I am sure that the freezing temperatures kept most people close to hearth and home this past week. Conditions were great for those who were drilling holes in the ice on some of the lakes at higher elevation. When you are prepared for severely cold weather, you can still have a blast. I fished Georgetown Lake in Montana when it was eight below zero and had great fun. Ice fishing continues to grow in popularity every year. More and more people are finding this activity a great way to spend a day in the winter.

Dang is it cold. Way too cold to fish effectively from the shore or in a boat. The good news is that lakes that already had a thin layer of ice may now be fishable. Some of the lakes at higher elevation, like Sidley, near Oroville, and Bonaparte, near Tonasket, have had safe ice for a few weeks. I talked to the folks at Tiffany's Resort on Curlew Lake, near Republic, and they told me that the lake near them just froze over, but it is six inches thick off the State Park. A couple of their guests fished there the day before and came back with a five gallon bucket full of nice perch. Tiffany's has a few rooms available on the weekends, but they are going fast. There are plenty of week days open, though. Patterson Lake should have a good layer of ice on it with the sub-zero temperatures, but I would check with folks at the Tenderfoot or the Outdoorsman to see if people are fishing yet. I am sure that ice has formed on Moses Lake, but I doubt it is thick enough to support a group of anglers. I would say the same about Fish Lake, near Leavenworth. This week's photo is of me at Fish Lake in early February two seasons ago.

I was planning to do some shore fishing at Brandts Landing this week, until I saw the single digit forecasts for the region. When temperatures as this low, you just can't fish. Believe me I have tried. When the line freezes to the spool, casting is impossible. I did make a call to my contact about the fishing on Rufus Woods. Dave checks anglers that are fishing above Chief Joseph Dam, all the way up to Brandts Landing. He isn't enforcement, as he only monitors angler success for the Colville Tribe. The first thing he told me was to clarify

the number of fish that were recently release. There were rumors that there were 16,000 fish put in Rufus Woods, but the actual number is 1,600. They put 800 fish in at Seatons Grove and another 800 were released from the State Park above the dam. The fish weigh 3 to 6 pounds and a few have been caught from the shore above Chief Joseph. Most anglers are catching two categories of fish at the lower end of the reservoir. One group of fish are just 12 inchers, and the others are 2.5 to 3.5 pounds. I'll try it when the weather warms up a bit. This is the time of year that I usually have pretty good success at Brandts Landing. It's one of my favorite winter destinations for fishing from shore.

Looking at the forecasts for the week, I still see some very cold temperatures coming. That's great news for fans of ice fishing, and not so great news for people like me that want to fish from shore or in a boat. I have finally put together my cold weather wardrobe that keeps me warm even when the outside temperature is very low. We are fortunate that there is gear available to us that makes fishing in extreme cold weather possible. I have a heated jacket made by Ororo that works great. I recommend these to people and to just get

the vest. You get the same heated panels and more freedom of movement. People should understand that you need a layer over the jacket or vest. I have some terrifically warm Columbia Sportswear "Omni Heat" jackets that I put on over my heated coat, and I will often put on a light rain jacket over this as a final layer to block the wind. I have a pair of heated socks made by Begleri that have three settings and keep my toes and feet warm. I put them inside my Muck Artic Sport boots. I know people that have heated socks and can turn them on and off and even change the heat settings with a remote. My winter under wear is from Grays Harbor Unders, and I pull on some Columbia Sportswear rain pants over my lined pants. Bring it on winter. I am ready for your worst!

The Bonaparte Lake Resort's 2nd Annual Ice Fishing Derby is coming up next weekend. It is scheduled for Saturday, January 27th. The event attracted almost 400 people last year, and this year they accumulated cash and prizes valued at over \$9,000. Entry fees are \$15 for adults, \$30 for an adult and multi-species ticket. The entry fee for youth under age 15, is \$15. You can register the day of the event from 5:30 to 9:30 a.m. You can register on line by going to the Bonaparte Lake Resort Facebook page and use the QR Code on the page. If you register on line you are required to get a wrist band from the resort. Weigh in is from 7:30 a.m. until 4 p.m., and you must be in line no later than 4 p.m. The event is going to be fun for the whole family. So, drag out your ice fishing gear and warmest clothes and plan to join the fun!

