## NOXIOUS WEEDS

**What is a Noxious Weed?** They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

**GARLIC MUSTARD**

**the Exchange**

**GARLIC MUSTARD**  
(*ALLAIRIA PETIOLATA*)

This perennial grows 3ft tall. Young growth smells like garlic when crushed. Basal leaves are kidney shaped and irregularly toothed. Stems are upright and may be branched. Flowers are cross shaped with four white petals on a flowering stalk that extends as flowers bloom. Taprooted; typically has an S shape at the top of root. Seed pods are long, narrow and upright. This weed interrupts the life cycles of butterflies and salamanders. It also interferes with the growth of other plants and trees. Can easily be removed by pulling and digging. Ensure entire root is removed.

**For More Information on how to Control your Noxious Weeds, Contact:**

*Dave Jayne*  
"The Outdoor Insider"

My fishing buddy James Lebow wanted to see if some of his favorite fishing haunts on Moses Lake would still produce walleye. So, Ryan Harris and I jumped on his boat last Friday at about 7 a.m. We launched at Blue Heron Park, thinking we may want to fish both the south end and upper end of the lake. We decided to try an area just below the I-90 Bridge above Peninsula Park. Turns out we never had to leave this spot. James deployed his Minn Kota Ulterra, and we put out bottom bouncers and spinners and started trolling in about nine feet of water. We were all using Sparkly Green Smile Blades, which seem to work best on Moses Lake. James kept his eye on his Humminbird depth sounder and trolled in a pattern that skirted the weed beds. We were into fish right away and found enough walleye here to keep us busy. We found that even when we wound up in the weeds, we usually got a fish. We got the occasional perch or smallmouth bass and released a few undersized walleye. By 11:30 we had 22 walleye from 14 to 21 inches in the live well and headed for the launch and lunch. James filleted our catch back at his home. The water temperature on the lake was about 22 degrees, and we were both very impressed with the quality of the fish. This week's photo is of me with one of the bigger walleye we landed.

The other day I decided to swing by the takeout on the Wenatchee River to see if anyone was catching fish on the Icicle River. Just pulling the boat out of the river was Diane, Shane Magnuson's wife, with him in the boat! This was a wonderful surprise. As many of you know, Shane and I go way back. We have fished together on the Columbia River from Drano Lake all the way up to the Brewster Pool and even made a couple of trips on the Okanogan River for steelhead. We laughed about our first trip down the Icicle in a 12 foot rowboat and landing a springer, and the day he put me on two 30 pounders in the same hole a few years later. Shane has been good enough to help me shoot videos on fishing for salmon and steelhead on many popular destinations on

the Columbia River, and they have been viewed by tens of thousands of anglers. To this day, people tell him that they just watched one of the videos and enjoyed it, even though it's many years old. It was great to see him and his wife and that they are doing well.

Bob Feil Boats and Motors is sponsoring several boating events in the region, and the Second Annual Opening of Boating Season and Boat Parade at Crescent Bar is one of them. It's coming up on Saturday, June 14th. If you have a boat, any kind of boat, you can join the fun. Just show up with your boat decorated and crew dressed to reflect the Pirate theme. It takes place at the

marina near Tower Pizza. The boats will all stage in the back bay and cruise within view of the crowd on the bridge over the channel. The top three best dressed crew and decorated boats will receive a treasure chest of goodies, and their names engraved on the coveted three-foot tall Crescent Bar Cup. I attended the event last year and it was a lot of fun. This year's promises to be even bigger and better. There are a limited number of boats that will be included in the parade, so get your registration in right away. All you have to do is log onto the Crescent Bar Association's website at [www.CrescentBar.org](http://www.CrescentBar.org) and fill out a registration form. The association pulls out all the stops to make this day one to remember.

Christine Lee works at Bob Feil Boats and Motors, and when her mother Brenda visits from Alberta, Canada, I take them fishing. They have fished

with me on the Smoker Craft Phantom on Lake Wenatchee for sockeye, Lake Chelan for kokanee, and now Banks Lake for smallmouth bass. I always like to take people that want to catch a bass to Banks, as it is loaded with eager fish, and it is a very scenic place. Christine took the bow position and Brenda joined me in the stern. I actually ran the Minn Kota all day from the back of the boat and am getting pretty good at steering without seeing where the head of the motor is pointing. They loved seeing fish on the Garmin fish finder. We fished the west shore above Rosebush and found plenty of smallmouth. We cast our baits close to shore, or over large submerge rocks. They were hitting Baby Brush Hogs, Lizards and grubs. We released a bunch of small ones, and they kept some of the larger fish to take home to cook. Once again, I had a blast fishing with these two, and I look forward to our next adventure.

I know that if you follow my reports on my website, Facebook page, on radio or newspaper, you are an angler already. Maybe you have a friend, family member, or neighbor that doesn't fish and here's chance to let them sample what you enjoy. Washington State's Free Fishing Weekend is coming up on June 7th and 8th, and people don't need a fishing license to experience what so many people do. The Free Fishing Weekend also coincides with the Discovery Pass Free Days, when the Discovery Pass is not required on lands managed by Washington State Parks or the Department of Fish and Wildlife. You also do not need to have a Vehicle Access Pass or the Two Pole Endorsement. Everyone still needs to follow the rules detailed in the Washington Sport Fishing Pamphlet. As an additional incentive to give fishing a try, those who fish on the Free Fishing Weekend can also win a prize when they catch a tagged trout, through the WDFW's Trout Derby. There are some exceptions to what anglers can catch without a license, and you can learn about these by visiting the WDFW website. So, take someone fishing. It might mean the beginning of a life long activity.

