 10 years.
Digging can be successful. Cut the root sev-
eral inches below the soil. Grazing is not an
effective control. Spray in the rosette stage.

DECEMBER 15, 2023 Report

"Going fast is your job...telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

RACE PROMOTER POLLOCK PASSES AWAY

Jim Hausske photo courtesy of Doug Pace

Ted Pollock, one of the premier auto racing promoters in the Pacific Northwest, passed away Dec. 8 in Vancouver, Wash.

Pollock, in his late 80s when he died, was the former owner-operator of Yakima Speedway until it was sold in 2021 and torn down, paving the way for industrial development.

"He had a hand in Yakima Speedway for 60-plus years", motorsports journalist Doug Pace writes in a text message. "Many great promoter/managers in racing worked for Ted including Ron Bennett, Dennis Williams and Doug Beteral."

Wayne Walden, who promoted Tri City Raceway in the 1970's and 80's wrote in a Facebook post, "Ted was a great friend and helped me so much when I was operating TCR. We worked great together sharing classes of race cars, he was so knowledgeable of the promotion of a racetrack."

Details for any memorial or funeral service were not available at deadline time.

SPOKANE FAIRGROUNDS INDOOR SERIES

The Spokane Fair and Expo Center is home once again this winter to the Indoor Flat Track Series.

Six more dates remain and include Dec. 16, 17 in 2023 and Jan. 13, 14 and Feb. 3, 4 in 2024.

"Santa will be handing out the trophies this weekend," promoter Paul Morgan wrote in an email.

Racing includes karts, quads, bikes with kids classes and more. General admission is \$20, military, seniors and kids 7-12 \$10.

More information can be found by visiting www.spokane-speedway.com or on Facebook and Instagram. Also contact Morgan at (630) 217-9132 or email pfmsw@outlook.com.

Paul Delaney has been writing about Motorsports in the Pacific Northwest since 1976. He welcomes learning about your racing accomplishments.

Generator Safety

Downed utility lines, power company blackouts, heavy snow falls or summer storms can all lead to power outages. Many people turn to a portable generator for a temporary solution without knowing the risks.

- Generators should be used in well ventilated locations outside away from all doors, windows and vent openings.
- Never use a generator in an attached garage, even with the door open.
- Place generators so that exhaust fumes can't enter the home through windows, doors or other openings in the building.
- Make sure to install carbon monoxide (CO) alarms in your home. Follow manufacturer's instructions for correct placement and mounting height.
- Turn off generators and let them cool down before refueling. Never refuel a generator while it is hot.

- Store fuel for the generator in a container that is intended for the purpose and is correctly labeled as such. Store the containers outside of living areas.

Just Remember...

When plugging in appliances, make sure they are plugged directly into the generator or a heavy duty outdoor-rated extension cord. The cords should be checked for cuts, tears and that the plug has all three prongs, especially a grounding pin.

If you must connect the generator to the house wiring to power appliances, have a qualified electrician install a properly rated transfer switch in accordance with the National Electrical Code® (NEC) and all applicable state and local electrical codes.

FACT

- CO deaths associated with generators have spiked in recent years as generator sales have risen.
