ADOPT A SHELTER PET

	Adopting shelter pets saves the lives of millions of pets needlessly euthanized due to overpopulation caused by breeders and puppy mills.	
	Shelter pets are clean and healthy when they go home with you. They are just like normal pets, and have a lot of love to share with you!	
	Rescuing a shelter pet demonstrates a valuable lesson and teaches children compassion towards animals and the less fortunate.	
	Abused and neglected animals need the love and care of compassionate pet owners the most. Caring for an abandoned pet is very fulfilling.	

Contact your local animal shelter today to learn more about adopting a shelter pet and changing an animal's life for the better

"The Outdoor Insider"

April has started with wonderful weather. You need to get your new fishing license if you want to get out on the year-round lakes, to practice for the general opening of the lowland lakes trout season, which is the fourth Saturday of April. Meanwhile, there are walleye and bass to fish for. They are starting to wake up on our area reservoirs.

When I want to know what's happening on Potholes Reservoir in the early spring, I can always call Shelby Ross. If there are walleye to be caught he will know. There are a lot of anglers that look forward to the walleye fishing on Potholes and they will be glad to hear that fish are being caught. Shelby put eleven walleye in the boat recently and he noted that they were all males. He figures the big females are spawning and won't be feeding for a while. He said there are a few anglers jigging for the walleye, but he prefers to troll spinners and bottom bouncers. That way he is covering more water. I was fishing with my friend Brian Neilson in his boat. It looks like we were in Lind Coulee, which is a great place to start on Potholes in the spring. I often find fish in the Coulee and then just out of the mouth of the Coulee at Perch Point.

I talked to Nic Alexander, one of the organizers of the Banks Lake Triple Fish Challenge, the other day. He was busy getting sponsors for the event, and rattled off the names of several companies that were already providing prizes. There are always plenty of great things being awarded to those who are winners in the derby. Whether they are winners or not, the kids always get something for being a part of the event. The Banks Lake Triple Fish Challenge starts on Friday, April 12th, with lots of things planned for the youngsters. The highlight is the "trout pond" that is set up off the beach at Coulee Playland. Thanks to Pacific Seafoods, the pond is loaded with fat rainbow for the kids to catch. In addition to the trout pond, there will be casting instructions, a s'more station, face painting, gold panning, food vendors and even live music. The fun starts at 1 p.m. and lasts till 5 p.m. On Saturday the tournament begins,

and anglers will be out looking for trout, bass, walleye, and whitefish. You can learn more about the Banks Lake Triple Fish Challenge and even register in advance by going to the Reel Recreation website.

Nic Alexander, one of the organizers with Reel Recreation thought it would be fun to make a run at getting a "triple fish" and give anglers some pointers on how to do it. He recruited Austin Moser and me to fish with him to catch a walleye, bass, and trout in the same day. We started our day looking for walleye and Austin took us to one of his favorite areas between

Steamboat Rock and Barker Canyon and Nic got a nice walleye fishing with bottom bouncers and spinners. A green sparkly Smile Blade in fifty feet of water was the best lure. With that done we tried for smallmouth bass. Nic directed us to some of the areas he catches smallmouth, on jigs and jerk baits, and we worked our way up to Osborne Bay. We were casting to the broken rock along the highway when a smallmouth grabbed the Senko I was dragging across the bottom. Now we just needed to get a trout. Austin ran out a variety of crank baits on side planers at the very top end of Banks and Nic reeled in a dandy rainbow. Yea! We did it! Better yet, I shot a video of how we did it, and you can find it on the Dave Graybill YouTube channel. Look for the one that says Banks Lake Triple Fish Challenge. It should be at the top of the playlist.