When you plan to go outside in minus zero temperatures be prepared. With wind chill factors at minus 20 degrees at times, you need to be sure you don't have any exposed skin. It can frostbite in less than ten minutes! I haven't bought an ice fishing shack yet, but this may be the winter to do it. Nothing like being out of the wind with a Little Buddy propane heater to keep me warm. I am jealous of those who have them, like by brother-in-law in Montana. He and his wife often fish in temperatures that are often double digit, sub-zero, and have a great time.

What's The Difference? AKC, CKC & UKC

AKC (American Kennel Club) Founded 1884

Breeds Recognized: 193

The AKC is a registry only for purebred dogs that live in the USA. To register a dog, both parents of the same breed must be registered with the club.

CKC (Continental Kennel Club) Founded 1991

Breeds Recognized: Over 450

The CKC is an open registry and allows dogs to be registered whose parents are not registered. To do this they require 2 witness signatures and 3 photos to show the dog meets breed standards. Those documents are reviewed by the CKC and can accept or deny the dog's registration.

UKC (United Kennel Club) Founded 1898

Breeds Recognized: Over 300

The UKC is an international dog registry with dogs registered from all over the world. They use DNA testing to prove a dog's parentage if their parents are not registered. The UKC focuses on the whole dog and they place a lot of emphasis on the breed's abilities.

DOG OF THE WEEK

Meet **Gordo!** We are all fans of Gordo! Don't let his stoic photos fool you, this guy loves all people he meets. He walks nicely on leash, even though he is missing a back leg. He was abandoned so we are unsure how he ended up with only 3 legs, but it does not affect him at all. He knows the command sit. He gives the nubby wag anytime he sees any of his human shelter friends.

5 WAYS TO MAKE SMALL ROOMS LOOK LARGER

- Part 1 -

Only some homes have a grand foyers, great rooms and huge living areas. More often, homes have at least one small room. Homeowners can enjoy smaller spaces and make them look larger with the right design approach. You can create the illusion of space with simple modifications to a small room, such as adding natural light or selecting multi-functional furniture. To get started, consider the following design tips:

1. Declutter Your Space

The best place to start is by taking stock of the items in the room. You may be surprised by how much space you have. Start by decluttering your space. For example, experts recommend sorting things into keep, put away, recycle or trash, and donate piles. This technique can help you organize and simplify your space. Simplicity is critical for making any room look bigger.

2. Utilize Multi-Functional Pieces

Once you've removed some items from a small room, think about what furniture or objects in the room can serve a dual purpose. For example, furniture such as benches, ottomans and coffee tables may come equipped with storage solutions. Hidden storage makes a room feel more spacious without removing any frequently used items.

3. Take Advantage of Reflections

Strategically placed mirrors can visually expand your space. If a small area has a window, set the mirror near it. The trick is ensuring natural light reflects off the mirror to make the room look large and inviting.

KYLE SUCHY - HERMISTON HORNETS CHAMP

Dan Watkins without the helmet. - Dan Watkins Photos

"My season did not start with the intent of a run for a championship as I was not sure how many races we would be able to make as my wife and I just had twin boys on December 1, 2022," Kyle Suchy wrote in an email.

But the season began with a bang — good kind that is.

"The first race at Hermiston Raceway, our third generation race car was a rocket ship," Suchy explained.

"We sat fast with the invert start for of the main event and would be starting sixth" Suchy said. "We took the lead within just a few laps and led all the way to the checkered."

Race number two at Hermiston would be a repeat of the

first race, setting fast time, which would put us starting on the pole. "We led from the green flag to checkered flag," Suchy said.

This would be his only two wins at Hermiston, but the rest of the races Suchy would finish in the top five, which kept him in the points lead for the entire season.

"Coming down to the last race we were leading by only nine points," Suchy said. "We knew what we had to do. We had to keep the car in one piece and finish again."

Suchy had a good car with a third generation race car set up in it. "We would finish the race in fifth place, which gave us enough points to stay in the lead and win the track championship."

The Irrigon, Oregon driver ended with an eight -point cushion over Hermiston's David Knowles.
