A Delicious Way to Support Your Immune System

(Family Features) Bolstering your immune system during winter, when coughs and colds seem to take control, is a must for the entire family. Supporting your wellness can start in a simple place - with the foods you eat and drink.

Consider an easy choice for any season like Florida Orange Juice, which can help you and your loved ones get the vitamins and minerals you need all winter long. With 100% of the daily recommended value of vitamin C in every 8-ounce serving along with key nutrients like potassium and magnesium, there's a reason it's referred to as the "Original Wellness Drink."

With no added sugar or artificial flavor, it provides the benefits you need without the additives you don't. It contains natural sugar from the whole fruit for a delicious solution that's one of nature's nutrient-rich foods with vitamins, minerals and phytonutrients. Plus, it's easy to use as a nutritional ingredient in wintertime favorites like this comforting Orange Juice and Coconut Chickpea Soup.

Paired with a healthy lifestyle, 8 ounces of 100% orange juice may help support a healthy immune system as an excellent source of vitamin C and a good source of vitamin D in fortified juices. Vitamin C is commonly associated with helping maintain and strengthen healthy immune systems by protecting cells and promoting the production and function of immune cells. Meanwhile, vitamin D also plays an important role in regulating immune response by helping immune cells fight off bacteria and viruses.

Beneficial plant compounds, like those in Florida Orange Juice, along with flavonoids and colorful carotenoids work to support the immune system by fighting inflammation and helping cells communicate, which can help strengthen immune responses when encountering infections.

Additionally, 100% orange juice is a source of phytonutrients like hesperidin, which has been

shown in clinical studies to have antioxidant-like properties, heart health benefits and may help reduce inflammation. Hesperidin has also been linked with benefits related to cognitive function, immune system function and bone health. To find more information and immunity-boosting winter recipes, visit FloridaJuice.com.

Orange Juice and Coconut Chickpea Soup

Servings: 8

- 1 tablespoon olive oil
- 1 cup diced yellow onion
- 1 red bell pepper, diced
- 1 1/2 cups diced carrots
- 1 1/2 teaspoons kosher salt
- 3 cloves garlic, finely grated
- 1/2 teaspoon ground cardamom
- 1 quart vegetable broth
- 1 can (14 ounces) light coconut milk
- 1 can (14 ounces) chickpeas, drained & rinsed
- 1/2 cup Florida Orange juice
- chopped cilantro (optional)

In medium saucepan over medium high, heat olive oil until it shimmers. Add onions, bell pepper, carrots and salt; cook until onions are translucent, 5-7 minutes. Add garlic and cardamom; cook 1-2 minutes, or until garlic is fragrant. Do not brown. Add vegetable broth, coconut milk and chickpeas; bring to simmer. Decrease heat to low and cook until carrots are tender, about 10 minutes. Add orange juice, remove from heat and stir. Taste and adjust seasoning as desired. Serve garnished with cilantro, if desired.

DOG OF THE WEEK

Meet **George!** Despite being an "outside" dog I am a great guy! I always keep my kennel super clean and go potty outside. I walk well on a leash and I know some basic commands. I seem to enjoy the company of other dogs, but need a home with no small animals or children. I love to be outside and to run around, however sometimes that gets me in trouble! I'll need a big fenced yard!

Please contact **Kootenai Humane Society** at 208-772-4019 or visit our website at www.CompanionsAnimalCenter.org

PLEASE SPAY OR NEUTER YOUR PETS!

"The Outdoor Insider"

I am sure that the freezing temperatures kept most people close to hearth and home this past week. Conditions were great for those who were drilling holes in the ice on some of the lakes at higher elevation. When you are prepared for severely cold weather, you can still have a blast. I fished Georgetown Lake in Montana when it was eight below zero and had great fun. Ice fishing continues to grow in popularity every year. More and more people are finding this activity a great way to spend a day in the winter.

Dang is it cold. Way too cold to fish effectively from the shore or in a boat. The good news is that lakes that already had a thin layer of ice may now be fishable. Some of the lakes at higher elevation, like Sidley, near Oroville, and Bonaparte, near Tonasket, have had safe ice for a few weeks. I talked to the folks at Tiffany's Resort on Curlew Lake, near Republic, and they told me that the lake near them just froze over, but it is six inches thick off the State Park. A couple of their guests fished there the day before and came back with a five gallon bucket full of nice perch. Tiffany's has a few rooms available on the weekends, but they are going fast. There are plenty of week days open, though. Patterson Lake should have a good layer of ice on it with the sub-zero temperatures, but I would check with folks at the Tenderfoot or the Outdoorsman to see if people are fishing yet. I am sure that ice has formed on Moses Lake, but I doubt it is thick enough to support a group of anglers. I would say the same about Fish Lake, near Leavenworth. This week's photo is of me at Fish Lake in early February two seasons ago.