It's April and if you are an avid angler you need to renew your fishing license for the season. Fishing licenses are valid

from April 1st to March 31st of the following year. If you aren't in a hurry, and don't plan to fish until the opening of the general lowland lakes season, you can get your license online. Just log into fish-hunt.dfw.wa.gov. Your documents will arrive in about 10 days. I usually go to a local authorized dealer, as I want to get the two pole endorsement and a salmon punch card, which can't be obtained online. I don't get the Discovery Pass, as I buy the Washington State Parks Natural Investment sticker for my windshield. For an annual fee of \$80. It is interchangeable between vehicles and covers my parking and launch fees at State Parks. I also buy Colville Tribal licenses and permits. These are only available online. Log onto cct.fnw.com and go to the Licenses and Permits page. You will need to have your driver's license and vehicle license plate numbers to complete the transaction. This week's photo is of Park and Blue lakes.

As many of you know, I am a big fan of fishing on the Colville Reservation lakes.

The Colville Tribe plant fish in Rufus Woods, Buffalo, Omak, and Twin lakes every year, and some of them are real whoppers. The tribe has already planted over 16,000 trout in Rufus Woods and will release an additional 30,000, averaging two pounds, in April and May. Twin lakes will be planted with 7,500 trout averaging 1.5 pounds in April and get 600 rainbow that average 7 pounds the same month. Twin Lakes also offers terrific fishing for largemouth bass. Buffalo Lake will receive a plant of 2,000 rainbow averaging 1.5 pounds in April and 600 trout that will weigh 7 pounds in April and May. Buffalo Lake also has very good numbers of kokanee and a crawfish season from July 1st through September 15th, and they are of exceptional size. Rufus Woods Lake produces triploid rainbow that can exceed 20 pounds and the state record from Rufus is 29.6 pounds. The state record for Lahontan cutthroat is from Omak Lake. It weighed 18.4 pounds.

Alliance of THERAPY DOGS

Is Looking for Therapy Dogs in This Area!

- IS YOUR DOG**
- Friendly & Sociable?
 - Bring Joy to Both Young & Old People?

There is a huge need in this area for Therapy Dogs to visit medical facilities, retirement homes, hospice care, etc.

It's a great way to spend time with your dog & give back to your community. Your dog does NOT NEED to have ANY Special Obedience Training, or Therapy Dog Training.

WE TEST YOU & YOUR DOG AT NO CHARGE!

Please visit our webpage for information, and to apply

WEEKLY Horoscopes for April 4-April 10

ARIES – Mar 21/Apr 20
There is more to any situation than the money factor, Aries. When a new opportunity comes your way, look beyond the payoff to see what the heart of the offer entails.

TAURUS – Apr 21/May 21
Look to your family members if you need inspiration on a new project, Taurus. Use loved ones as a sounding board for all of the ideas that are bouncing around.

GEMINI – May 22/Jun 21
The willpower that you have been relying on lately is still going strong, Gemini. That is excellent and it's having a profound effect on other areas of your life.

CANCER – Jun 22/Jul 22
Cancer, gossip is not something you usually delve into, but you may get roped into a conversation this week. Try not to give any weight to the rumors swirling around.

LEO – Jul 23/Aug 23
Leo, you shouldn't be boastful about your abilities, but try not to be too modest. Accept the credit you are given. Graciously embrace all of your good press.

VIRGO – Aug 24/Sept 22
An interesting invitation might come your way, Virgo. It could open the door to a very busy social calendar if you accept and do some key networking.

LIBRA – Sept 23/Oct 23
Libra, an issue that you were worrying about is unlikely to surface. Stay in the present instead of looking ahead to all of the things that might go wrong.

SCORPIO – Oct 24/Nov 22
It may seem as if you are operating on autopilot, Scorpio. Days seem a carbon copy at this point. Do something to alter your routine.

SAGITTARIUS – Nov 23/Dec 21
It's best if you avoid crowds for the time being, Sagittarius. You will benefit from some quiet time that only comes with being alone or within small groups of close friends.

CAPRICORN – Dec 22/Jan 20
You are not normally characterized as "impulsive," Capricorn. However, this week you may surprise everyone. An opportunity to travel or another venture could drop in your lap.