# CUSTOM HOMES: DESIGN, TRENDS, BENEFITS & SUSTAINABILITY

Part 3

A custom home stands out from the crowd. Owners of a custom home get to enjoy a one-of-a-kind creation that offers luxurious modern living upgrades and unique architectural design.

## What is Universal Design?

At its core, Universal Design is about designing products, places, and services in a way that benefits the widest possible range of people. For custom home builders, this means creating floor plans and selecting finishes that accommodate the varying needs of different populations, from children and older adults to individuals with disabilities or temporary injuries.

## Benefits of Universal Design in Custom Built Homes

Beyond accessibility, UD also promotes flexibility and adaptability. Features like wider doorways, adjustable-height counters, and open floor plans can be easily modified or reconfigured over time to meet changing needs. This makes the home future-proof, allowing it to evolve with the inhabitants as their circumstances change due to aging, growth, or shifts in lifestyle.

Perhaps most importantly, Universal Design creates an environment of inclusion. By catering to differing preferences, abilities, and learning styles, UD promotes social interaction and belonging. In a custom home, this can lead to a stronger sense of community and connection among family and friends who visit.

## How to Incorporate Universal Design into a Custom Home

Work with your architect and builder to create floor plans that maximize the flow of the home, with wide hallways, open spaces, and clear pathways to all areas.

When it comes to finishes and fixtures, choose materials and products that are durable, low-maintenance, and easy to use. This might include non-slip flooring, lever handles on doors and cabinets, and adjustable-height appliances and counters.

Don't forget about outdoor spaces, either. Create a seamless transition between the indoors and outdoors by using materials and designs that flow naturally from one to the other. This will make it easy for all occupants to move freely between the living spaces and outdoor areas.

## Balancing Luxury and Function in Custom Built Homes

When designing a custom, luxury home with multi-generational appeal, it's crucial to strike a balance between opulence and practicality. Here are some key considerations:

- **Open Floor Plans:** Maximize the sense of space by incorporating open-concept living areas that flow seamlessly from one room to the next.
- **Luxury Finishes:** Incorporate high-end materials and finishes throughout, such as marble countertops, custom cabinetry, and top-of-the-line appliances.
- **Technological Integration:** Smart home automation, advanced security systems, and whole-house audio/video are essential features in a luxury home. They provide conveniences and enhance the living experience.
- **Outdoor Living Spaces:** Design expansive outdoor areas with covered patios, outdoor kitchens, fire pits, and landscaped gardens. These spaces extend the living area and provide opportunities for relaxation and entertainment.

Unlimited hydroplanes will battle for the American Power Boat Association Gold Cup, July 25-27 on the Columbia River. Tri Cities Water Follies photo

### TRI-CITIES WATER FOLLIES CELEBRATE 60 YEARS HOSTING 2025 APBA GOLD CUP From H1

TRI-CITIES, Wash. — The 60th edition of the Tri-City Water Follies unlimited hydroplane race will have a special birthday present in honor of the event.

Hosting the APBA Gold Cup in the backyard of so many H1 teams, July 25-27 on the speedy Columbia River course.

"For Water Follies in Tri-Cities to be this year's host of the Gold Cup means a lot to this region of the country," Mike Denslow, Chairman of the Board of H1 Unlimited, said in an news release. "We know it will be a great battle and wonderful way to celebrate their 60th season of hydroplane racing."

The Tri Cities race will mark the midpoint of the 2025 H1 Unlimited season that begins, June 6-8, Gunter'sville Lake Hydrofest in Gunter'sville, Alabama. Racing continues at Madison, Indiana, July 4-6 before the annual "Western swing."

Following Tri Cities comes the final two events, August 1-3, Seattle Seafair and September 12-14, the San Diego Bayfair Cup.

### RIDDLE CAPTURES 3RD ANNUAL WENATCHEE 200 | From Racing America

WENATCHEE, Wash. (May 31, 2025) — Owen Riddle added the Wenatchee 200 presented by Plumb Perfect to his resume and took home more than \$25,000 on Saturday night at Wenatchee Valley Super Oval.

Riddle has won many of the top Late Model races on the West Coast, including three Apple Cups, three Montana 200 victories, as well as wins in the Summer Showdown and Chilly Willy.

Riddle took the lead on lap 75, giving him the top spot at the race's halfway break. While Kasey Kleyn closed in during the final laps, no one would wrestle the advantage away from Riddle during the race's second half.

The veteran driver set fast time in qualifying, but a four-car invert placed Riddle on the outside of row two to start the race. Riddle dropped back to fifth in the opening laps, but soon worked his way forward and eventually took the lead from Jan Evans.

"You know, I didn't want to start where we started," said Riddle. "We kind of tried to bide our time there. Just be smart, took what it gave us."

While Riddle controlled the second half as he hoped, Kleyn and Kole Raz grew larger in his mirror at the end of the race. The top three nearly finished within a half-second of each other after 200 laps.

"I was just trying to be smart, not doing anything dumb in there, slip a tire," said Riddle. "I was getting lapped traffic. I knew Kasey was coming. To be honest with you, I was getting ready to give a bumper or something like that. I just kept hitting my marks and did the best we could to keep away from him."

Kleyn held off Raz for second, taking that spot from him with 31 laps to go. It was a hard-fought runner-up finish, with the 2024 Northwest Super Late Model Series champion wishing he had more speed on restarts to truly challenge for the win.

"Overall, I'm happy," said Kleyn. "We had no motor in this car on Wednesday, blew it up. To put one in there, come out, finish second with a chance to win it, we fell a little short. We were so close, and we were running them down fast at the end."

Raz finished third, Haeden Plybon was fourth, with Alan Cress rounding out the top five.