I was planning to do some shore fishing at Brandts Landing this week, until I saw the single digit forecasts for the region. When temperatures as this low, you just can't fish. Believe me I have tried. When the line freezes to the spool, casting is impossible. I did make a call to my contact about the fishing on Rufus Woods. Dave checks anglers that are fishing above Chief Joseph Dam, all the way up to Brandts Landing. He isn't enforcement, as he only monitors angler success for the Colville Tribe. The first thing he told me was to clarify

the number of fish that were recently release. There were rumors that there were 16,000 fish put in Rufus Woods, but the actual number is 1,600. They put 800 fish in at Seatons Grove and another 800 were released from the State Park above the dam. The fish weigh 3 to 6 pounds and a few have been caught from the shore above Chief Joseph. Most anglers are catching two categories of fish at the lower end of the reservoir. One group of fish are just 12 inchers, and the others are 2.5 to 3.5 pounds. I'll try it when the weather warms up a bit. This is the time of year that I usually have pretty good success at Brandts Landing. It's one of my favorite winter destinations for fishing from shore.

Looking at the forecasts for the week, I still see some very cold temperatures coming. That's great news for fans of ice fishing, and not so great news for people like me that want to fish from shore or in a boat. I have finally put together my cold weather wardrobe that keeps me warm even when the outside temperature is very low. We are fortunate that there is gear available to us that makes fishing in extreme cold weather possible. I have a heated jacket made by Ororo that works great. I recommend these to people and to just get

the vest. You get the same heated panels and more freedom of movement. People should understand that you need a layer over the jacket or vest. I have some terrifically warm Columbia Sportswear "Omni Heat" jackets that I put on over my heated coat, and I will often put on a light rain jacket over this as a final layer to block the wind. I have a pair of heated socks made by Begleri that have three settings and keep my toes and feet warm. I put them inside my Muck Artic Sport boots. I know people that have heated socks and can turn them on and off and even change the heat settings with a remote. My winter under wear is from Grays Harbor Unders, and I pull on some Columbia Sportswear rain pants over my lined pants. Bring it on winter. I am ready for your worst!

The Bonaparte Lake Resort's 2nd Annual Ice Fishing Derby is coming up next weekend. It is scheduled for Saturday, January 27th. The event attracted almost 400 people last year, and this year they accumulated cash and prizes valued at over \$9,000. Entry fees are \$15 for adults, \$30 for an adult and multi-species ticket. The entry fee for youth under age 15, is \$15. You can register the day of the event from 5:30 to 9:30 a.m. You can register on line by going to the Bonaparte Lake Resort Facebook page and use the QR Code on the page. If you register on line you are required to get a wrist band from the resort. Weigh in is from 7:30 a.m. until 4 p.m., and you must be in line no later than 4 p.m. The event is going to be fun for the whole family. So, drag out your ice fishing gear and warmest clothes and plan to join the fun!

When you plan to go outside in minus zero temperatures be prepared. With wind chill factors at minus 20 degrees at times, you need to be sure you don't have any exposed skin. It can frostbite in less than ten minutes! I haven't bought an ice fishing shack yet, but this may be the winter to do it. Nothing like being out of the wind with a Little Buddy propane heater to keep me warm. I am jealous of those who have them, like by brother-in-law in Montana. He and his wife often fish in temperatures that are often double digit, sub-zero, and have a great time.

"Going fast is your job...telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

KYLE SUCHY - HERMISTON HORNETS CHAMP

Dan Watkins without the helmet. - Dan Watkins Photos

"My season did not start with the intent of a run for a championship as I was not sure how many races we would be able to make as my wife and I just had twin boys on December 1, 2022," Kyle Suchy wrote in an email.

But the season began with a bang — good kind that is.

"The first race at Hermiston Raceway, our third generation race car was a rocket ship," Suchy explained.

"We sat fast with the invert start for of the main event and would be starting sixth" Suchy said. "We took the lead within just a few laps and led all the way to the checkered."

Race number two at Hermiston would be a repeat of the

first race, setting fast time, which would put us starting on the pole. "We led from the green flag to checkered flag," Suchy said.