AQUARIUS – Jan 21/Feb 18
Aquarius, if you are not feeling challenged, you have to find activities that will get your brain moving again. Do whatever you can to spark some excitement.

PISCES – Feb 19/Mar 20
The choices coming your way are quite varied, Pisces. It can be overwhelming, so do not make any rash decisions until you work through all of your options.

Spring is Coming!

Newby-Ginnings - 570 S. Clearwater Loop, Unit A, Post Falls

On Saturday, April 6, from 9:00 AM to 1:00 PM, drop off donations for veterans & their families gently-used clothing, household items, furniture, canned goods, etc. Veterans benefit directly from donations to a "thrift store" by choosing items free of charge. You can also drop-off on May 4. Note these days are for donations only closed for shoppers.

Native Perennials & Groundcovers

Rathdrum Library - 16320 ID-41, Rathdrum

On Saturday, April 6, from 1:00 PM to 2:30 PM, learn how to identify common plants/flowers & work into landscaping.

Crochet Wednesday!

Coeur d'Alene Public Library - 702 E Front Ave, Coeur d'Alene

On Wednesday, April 10 & 17, 4:00 PM to 5:30 PM, for ages 9-12, this 2-week series will focus on how to make granny squares. Commitment for the 2 classes is required along with registration. Details here <https://cdalibrary.org/events/>

"Going fast is your job...Telling people about it is ours...!"

Thanks to the Exchange for helping continue the four-decade tradition of delivering weekly motorsports news to the Inland Northwest!

SPOKANE SPEED AND CUSTOM SHOW RETURNS APRIL 12-14

SPOKANE — The ninth edition of the Spokane Speed and Custom Show rolls into the Fair and Expo Center April 12-14 with some pretty mighty credentials.

Promoter and founder Brian Anderson is proud to proclaim that the 2024 event, founded in 2017, will pack over 400 entries into multiple buildings.

"(It's the) biggest all indoor custom car show ever in Spokane, and biggest all indoor car show in Washington state," Anderson wrote in a text message.

Entries will come from California, Utah, Nevada, Montana, Oregon, Washington, Idaho, Alberta and British Columbia. "We even have one from as far away as Florida," Anderson said.

Of special interest to fans might be the following:

- Everything Air Cooled, one room full of VWs of every sort and maybe even some surprise Corvairs?
- Kustoms with a K, let's think... Winfield, Barris, Hines...chopped-channeled and sectioned traditional Kustoms of the 50-60s.
- Pro Street-Street Freaks, big tires, big motors, 70s straight axle big tire street cars to the 80s-90's Pro Street stuff with some modern big tire entries mixed in. Lots of horsepower in one area.
- And the Car Club Display Challenge! Get your club involved and set up a fun themed display of your own and compete with other clubs for the Best Club Display Award. (Availability is limited.)
- Oh...NitroFest!!! Ya' we will have a few cars burning some race fuel, alcohol and nitromethane for you to see, feel and smell both Friday and Saturday. It's an experience!

Headlining the lineup of celebrity guests is Erik Estrada from the 70s TV show CHiPs. Estrada will make appearances all three days and be joined by American Graffiti Candy Clark "Debbie," Charlie Martin Smith "Toad" and John D'Agostino of Celebrity Customs.

This show fills the void left when the Spokane Auto Boat Speed Show closed in 2012. Formed by custom car and racing icons, Orville Moe and Don Wilbur in 1963, "The Spring Spectacular" as it was nicknamed ran for 49 years and jammed the fairgrounds with cars and fans for up to four days.

Moe passed away in 2015 and Wilbur in the fall of 2016.

Anderson is more than just the front-man to the Speed and Custom Show.

His father, Glenn, was a longtime judge at the former show, and Anderson himself followed in dad's footsteps. "I grew up in town and my dad's a long-time car guy and

well connected with hot rods and that kind of stuff," Anderson said. Glenn Anderson judged all but the final two shows.

Anderson said he began hanging out and judging the old Auto Boat Speed Show in about 1986.

"By '88 I was a full-fledged ISCA judge on my own," Anderson said, referencing the International Show Car Association that officiates car shows across the globe.

When the Spokane show dissolved there was a hole left in the car community, Anderson said prior to the inaugural event. "I think they are ready for it to come back," he said at the time of the first show.

Like most new ventures there were plenty of growing pains including having a promoter partnership dissolve just as the first show was coming together.

"Before the first of the year I'm the last man standing with this thing," Anderson said.

Anderson said he "Had been jumping up and down waving a flag for six months about a car show and I wasn't ready to quit."

Not long into his run, like everyone else, COVID intervened and cancelled a pair of shows. But it has continued to prosper and grow from the initial 150 entries.

"About any genre of car you can imagine," Anderson said will be included in the show.

Admission: Pre-sale tickets are \$12 each and skip the line. General admission at the show is \$15.

Pre-sale tickets are available while they last at ANY area Motion Auto Supply locations and can also be purchased via ANY Federated Auto Parts store. Also limited Pre Sale tickets available the three Spokane Northside ACE Hardware stores!

Visit spokanespeedandcustomshow.com or on Facebook for further information.

WE BUY LAND

All sizes, Washington & Idaho. Frontier Northwest Land, 509-468-0483

THE PROPERTY SELLER BASICS

WHAT TO KNOW: About the Appraisal Process

Once you are under contract, the buyer's lender will send out an appraiser to make sure the purchase price is in line with the property's value.

Appraisals help guide mortgage terms.

The appraised value of a home is an important factor in the loan underwriting process. Although lenders may use the sale price to determine the amount of the mortgage they will offer, they generally only do so when the property is sold for less than the appraisal amount. Also, the loan-to-value (LTV) ratio is based on the appraised value and helps lenders figure out how much money may be borrowed to purchase the property and under what terms. If the LTV is high, the lender is more likely to require the borrower to purchase private mortgage insurance.

Appraised value is not a concrete number.

Appraisals provide a professional opinion of value, but they aren't an exact science. Appraisals may differ quite a bit depending on when they're done and who's doing them. Changes in market conditions also can dramatically alter appraised value.

Appraised value doesn't represent the whole picture of home prices.

There are special considerations that appraised value doesn't take into account, such as the need to sell rapidly.

Appraisers use data from the recent past.

Appraisals are often considered somewhat backward looking, because they use sold data from comparable properties (often nicknamed "comps") to help come up with a reasonable price.

There are uses for appraised value outside of the purchase process.

For selling purposes, appraisals are usually used to determine market value or factor into the pricing equation. But other appraisals are used to determine insurance value, replacement value, and assessed value for property tax purposes.

Q&A with Overhead Door Company of Spokane-Coeur d'Alene™

Recently I had the opportunity to sit down with Mike Lloyd of Overhead Door Company of Spokane-Coeur d'Alene™ to find out what's new for 2024 and what new features the public should know about.

What are some of the most popular trends in garage doors these days?

Part of it is style and part of it is functionality. Glass windows are very popular and functional of course, with a lot of gorgeous options. Steel doors that are made to look like wood are one of our favorite new products - the "Artisan Wood Grain™ Finishes". So you have the beauty of the wood, with all the benefits and longevity of a steel door, without the maintenance of wood. You can make the garage door look like a real part of the house - It's amazing what it can do to curb appeal. Even on just a single car garage, nice windows and nice trim can change the whole look of a property. It really stands out and makes a huge impact. It's a huge focal point to the front of a house.

Smart house features with garage doors that can be integrated into automated security systems and things like Apple HomeKit are also increasingly popular.

Is a new garage door worth it? What kind of ROI does it have on property value?

Replacing a garage door is one of the most cost-effective renovations and has one of the best returns on investment of any renovation. According to the latest Cost vs. Value Report, replacing a basic door with an upgraded one returned a remarkable 102.7% on original cost on average, and it makes a huge difference on curb appeal, energy efficiency, and functionality.

What does R-value mean in terms of insulation?