This would be his only two wins at Hermiston, but the rest of the races Suchy would finish in the top five, which kept him in the points lead for the entire season.

"Coming down to the last race we were leading by only nine points," Suchy said. "We knew what we had to do. We had to keep the car in one piece and finish again."

Suchy had a good car with a third generation race car set up in it. "We would finish the race in fifth place, which gave us enough points to stay in the lead and win the track championship."

The Irrigon, Oregon driver ended with an eight -point cushion over Hermiston's David Knowles.

Dan Watkins in action on the track at Northport. - Dan Watkins Photos

Snowplow Safety

Don't assume a snowplow driver can see you!

Don't crowd or pass a snowplow!

Plows can push snow and spread material in either direction - so avoid passing whenever possible. If you must pass, try to be two lanes apart and use caution.

Increase your following distance!

Beware of flying snow, spray and material.

Avoid blind spots!

A plow driver's field of vision is limited.

Drive slowly!

Be smart. Be patient. A plow will pull over and let vehicles pass when safe.

Bigfoot is Hard to Find... RV Service Shouldn't Be!

One year lease preferred, 6 months considered. Text preferred 509-988-0292

NOXIOUS WEEDS

What is a Noxious Weed? They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

FLOWERING RUSH

FLOWERING RUSH
(*BUTOMUS UMBELLATUS*)

This perennial, freshwater emergent grows 1-5ft tall. Leaves are triangular and flatten out near the top. Cylindrical stems appear with plants flower. Leaves are about 3ft long, 9ft long in submerged plants. Bloom mid to late summer. Pale pink flowers grow in a flat-top cluster. Spreads by rhizomes, seeds and bulbils. Flowering Rush is a Class A noxious weed. It invades shorelines and quickly disturbs sites. Vegetation must be completely removed to keep from spreading.

For More Information on how to Control your Noxious Weeds, Contact: Spokane County Noxious Weed Control Board 509-477-5777 • www.spokanecounty.org/weedboard

BUYER BEWARE

Classified ads are a great way to sell something, find something or hire a contractor to do needed work around your home or business. Sadly, our advertisers cannot always trust the individuals who respond to their ads. It has come to our attention that there are scammers out there who respond to ads with the sole intention of deceiving the advertiser. Typically these scams are actually generated by automated bots. Here are a few things to look out for:

- When selling something:**
Scammers typically text & ask what your final price is. They will then ask you if you can ship the item. In return, they tell you that they will send a cashier's check with some extra money added in to cover shipping. Do not fall for this. Accepting cash for items is the best bet. For large purchases, meeting at the buyer's financial institution for the payment is encouraged.
- Where to meet:**
If you are unsure of a buyer or seller, ask them to meet you at the local police station or S.C.O.P.E. office, or a public location such as a grocery store parking lot. People who don't have anything to hide will be agreeable to that type of meeting spot.
- Who to hire:**
If you are looking for a contractor to fix or build something, make sure they are licensed & bonded. This can be verified on the Washington State Labor & Industries contractor site. Do not pay in advance for any services or materials until you have a signed contract. Many contractors ask for half the money in advance & the remainder when the job is done. It is good to verify that the individual does, indeed, still work for the company they are representing. It is also a good idea to ask for references. Most contractors are happy to pass on names and phone numbers of customers that can verify their work.

Generator Safety

Downed utility lines, power company blackouts, heavy snow falls or summer storms can all lead to power outages. Many people turn to a portable generator for a temporary solution without knowing the risks.

- » Generators should be used in well ventilated locations outside away from all doors, windows and vent openings.
- » Never use a generator in an attached garage, even with the door open.
- » Place generators so that exhaust fumes can't enter the home through windows, doors or other openings in the building.
- » Make sure to install carbon monoxide (CO) alarms in your home. Follow manufacturer's instructions for correct placement and mounting height.
- » Turn off generators and let them cool down before refueling. Never refuel a generator while it is hot.

» Store fuel for the generator in a container that is intended for the purpose and is correctly labeled as such. Store the containers outside of living areas.

Just Remember...

When plugging in appliances, make sure they are plugged directly into the generator or a heavy duty outdoor-rated extension cord. The cords should be checked for cuts, tears and that the plug has all three prongs, especially a grounding pin.

If you must connect the generator to the house wiring to power appliances, have a qualified electrician install a properly rated transfer switch in accordance with the National Electrical Code® (NEC) and all applicable state and local electrical codes.

FACT

⚠ CO deaths associated with generators have spiked in recent years as generator sales have risen.