R-value is a standardized measurement of thermal efficiency. The higher the R-value, the greater the insulating properties. Overhead Door manufactures insulated doors with a broad range of R-values designed to meet your needs. Our Thermacore® doors offer our highest R-values – up to 17.5.

What kind of difference can an insulated garage door make?

The garage door's insulation and R-value can really make a huge difference in your house overall as well, due to heat transfer from the walls attached to your garage. Depending on the direction your garage is facing, you might even want to put an insulated door on your uninsulated garage, which can still be a huge help with keeping your home cooler in the summer.

There are also a lot of people in both Washington and Idaho that are taking advantage of relaxed zoning restrictions to turn a finished garage into part of their house, or a mother-in-law-suite, or turn a detached garage into an Airbnb or workshop/studio, etc. And good insulation makes all the difference in making a garage a livable space!

What other cool products and services do you offer that people might not know about?

High-speed doors that open in seconds - great if you're always running late! Also, fire doors, boathouse doors, warehouse/ industrial doors, shutters, automated gates and security gates, dock levelers, even pet doors!

Specializing in Crafting Exquisite CUSTOM KITCHENS & BATHS

Your Home is a Reflection of You.

At Heritage Build Co., unwavering faith and a commitment to excellence are the cornerstones of our approach to homebuilding.

Guided by Christian values, we meticulously craft stunning residences that not only reflect architectural brilliance but also embody the spirit of the Pacific Northwest's breathtaking landscapes.

Each home we construct is a testament to our dedication to God's principles and our unwavering pursuit of quality, ensuring that our clients experience the pinnacle of craftsmanship and design.

The Man Who Brought Massage Chairs to America for Enhanced Well-Being

ダイワマッサージチェア

Daiwa Massage Chair

Massage chairs have significantly transformed comfort and wellness through innovative technology over the years. Once regarded as novelties, these chairs have seamlessly become everyday household items, available in diverse models from various manufacturers.

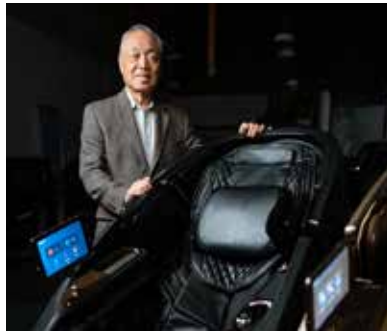

For over forty years, U.S. Jaclean, Inc. has remained committed to providing holistic health and wellness products, notably advancing massage chair technology with Daiwa Massage Chairs. Initially developed in Japan, massage chairs have continuously evolved. In Japan, issues like back and shoulder stiffness, known as 'katakori,' were linked to stress and overall well-being—a concept less acknowledged in the United States at that time, raising doubts about the necessity of massage chairs.

Introducing a glimpse of our Daiwa Massage Chairs

Despite initial skepticism, we persisted, showcasing our chairs alongside smaller massagers at state fairs and events. This approach gained traction, especially in areas where people spent extended periods driving, as our compact massagers helped alleviate lower back fatigue during long drives. Gradually, this led to broader acceptance of

by Minoru (Michael) Kogure

U.S. Jaclean President Minoru Kogure with Daiwa Supreme Hybrid

massage chairs in the U.S. Today, with the growing popularity of massage chairs, we are excited about the future.

As technology advanced, our massage chairs improved significantly. For instance, we introduced stretching functions that combine acupressure and chiropractic techniques, ensuring optimal touch for maximum health benefits. Our innovation includes an extended and flexible massage track coupled with advanced rollers that simulate the skilled motions of a professional massage therapist's hands. Alongside these advancements, our chairs offer multiple functions that alleviate tension, reduce stiffness, increase flexibility, improve posture, and enhance blood circulation, providing a wide range of benefits. Daiwa Massage Chairs effectively address the entire body, from the neck and back to the thighs, calves, feet, and even the hands.

Furthermore, our detailed design places special emphasis on leg and foot massage features. Drawing from our expertise in leg-focused and reflexology-based massages in our other products, we've dedicated considerable effort to refining the foot massage experience. Our extensive foot massage enhances circulation by targeting pressure points on the sole, significantly

contributing to our chairs' ability to promote overall well-being.

Daiwa Massage Chairs embody the Japanese concept of "mibyō (未病)," prioritizing maintaining good health and preventing illness rather than treating it afterward. This philosophy aligns with our massage chairs' development, prioritizing health maintenance and preventative care.

Going beyond mere relaxation, our chairs play a vital role in daily wellness, offering comprehensive support for overall health. By harmonizing health benefits with utmost comfort and luxury, our chairs provide a holistic solution for relaxation and well-being.

In today's stress-laden world, our commitment remains steadfast. For decades, we have dedicated ourselves to promoting health and wellness through our chairs, blending Western scientific advancements with traditional Eastern principles. This ongoing dedication propels us to continually enhance wellness across the United States with Daiwa Massage Chairs.

Gardening Trends for 2024

Predicting gardening trends for a specific year like 2024 can be challenging since trends can vary based on factors like region, climate, and evolving consumer preferences. However, some general gardening trends that have been gaining popularity and may continue to do so in 2024:

Sustainable Gardening:

With increasing awareness of environmental issues, there's a growing interest in sustainable gardening practices such as water conservation, composting, using native plants, and reducing chemical inputs.

Indoor Gardening:

As urbanization continues and more people live in apartments or smaller homes, indoor gardening, including houseplants & indoor herb gardens, is becoming increasingly popular.

Vertical Gardening:

Vertical gardening allows people to maximize space in small yards or urban environments. It involves

growing plants upwards on structures like trellises, walls, or stacked containers.

Edible Landscaping:

Integrating edible plants into traditional landscaping is a trend that's likely to continue. Fruit trees, berry bushes, and vegetable gardens can be both ornamental and productive, providing fresh food while enhancing the beauty of outdoor spaces.

Pollinator Gardens:

With growing concerns about declining pollinator populations, there's a trend towards creating gardens specifically designed to attract and support bees, butterflies, and other pollinators. These gardens typically feature a variety of flowering plants that provide nectar and habitat for pollinators.

Native Plants and Wildlife Gardening:

There's a renewed interest in using native plants to create wildlife-friendly habitats that support local ecosystems. These gardens aim to attract birds, beneficial insects, and other wildlife while reducing

the need for watering, fertilizers, and pesticides.

Wellness Gardens:

Gardens designed to promote health and well-being by incorporating elements like meditation spaces, sensory gardens, and therapeutic plants are gaining popularity. These gardens provide opportunities for relaxation, stress relief, and connection with nature.

Tech-Assisted Gardening:

With advancements in technology, gardening apps, smart irrigation systems, and other digital tools are becoming more prevalent, helping gardeners plan, monitor, and manage their gardens more efficiently.

Climate-Resilient Gardening:

As climate change leads to more extreme weather events and shifting growing conditions, there's an increasing focus on selecting plants and gardening practices that are resilient to drought, heat, and other climate-related challenges.

These trends reflect broader societal interests in sustainability, health and wellness, and reconnecting with nature, and they're likely to shape gardening practices in 2024 and beyond.

Why Do I Need A Professional Contractor?

Using a professional contractor for various projects, especially those involving construction or renovation, offers several advantages:

Expertise and Experience: Professional contractors have the necessary expertise and experience to handle a wide range of projects. They understand the intricacies of construction, renovation, and remodeling, ensuring that the work is done correctly and efficiently.

Compliance with Regulations: Building codes, permits, and regulations can be complex and vary depending on location. Professional contractors are well-versed in these regulations and ensure that all work is compliant, reducing the risk of fines or penalties.

Project Management: Contractors manage all aspects of the project, including scheduling, procurement of materials, coordination of subcontractors, and overseeing the work. This saves time and alleviates the burden of project management from the homeowner.

Access to Resources: Professional contractors have access to a network of suppliers, subcontractors, and other resources that can streamline the project and potentially save costs. They can negotiate better deals on materials and services, passing on the savings to the homeowner.

Insurance and Liability Coverage: Reputable contractors carry insurance coverage, including liability insurance and workers' compensation, which protects both the homeowner and workers in case of accidents or damages during the project.

Time and Cost Efficiency: While DIY projects may seem cost-effective initially, they can often end up being more expensive and time-consuming due to mistakes, rework, and the need to purchase or rent specialized tools. Professional contractors work efficiently, minimizing delays and ensuring that the project stays within budget.

Increased Property Value: High-quality workmanship and professional renovations can significantly increase the value of a property. Hiring a professional contractor ensures that the investment adds value to the home and enhances its appeal to potential buyers in the future.

10 Home Design Trends Your Clients Will Love in 2024

By: Melissa Dittmann Tracey • Reprinted from Realtor Magazine, www.nar.realtor/magazine

Houzz, a remodeling website, chimes in with predictions for the most buzzworthy home features in the new year.

Stylish storage, bolder patterns and textures and colors beyond the whites and grays are expected to shake up home design in 2024. Houzz, a home renovation and design platform, weighs in with its predictions for the home trends gaining traction. Here's Houzz's list of what to watch.

Blending the Backsplashes

Backsplashes are becoming a bigger kitchen statement and stretching to new heights. In making the backsplash more of a focal point, designers are installing a slab of stone or quartz behind the range or countertop while keeping the surrounding backsplash in tile. The slab backsplash usually will match the kitchen countertop and, in a dramatic display, stretch all the way to the ceiling in a vertical focal point of the stone's graphic veining.

Adding Fluted Details

This texturized detail is accenting bathroom vanities, the backs and sides of kitchen islands and living room furniture. The aesthetic creates a "rough statement-making detail beneath island countertops, bathroom vanities and dining room tables, adding visual texture and interest," Houzz says.

Continued on page 32

TAKE STEPS to protect your health from *asbestos*

Home improvement activities can disturb, damage, or destroy building materials that might contain asbestos, potentially exposing you and others to harmful, microscopic asbestos fibers. Whether you do the work yourself or hire it out, all parties are held responsible for the proper removal and disposal of asbestos-containing materials.

Continued from page 30

Infusing Cozy, Warm Neutrals

Say goodbye to cool grays and stark whites. Warm neutrals, such as beiges, creamy off-whites and rich browns, are moving in. Whether in the kitchen or elsewhere in the home, expect more of these softer neutrals to bring a “calmer, more welcoming environment,” the report says. Designers recommend using different tones, as well as textures and patterns, to create a layered look that adds depth to home design.

Singing the Blues

Blue color schemes are a hot trend for 2024. Several paint companies have chosen shades of blue as their 2024 Color of the Year, from Benjamin Moore’s bright “Blue Nova” to Sherwin-Williams’ softer “Upward.” “Whether it’s a sky-inspired hue or deep watery blue color, look for an array of blues to be featured more prominently in decorative materials and housewares in the coming year,” Houzz says.

Making ‘Old’ New Again

More homeowners are incorporating more traditional details and materials into their home design, the report says. This not only can create “a timeless style” but also “a sustainable choice during renovations,” the Houzz report adds. “Even modern homes are incorporating ‘old’ elements, such as brick, handmade clay tiles, rustic wood elements and arches that offer ‘quiet luxury.’”

A Stylish ‘Appliance Garage’

Clever storage solutions are gaining traction as homeowners look to tuck away all those countertop appliances, like the air fryer, coffee makers and blenders. An appliance garage allows easy access while also offering up a sliding cabinet or specialized cabinetry to hide all the gadgets.

Modernizing Herringbone Patterns

Herringbone patterns are making a comeback, but with a twist. It’s becoming a go-to pattern for kitchens and bathrooms, but the “typically horizontally zigs are beginning to zag in new directions—diagonally or vertically—to create an updated look with visual interest, movement and texture,” the Houzz report says.

BOOTH 145

Making the 'Mud-Laundry Room'

Two areas are getting combined in creating the "mud-laundry room." The idea is to help tackle the mess at the entry points of a home. "This increasingly popular setup lets homeowners place grimy sports uniforms, sandy beach towels or muddy winter coats directly into the wash before they track dirt further into a home," the Houzz report says. Some must-haves for the mud-laundry room: a utility sink to soak dirty clothes or muddy boots right away, as well as plenty of cabinets, hooks and cubbies to organize entryway gear, and a bench for taking on and off shoes.

Please contact Medicare.gov, 1-800-MEDICARE or your local State Health Insurance Program (SHIP) to get information on all your options

Looking in-Between the Pavers

Greenery is getting tucked between outdoor pavers on walkways to add visual interest. "Whether driven by aesthetic requests or as a byproduct of maintaining onsite drainage, we're seeing increased interest in greenery tucked between pavers," the Houzz report says. "Garden paths and patios made of pavers, separated by ground cover, have gained popularity due to their natural look, permeability and design versatility. This approach softens pathways, breaks up large expanses of hardscape and generally makes a walkway or patio feel more like a lush, living part of a garden."

Creative Landscaping & Hardscaping

Courtesy of Sam Maple, Certified Arborist • Owner of Sam's Tree & Landscape

Are you looking for a unique addition to your yard?

Your landscape design defines the atmosphere surrounding your home and provides the first impression for guests and passersby. Make it something that is easily remembered.

Creative Hardscape Designs: The correct design can do more than give you great outdoor spaces. Properly designed patios, sidewalks, driveways, and retaining walls also add dashes of warmth and practical artistry to your yard. Your taste is reflected both inside and outside your home. Incorporate features from the surrounding Inland NW Landscape to bring a unique aspect to your home.

Hardscaping: This can really make your outdoor spaces look exceptional. It is a perfect way to add beauty and functionality to outdoor spaces. It involves using elements such as rocks, pavers, and concrete to create structures like patios, walkways, fire pits, and retaining walls that can withstand the elements. Hardscapes are practical -- offering a gathering area or resting spot, but the best ones also take their clues from nature, and will both enhance the natural surroundings and offer you some practical value.

Water Features: This can add a peaceful and calming element to your outdoor space. Plus, the sound of running water can help drown out unwanted noise from neighbors or nearby traffic.

Retaining Walls: Functional and attractive, retaining walls prevent erosion while creating tiers for planting, seating, or defining different areas of the landscape.

Stone Walkways: Adding permanent stone features not only add value to your property, but also give a foundation to your entire yard. Whether it's charming pathways that meander through your garden, or sitting areas that allow for people to walk and gather in any yard, using natural stone is an organic and timeless look.

Fire Pit Construction: Extend outdoor enjoyment into the cooler evenings with a custom-built fire pit, providing a cozy gathering spot for family and friends.

Paver Patio Design: Transform outdoor spaces into inviting gathering areas with durable and stylish patios, perfect for springtime barbecues and relaxation.

Decorative Rock Designs: Incorporate rocks and boulders to add texture, contrast, and interest to garden beds and borders, reducing maintenance.

Gathering Places & Sitting Areas: Design inviting spaces with comfortable seating, pergolas, or gazebos for enjoying the spring weather and hosting outdoor gatherings.

Steps & Sidewalks: Enhance accessibility and aesthetics of your yard with custom-built pathways, steps and staircases, using materials that complement the landscape design, while adding architectural interest to the landscape.

Outdoor Lighting Systems: Extend outdoor enjoyment into the evening hours with strategic ambient lighting that highlights key features, enhances safety, and creates ambiance. Your outdoor space will look even more inviting and will add a warm glow to your property.

Trees & Shrubs: Selecting the appropriate trees & shrubs for your area is the backbone of any exterior planting design. These structures provide anchoring and interest for your outer space and, depending on your planting goals, can be a large part of your overall plan.
